This Patent Book K. **2525**
IN FILLING this Scrap Book NEVER gum in papers,
etc., close to binding. Leave at LEAST ONE-HALF
INCH from back of leaf.

To get a better result after gumming the paper or picture on
the leaves, STAND the book up on END, the leaves spread apart
so that the air can flow through and dry. This will prevent
MOULD, and the leaves will be less liable to wrinkle.

LEHIGH UNIVERSITY.

Freshman Class Numbers 190 Men—Changes in the Faculty.

SOUTH BETHLEHEM, Pa., September 22.—Lehigh University opened on Wednesday for its forty-sixth year, with an enrolment of 700 students, of whom 190 are freshmen. The engineering courses are, as usual, most largely attended.

Faculty changes include the advancement to associate professorships of two assistant professors, Joseph Daniels, mining engineering, and V. S. Babasinian, chemistry. Prof. Howard Eckfeldt, who has been in Mexico for the past year, returns to head the mining engineering department. Prof. W. B. Schober, chemistry, has received a year's leave of absence. The following instructors have been raised to the rank of assistant professors: Ralph J. Fogg, civil engineering; H. A. S. Howarth, mechanical engineering, and Edgar T. Wherry, geology.

LEHIGH UNIVERSITY.

Celebration of Founder's Day—James McCrea the Speaker.

SOUTH BETHLEHEM, Pa., October 7.—An address favoring the training of young men in college for activity in politics, was delivered by James McCrea, president of the

Pennsylvania Railroad, at the founder's exercises held to-day by Lehigh University. Mr. McCrea paid tribute to the memory of Asa Packer, who, ten years after projecting and starting the construction of the Lehigh Valley Railroad, established Lehigh University.

Opening in the fall of 1866, with four professors and forty students, the college has grown into an institution having upward of 700 students and 69 in its faculty. A feature of the exercises was the unveiling of a mural tablet commemorating Judge Packer, the gift of the alumni. This tablet, executed by J. Massey Rhind of New York, occupies a prominent position in Packer Memorial Church, on the campus.

President Drinker and Prof. J. W. Richards will attend the meeting of the American Institute of Mining Engineers, in Japan, sailing from San Francisco on October 17. Dr. Drinker was one of the founders of the American Institute in 1871.

LEHIGH UNIVERSITY.

Enrolment in the Extension Courses Shows Big Increase.

SOUTH BETHLEHEM, Pa., October 20.—The Lehigh University extension courses are now in full swing for the 1911-12 term. This year, with the scope of the courses considerably increased, there are more than twice as many students enrolled as in the two earlier years. Allentown, a neighboring city, is represented by twenty public school-teachers and principals, who form a class that meets for instruction in educational psychology. The courses offered are: Psychology, studies in philosophy, German, elementary, and intermediate, studies in Latin literature, business law, biology, American history, and physiography.

Judge Frank Trexler and Dr. Charles F. Fry were speakers at a Bible study institute held this week. Prof. W. S. Franklin (physics) lectured this week before engineering clubs at Lynn, Mass., and at Washington, D. C.

LEHIGH UNIVERSITY.

Programme of Founder's Day—New Members of Teaching Staff.

SOUTH BETHLEHEM, Pa., September 29.—Lehigh University will celebrate founder's day next week. The experiment is to be tried of having the annual event on Saturday, instead of on the second Thursday of October, as heretofore. This is for the benefit of alumni, who find it more convenient to get away from their business on the last day of the week.

The central feature of the programme will be the unveiling of a life-size bronze mural tablet of Asa Packer, founder of the university, a tablet presented by alumni of Lehigh. It is the work of the sculptor J. Massey Rhind of New York. The address will be delivered by James McCrea, president of the Pennsylvania Railroad.

Newly appointed instructors and assistants at Lehigh are: C. S. Chiles, in mechanical engineering; Dr. R. C. Gowdy, in physics; Dr. E. A. Sallers, in accounting in the department of business administration; Raymond W. Walters, in English; F. E. Haskell, in electrical engineering; H. P. Hammond, in civil engineering; H. P. Smith, in mining; W. F. Odom, in chemistry; C. L. Siebert, in biology; J. R. Dawson, in metallurgy; Carl W. Mitman, in geology.

President Drinker represented Lehigh this week at the National Conservation Congress in Kansas City, Mo. Prof. John L. Stewart of the department of economics and history addressed the American Export Association in New York on "Some Difficulties Confronting American Export Trade."

LEHIGH UNIVERSITY.

Prof. McKibben to Help in Investigation of Austin Dam Disaster.

SOUTH BETHLEHEM, Pa., October 13.—Prof. F. P. McKibben, head of the department of civil engineering at Lehigh, has been appointed consulting engineer by the State committee which is investigating the causes of the flood disaster at the Austin dam. Professor Richards (metallurgy) has returned from Norway, where, in September, he represented Lehigh at the one hundredth anniversary of the University of Christiania. "The industrial circles in Norway and Sweden," he says, "are setting an example to the whole world of very cheap development of water power and its application to various new electro-chemical processes."

Joseph Daniels, recently promoted to assistant professorship of mining engineering, has resigned to take a faculty position in the College of Mines at the University of Washington.

Acting upon the suggestion of James McCrea, president of the Pennsylvania Railroad, in his founder's day address, the students have organized the Lehigh Politics Club, to take up work along lines advocated by Mr. McCrea.

LEHIGH UNIVERSITY

Bach Festival to Be Resumed Next Year in Packer Church.

SOUTH BETHLEHEM, Pa., October 27.—The Bach festivals of Bethlehem, which, a number of years ago, attracted wide attention, will be resumed next May or June in Packer Memorial Church, Lehigh University. Dr. J. Fred Wolle, founder of the Bach Choir here, and for the past six years head of the music department of the University of California, has returned to Bethlehem to take up festival work.

At a meeting this week the Bach Choir was reorganized. It received accessions from the Oratorio Society of the Bethlehems, which disbanded in favor of the Bach organization.

H. S. Drinker, president of Lehigh, was elected president of the choir. The university has offered free use of Packer Church for the festivals, which, in former years, were held in the Moravian Church.

Judge Beaver of the Superior Court of Pennsylvania and an ex-Governor of the State, addressed the students this week on "The All-Around Man."

LEHIGH UNIVERSITY.

Department Clubs Begin Work—New York Alumni to Meet.

SOUTH BETHLEHEM, Pa., November 3.—The various departmental societies of Lehigh University, organized by the students to supplement class-room work, have begun their activity for the year. In the past week meetings were held by the Mining Engineering and Mechanical Engineering Societies, the Chemical Society, Arts and Science Club, the Electrical and Civil Engineering Societies, and the new Politics Club.

Dr. Peter Roberts, immigration secretary of the International Young Men's Christian Association, gave an illustrated talk on "Educational Work Among the Immigrants" before the student body to-day. Another recent lecturer was Henry S. Graves, chief of the United States Bureau of Forestry, whose topic was "Progress in Forestry."

The New York branch of the Lehigh Alumni Association will meet at the Manufacturers' Club, No. 50 Church Street, on November 10. Dr. H. W. Wiley, the government's chief chemist, will speak at Lehigh next Friday.

EDUCATORS AND THEIR WORK

Prof. R. W. Blake represented Lehigh at the inauguration of President Pendleton at Wellesley.

Nov. 10, 1911.

LEHIGH UNIVERSITY.

SOUTH BETHLEHEM, Pa., November 10.—The first regular meeting of the Faculty Club of Lehigh University was held last evening, when Prof. P. M. Palmer (German) talked about his travels in Germany and Italy last summer. The programme for the year includes several addresses by educators from other colleges. Dr. Harvey W. Wiley of the United States Bureau of Chemistry lectured to-day on "Public Health, the Nation's Greatest Concern." At a meeting of the Civil Engineering Society on Wednesday, Joseph W. Hunter discussed "The Work of the Pennsylvania State Highway Commission," of which he is first deputy commissioner.

Prof. William C. Thayer represented Lehigh at the service held recently at Lafayette College, in memory of Dr. F. A. March.

Nov. 18, 1911

LEHIGH UNIVERSITY.

SOUTH BETHLEHEM, Pa., November 24.—Conservation of school children will be the subject of a conference at Lehigh University on April 3 and 4, 1912, under the auspices of the American Academy of Medicine. The advisory committee includes A. A. Hamerschlag, director of the Carnegie Technical Schools; Joseph Buffington, United States Circuit judge at Pittsburgh; N. C. Schaffer, State superintendent of public instruction; Dr. T. G. Simonton of Pittsburgh, Dr. G. Hudson Maknen of Philadelphia, Dr. J. B. McAllister of Harrisburg, and H. S. Drinker, president of Lehigh.

LEHIGH UNIVERSITY.

New Department of Business Administration Is Growing Steadily.

SOUTH BETHLEHEM, Pa., December 1.—One development at Lehigh University recently has been the growth of the department of business administration. Instituted in the fall of 1910, it had a promising first year, and now shows a large increase in enrolment. Ten per cent. of the freshman class are taking the business administration courses, and the new department bids fair to rival the engineering courses. Prof. John L. Stewart is in charge. His newly appointed assistant in accounting is Dr. Earl A. Sallers, a graduate of Ohio State University and the University of Pennsylvania.

Lehigh Politics Club, organized recently upon the suggestion of James McCrea, president of the Pennsylvania Railroad, who spoke here on founder's day, now has 100 members. The club was addressed this week by Arthur C. Ludington of New York, a member of the Citizens Union.

The New York-Lehigh Club will hold its next meeting at the Machinery Club, No. 50 Church Street, on the evening of December 8. The Maryland-Lehigh Club had its November session on Wednesday evening in Baltimore.

The Evening Post

New York, Saturday, Nov. 25, 1911.

Published and owned by the New York Evening Post Co., Oswald Garrison Villard, President; William J. Pattison, Secretary and Treasurer. ROLLO OGDEN, Editor. EDWARD G. LOWRY, Managing Editor. WILLIAM J. PATTISON, Publisher.

After an inquiry into the disaster at Austin, Pa., where some eighty persons were killed and a village wiped out, the coroner's jury has returned a verdict of gross negligence against George C. Bayless, president of the paper company, and Frederick N. Hamlin, its superintendent. Hamlin and Michael C. Bailey, an employee in charge of the dam at the time of the break, have been held for the December court in \$1,000 bail, charged with involuntary manslaughter. A warrant has been issued for Bayless, whose home is in this State, on the same charge. It is fitting that this great calamity should not be merely a nine days' wonder, but held up as a warning to the people of Pennsylvania and other States. That there was ground for searching investigation is shown by the statement of A. K. McKim, inspector of dams in this State, the criticisms of the construction of the dam which Professor McKibbin of Lehigh University and Alfred D. Flinn, engineer of the Board of Water Supply of this city, made at the inquest, and the fact that the dam is known to have failed partially as long ago as January, 1910. We are glad to note that Mr. Bayless states that he will not take advantage of any legal quibbles and will surrender himself for trial without extradition.

President Drinker Sends Account of Meeting of Engineers in Japan.

SOUTH BETHLEHEM, Pa., December 8.—The first account of the annual meeting in Japan of the American Institute of Mining Engineers was received here to-day in a letter written by H. S. Drinker, president of Lehigh University. Papers were presented by Dr. Reiji Kanda of Tokio on "Japanese Mining and Metallurgical Interests"; by D. W. Brunton of Denver, ex-president of the Institute, on "The Laramie Tunnel," with discussions by Dr. Drinker and W. L. Rand, president of the Ingersoll-Rand Company; by Will O. Clark, superintendent of the United Verde Mining Company, on "A Proposed Change in the United States Mining Law," and by Prof. J. W. Richards of Lehigh on "Electrochemical Industries of Norway and Sweden."

Included in the Institute party, which set sail from San Francisco on October 17, were thirty-eight engineers and their families. The party disbanded on November 16. President Drinker will spend some time in China, returning by way of India so as to arrive in New York about January 20.

LEHIGH UNIVERSITY.

SOUTH BETHLEHEM, Pa., December 22.—A letter just received at Lehigh from President Drinker tells of the reception tendered last month by the Imperial University of Tokio in Japan to the visiting members of the American Institute of Mining Engineers. Addresses were given by Dr. Drinker and Prof. J. W. Richards (metallurgy). Both said that, as a result of their inspection of Japanese universities, they would advise young men in Japan to "go abroad only for special supplementary post-graduate studies, for which special facilities may be open to them in other countries." Prof. Charles F. Scott, head of the electrical engineering department at Yale, addressed the Lehigh Electrical Society this week on "A Typical Central Station."

LEHIGH UNIVERSITY.

Bach Musical Festival to Be Begun on May 31.

SOUTH BETHLEHEM, Pa., January 12.—The 1912 Bach Festival will be held in Packer Memorial Church, Lehigh University, on Friday, May 31, and Saturday, June 1. A chorus of 150 singers is rehearsing regularly under the leadership of Dr. J. Fred Wolle for the rendition of the Mass in B Minor. There will be two sessions each day of the Festival. During the last six years, in which Dr. Wolle was head of the department of music at the University of California, no festivals were held in Bethlehem.

The Young Men's Christian Association is holding meetings at Lehigh under the direction of Dr. W. D. Weatherford a graduate of Vanderbilt College, J. W. Pontius, and E. C. Mercer, alumni of Ohio Wesleyan and the University of Virginia respectively.

LEHIGH UNIVERSITY.

Conference Department Has Entered Upon Its Third Year.

SOUTH BETHLEHEM, Pa., December 29.—Lehigh University's conference department enters its third year on January 1. In 1908, upon suggestion of alumni, the University organized a conference school, to which all freshmen and sophomores needing special aid in their studies were invited.

At its head is Prof. P. A. Lambert (mathematics), with whom are associated teachers in modern languages, chemistry, and physics, the four subjects in which young men most frequently fail at Lehigh. As teachers in these departments, they know how each department wishes its work done. They are paid by the University for this conference work—not by the students—so they have no interest in the number of men applying for aid, or in the fees paid. No private coaching is allowed by any of the faculty.

The conference school is open from seven to nine o'clock on Monday, Tuesday, Thursday, and Friday evenings for a fee of \$1.50 for the four lessons. It sits on Wednesdays and Saturdays from 2 to 4 P. M., when instruction is given free of charge. The school has met with success.

The English department has announced for the second term, beginning in February, a practical course in "Technical Writing," and a course in "principles of journalism." These courses will be conducted by R. W. Walters, instructor, who was trained on a newspaper.

The department of electrical engineering has been presented with a complete set of modern telephone apparatus by the Western Electric Company.

poetry.

LEHIGH UNIVERSITY.

SOUTH BETHLEHEM, Pa., December 15.—Scientific management is being studied by the undergraduates of Lehigh University at meetings of the engineering societies. Recently the Mechanical Society was addressed on phases of this subject by Morris L. Cooke, an alumnus, who has just been appointed Director of Public Works in Philadelphia by Mayor Blankenburg. In January Charles Day, a lecturer at Harvard, will speak on "Efficiency in the Building of Industrial Plants."

EDUCATORS AND THEIR WORK

Vice-President Emery of Lehigh University, Prof. W. S. Franklin, and Prof. F. V. McKibben attended the meeting of the Philadelphia-Lehigh Club, held in Philadelphia on Wednesday.

LEHIGH UNIVERSITY.

President Drinker Returns from Trip Through the Orient.

SOUTH BETHLEHEM, Pa., January 26.—President Drinker and family arrived at Lehigh to-day from a trip through the Orient. They set sail from San Francisco last October on the annual excursion of the American Institute of Mining Engineers. After the Institute party dispersed in Japan, Dr. Drinker visited China (where he was born, his father having been a merchant in Hongkong), Ceylon, India, and Arabia. He attended the Durbar at Delhi.

The annual dinner of the Lehigh Club of Greater New York will be held on February 10. Charles M. Schwab, a trustee of Lehigh, will be a guest of honor. The Philadelphia-Lehigh Club had its annual smoker last night.

LEHIGH UNIVERSITY.

President Drinker Returns from Trip Through the Orient.

SOUTH BETHLEHEM, Pa., January 26.—President Drinker and family arrived at Lehigh to-day from a trip through the Orient. They set sail from San Francisco last October on the annual excursion of the American Institute of Mining Engineers. After the Institute party dispersed in Japan, Dr. Drinker visited China (where he was born, his father having been a merchant in Hongkong), Ceylon, India, and Arabia. He attended the Durbar at Delhi.

The annual dinner of the Lehigh Club of Greater New York will be held on February 10. Charles M. Schwab, a trustee of Lehigh, will be a guest of honor. The Philadelphia-Lehigh Club had its annual smoker at night.

ATHLETICS AND HEALTH.

In his report for 1911, Dr. Charles F. Stokes, Surgeon-General of the navy, made the rather sweeping statement that, in the opinion of the Bureau, "competitive and spectacular athletics are undesirable in the service."

Doctors would not be doctors if they did not disagree, and consequently one feels no surprise at finding that Dr. Stokes's conclusions provoke as much dissent as approval among medical men. Dr. Sargent, for instance, in a symposium upon the subject in the *Medical Times*, attributes the "vast majority" of injuries resulting from athletics to the very cause which the Surgeon-Gen-

eral does not make prominent, namely, football; and not merely to training for the game, but to actual participation in it. Dr. Estes of Lehigh, on the contrary, sees the harm to be in the "ulterior effects of over-exertion," especially by undeveloped boys who have not had sufficient training for the strenuous contests which they enter. This confusion as to what are the facts in the case is paralleled by the uncertainty of deduction drawn from whatever set of data one accepts. Here is Dr. Lambert of the University of Virginia, confessing that he has permitted some men to play who were suffering with derangement of the heart; explaining that he had known none of them to be injured, and that some of them had shown improvement; but unexpectedly adding: "This improvement I do not, however, attribute to football." Similarly reticent is Dr. Anderson of Yale.

LEHIGH UNIVERSITY.

New Dormitory Building May Be Ready for Spring.

SOUTH BETHLEHEM, Pa., February 9.—The work of altering an old building on the Lehigh University campus for dormitory use is proceeding so rapidly that it may be ready for occupancy by spring. The hall—which has not been named—will have three floors divided into suites and single rooms. Situated near the Commons and the main college buildings, this building is more favorably located than Taylor Hall.

The Lehigh Club of Greater New York will hold its annual dinner to-morrow night in the Hotel Astor. R. B. Honeyman, president of the club, will be toastmaster. The speakers include President Drinker and Charles M. Schwab, a trustee of Lehigh. The Women's Club of Lehigh gave a reception on Tuesday evening to Dr. Drinker and Professor Richards, who returned recently from the Orient. The Faculty Club was addressed last night by Professor McKibben (civil engineering) and Professor Thornburg (mathematics) in the series of departmental talks.

J. Horace McFarland, vice-president of the Pennsylvania State Branch of the National Conservation Association, will give a lecture before the students on February 16.

LEHIGH UNIVERSITY.

Alumni of Eastern Pennsylvania Dine —A New Western Club.

SOUTH BETHLEHEM, March 3.—The annual dinner of the Lehigh University Club of Northeastern Pennsylvania was held at Wilkes-Barre last evening. The faculty was represented by President Drinker, Profs. A. E. Meaker and H. E. Eckfelt.

Graduates working in eight Western mountain States organized the Intermountain Lehigh Club at a meeting in Salt Lake City on March 1. Dr. J. E. Talmage, '91, is president, and J. H. Wolfe, '05, is secretary.

Arthur Rugh, who returned recently from China after living there several years, spoke on "Present Conditions in China" before the Lehigh student body and townspeople of the Bethlehems in Packer Memorial Church to-day.

LEHIGH UNIVERSITY.

Winners in Junior Oratorical Contest —Aliens Are Being Taught.

SOUTH BETHLEHEM, Pa., February 23.—The junior oratorical contest was held in Packer Memorial Church, Lehigh University, yesterday, when six students in the class of 1913 competed for alumni prizes of \$25, \$15, and \$10. The awards were: First, Chimin Chu-Fuh, whose subject was "The Chinese Revolution"; second, Sidney D. Williams, who spoke on "The Regulation of Trusts"; third, Henry R. Griffin, whose topic was "The Short Ballot." The other speakers were Donald Bowman, William C. Fry, jr., and William C. Rehfuss.

The Southern Lehigh Club had its twentieth annual banquet in Washington, D. C., this week. Addresses were made by Dr. Harvey W. Wiley, Chief of the Bureau of Chemistry; Dr. Joseph A. Holmes, Director of the Bureau of Mines; Representative W. D. B. Ainey, President Drinker, Prof. William C. Thayer, and others.

E. A. Sterling of Philadelphia, ex-forester of the Pennsylvania Railroad, lectured on wood preservation before the students to-day.

In addition to its classes for public and private school teachers in extension courses, the department of education is doing work among the foreign population of South Bethlehem. English, arithmetic, and algebra are taught to young Hungarians, Poles, Russians, Germans, Argentinians, and Jews employed at the Bethlehem Steel Company's plant.

EDUCATORS AND THEIR WORK

President Drinker of Lehigh has been appointed by Gov. Tener an honorary member of the national committee for the celebration of the one hundredth anniversary of peace among English-speaking peoples, to be held in 1914 and 1915. Lehigh was represented at the chestnut-blight conference in Harrisburg this week by Dr. Drinker, Prof. R. W. Hall, and H. Cranmer of the department of forestry.

Estimate of Earnings of Mechanical Engineering Graduates.

SOUTH BETHLEHEM, Pa., March 29.—*Brown and White*, the students' newspaper of Lehigh University, says that, beginning with 1901, all mechanicals graduating in June have been placed before graduation. The average monthly wage at the start was as follows: 1911, \$76.20; 1910, \$75.40; 1909, \$72.90; 1908, \$68.64; 1907, \$73; 1906, \$69.33; 1905, \$67; 1904, \$57; 1903, \$65; 1902, \$60; 1901, \$55.

The Chemical Society has passed a resolution expressing to H. C. Miner, '88, appreciation of the gift of a portrait of the late Waldron Shapleigh. The portrait has been placed in the Shapleigh Library. The Lehigh Club of Greater New York, at its last meeting, discussed several questions that are receiving the attention of alumni.

LEHIGH UNIVERSITY.

Speakers Who Took Part in Conference on Children.

SOUTH BETHLEHEM, Pa., April 5.—Prominent educators and physicians from points in the East and Middle West attended the conference on conservation of school children, held at Lehigh University under the auspices of the American Academy of Medicine this week. Sessions were devoted to these subjects: "Deficient and Backward Children," "Conservation of School Children," "Teaching Hygiene," and "Medical Inspection."

Speakers included Andrew W. Edson, associate city superintendent of schools of New York; Owen R. Lovejoy of New York, secretary of the National Child Labor Committee; Dr. Seneca Egbert, dean of the Medical Chirurgical College, Philadelphia; Prof. Percy Hughes of Lehigh, Prof. James D. Wood of Teachers College, Columbia University; Dr. Helen C. Putnam of Providence, R. I.; Prof. T. A. Storey of the City College, New York; Dr. J. F. Edwards, head of the Pittsburgh Board of Health; Dr. Ira S. Wile of New York; Prof. W. S. Cornell of the University of Pennsylvania; Dr. M. P. E. Groszmann of Plainfield, N. J.; President Drinker of Lehigh, and others.

LEHIGH UNIVERSITY.

SOUTH BETHLEHEM, Pa., April 12.—The spring work of the department of geology of Lehigh University includes week-end trips by the classes in economic geology to mines and deposits in this section. Thus far the students have visited the Cornwall magnetite deposits, the smelters at Lebanon, and the iron mines at Oxford Furnace, N. J. To-day and to-morrow the classes inspect the zinc mines at Franklin Furnace, N. J. The Virginia Geological Survey has just issued a report on "Geology of the Virginia Coastal Plain," made by Dr. William B. Clark of Johns Hopkins and Prof. Benjamin L. Miller of Lehigh.

LEHIGH UNIVERSITY.

Speakers of the Week—Associate Professor Landis Resigns.

SOUTH BETHLEHEM, Pa., April 19.—Paul Elmer More, editor of the *Nation*, gave an address on "Science as a Philosophy of Life" before an audience of Lehigh students and townsfolk in Packer Memorial Church last evening. Mr. More was present upon invitation of Phi Beta Kappa and Tau Beta Pi.

Dr. Charles Proteus Steinmetz, professor of electrical engineering at Union College, was the speaker to-night at the April meeting of the student Electrical Engineering Society. E. L. Knoedler of the Welsbach Light Company addressed the Lehigh Chemical Society on Tuesday evening.

Walter S. Landis, associate professor of the metallurgical department, has resigned to become technologist for a European manufacturing chemical company.

LEHIGH UNIVERSITY.

President Drinker Addresses Senate Committee on Peace Celebration.

SOUTH BETHLEHEM, Pa., April 26.—President Drinker of Lehigh University, together with Judge A. T. Clearwater, ex-Justice of the Supreme Court of New York, addressed the Senate Committee on Foreign Relations in Washington, D. C., on Wednesday, presenting suggestions for the proposed celebration in 1914-15 of the one hundredth anniversary of peace among English-speaking peoples. This they did as members of a delegation appointed by the national committee for promoting the celebration, of which Mr. Carnegie is chairman.

Dr. Rossiter W. Raymond, ex-president of the American Institute of Mining Engineers, will give an address in Packer Memorial Church to-morrow afternoon at the second of the spring series of religious services.

Mason D. Pratt, '87, has been elected president and Prof. F. P. McKibben of the Lehigh civil engineering department a director of the Engineers' Society of Pennsylvania.

FROM COLLEGE AND UNIVERSITY

LEHIGH UNIVERSITY.

SOUTH BETHLEHEM, Pa., May 3.—The civil engineering department of Lehigh University has received from Prof. A. Kolensky, professor of mining engineering in the Warsaw Polytechnic Institute, Russia, a request for results of tests made in the Fritz Laboratory for the Scranton Mine Cave Commission last year. The Commission determined, by the use of Lehigh's 800,000-pound testing machine, the largest in the world, the supporting strength of models of coal and slag pillars, similar to those used in Pennsylvania mines. Planning similar tests of pillar materials utilized in the Russian collieries, the Warsaw Institute asked for suggestions and results for comparison with its work.

LEHIGH UNIVERSITY.

Dr. Henry P. Price, '70, Elected President of the Trustees.

SOUTH BETHLEHEM, Pa., May 31.—Dr. Henry R. Price, '70, of Brooklyn, has been elected president of the Board of Trustees of Lehigh University, to succeed the late W. R. Lathrop. The vacancy caused by Mr. Lathrop's death has been filled by the election of Samuel D. Warriner, '90, of Wilkes-Barre, vice-president and general manager of the Lehigh Valley Coal Company.

Several hundred music lovers of New York, Philadelphia, Boston, Washington, and other cities who are attending the Bach Festival in Packer Memorial Church visited the buildings of Lehigh University today.

Final examinations began yesterday, and will be continued until next Thursday. Exercises of commencement week begin on June 8.

The trustees have approved a recommendation of the faculty that graduates holding the degree of analytical chemist shall be permitted to change the degree to bachelor of science in chemistry. The latter degree has been conferred for several years past at Lehigh.

LEHIGH UNIVERSITY.

One Hundred and Sixteen Candidates for Degrees in June.

SOUTH BETHLEHEM, Pa., May 10.—A list of thesis subjects to be presented by candidates for degrees at Lehigh University in June was made public to-day. Summarized, it shows that there are 116 candidates in all, classified as follows: For the degree of master of science 5, bachelor of arts 3, bachelor of science 3, civil engineer 33, mechanical engineer 22, metallurgical engineer 2, electrometallurgist 4, engineer of mines 12, electrical engineer 24, bachelor of science in chemistry 3, chemical engineer 5. Commencement exercises will extend from June 7 to 11, inclusive.

G. A. Roush has been appointed to fill the vacancy in the metallurgical department caused by the resignation of Associate Prof. W. S. Landis, who has become technologist for a chemical manufacturing company. Mr. Roush was graduated from Indiana University in 1905 and from the University of Wisconsin in 1910, with the degree of chemical engineer.

LEHIGH UNIVERSITY.

Three Honorary Degrees Conferred at Commencement.

SOUTH BETHLEHEM, Pa., June 14.—In connection with the commencement exercises at Lehigh University on Tuesday, three honorary degrees were conferred, as follows: Doctor of laws, upon Charles L. Doolittle of the University of Pennsylvania, who, from 1875 to 1895, was professor of mathematics and astronomy at Lehigh; doctor of science, upon Dr. James E. Talmage, a graduate of Lehigh, and director of the Desert Museum of Salt Lake City, and upon James Gayley of New York, ex-first vice-president of the United States Steel Corporation.

President Drinker announced the following promotions: Harry M. Ullman becomes professor of quantitative and industrial analysis, John H. Ogburn, professor of mathematics and astronomy (Prof. A. E. Meaker retiring after thirty-five years of service); Alpha A. Diefenderfer, assistant professor of assaying and quantitative analysis; Raymond W. Walters, registrar of the University.

The alumni address was given by Congressman W. D. B. Ainey of the Fourteenth Congressional District of Pennsylvania. H. J. Williams of the class of 1912 was awarded the \$100 Williams prize for an oration on the Monroe Doctrine. The \$200 Wilbur scholarship, open to sophomores, went to George P. Nachman of Baltimore.

Faculty Changes as New Year Begins —A Freshman Class of 190

Advancements in the faculty of Lehigh University, which opened this week, include several former students of New England institutions. Assistant Professor Joseph Daniels (M. I. T.) of the Lehigh mining engineering department and Assistant Professor V. S. Babasinian (Ph. D., Brown,) of the department of chemistry are made associate professors in their respective departments. Henry R. Reiter (B. A., Princeton,) who was coach in athletics at Wesleyan, is appointed professor of physical education. After active engineering work in Mexico during the past year, Professor Howard Eckfeldt of the mining engineering

department returns to Lehigh. Professor W. B. Schober of the department of chemistry has been granted a year's leave of absence.

The freshman class at Lehigh numbers 190 students, most of whom are taking the engineering courses. The total enrolment of the university is 700.

SEPT. 23, 1911

LEHIGH UNIVERSITY

Another Faculty Change—A Politics Club Formed

Joseph Daniels (M. S., M. I. T.), who was recently promoted to the assistant professorship of Lehigh's Mining Engineering Department, has resigned to take a faculty position in the College of Mines at the University of Washington, Seattle.

Professor F. P. McKibben, head of the Department of Civil Engineering at Lehigh, has been appointed consulting engineer by the Pennsylvania State Investigating Committee which is searching into the causes of the flood disaster at the Austin dam.

Professor Richards of the Department of Metallurgy has returned from Norway where, in September he represented Lehigh at the 100th anniversary of the University of Christiania.

Acting promptly upon the suggestion of President James McCrea of the Pennsylvania Railroad in his Founder's Day address, the students of Lehigh have organized the Lehigh Politics Club, to take up work along lines advocated by Mr. McCrea.

LEHIGH UNIVERSITY

President McCrea of Pennsylvania Railroad Speaks at Founders' Day Exercises

President James McCrea of the Pennsylvania Railroad, in an address at the Founders' Day exercises of Lehigh University today, advocated the training of young men in college for activity in politics, both national and municipal. Mr. McCrea paid tribute to the memory of the founder of Lehigh, Asa Packer, to whom the Lehigh Valley Railroad as well as the university owes its origin. Established in 1865, the college has grown into an institution having upwards of 700 students and sixty-nine in its teaching staff. At the exercises today, a large mural tablet of Judge Packer, the gift of the alumni, was unveiled.

President H. S. Drinker and Professor J. W. Richards of Lehigh will attend the meeting in Japan of the American Institute of Mining Engineers, sailing from San Francisco on Oct. 17. Dr. Drinker was one of the founders of the American Institute in 1871, and has been an active member since.

LEHIGH UNIVERSITY

Extension Courses Popular—Chinese Student Taken Into Fraternity

The Lehigh University extension courses, the newest department of Lehigh's activity, are now in full swing for the 1911-12 term. Instituted in 1909, these courses were designed to furnish some of the advantages of college training to men and women of the Lehigh Valley regularly engaged in bread-winning occupations, but able to carry on spare-time study. This year, with the scope of the courses considerably increased, there are more than twice as many students enrolled as in the two previous years. Allentown, a neighboring city, is represented by twenty public school teachers and principals, who form a class in educational psychology that meets Tuesday evenings. Most of the recitations are held on Saturday mornings and afternoons.

The first Chinaman to become a member of Tau Beta Pi will be Chimin Chu-Fuh, a student in the junior class at Lehigh. He was pledged with six others this week.

Professor W. S. Franklin of the department of physics this week lectured on the gyrostad before the Lynn branch of the American Institute of Electrical Engineers, and before the Engineer's Club of Washington.

Bach Festivals to Be Resumed—Ex-Governor Beaver Speaks

Considerable interest has been aroused in the musical world by the announcement that the Bach Festivals of Bethlehem, Pa., which some years ago attracted country-wide attention, will be resumed next May or June. The 1912 festival will be held in Parker Memorial Church, Lehigh University, which the university has offered for free use. President H. S. Drinker of Lehigh was elected president of the new Bach Choir.

The choir will again be directed by Dr. J. Fred Wollé, founder of the Bach festivals, who has returned to Bethlehem for this purpose after spending the last six years as head of the music department of the University of California. The new Bach Choir has started rehearsals.

Judge Beaver of the Superior Court of Pennsylvania, an ex-Governor of the State, addressed the Lehigh students, recently on "The All-Around Man."

LEHIGH UNIVERSITY

Conference School to Aid Backward Students Still in Operation

The conference school of Lehigh University today enters its third year. Planned to aid backward students in the freshman and sophomore classes, the conference has been largely attended and has enabled many a young man to regain good standing. Professor P. A. Lambert of the department of mathematics is head of the school, with associate teachers in physics, chemistry and modern languages, these four subjects being those in which failures are most frequent at Lehigh. As teachers in these departments they know how each department wishes its work done. They are paid by the university, not by the students, so that they have no interest in the number of men applying for aid or in the fees paid. No private coaching is allowed by any of the faculty.

The conference school is open to all freshmen and sophomores from seven to nine o'clock on Monday, Tuesday, Thursday and Friday evenings for a fee of \$1.50 for the four lessons. It sits from 2 to 4 P. M. on Wednesdays and Saturdays.

The Lehigh English department has announced for next term, beginning in February, courses in technical English, based on Earle's new book, and in journalism, based on Ross's "The Writing of News."

The department of electrical engineering has been presented with a modern telephone equipment by the Western Electric Company.

LEHIGH UNIVERSITY.

Extension Courses Are Proving Popular—Chinaman in a Fraternity.

The Lehigh university extension courses, the youngest of Lehigh's departments, are now in active swing for the 1911-12 term. Started two years ago, these courses were shaped to furnish opportunity for spare-time study to men and women of the Lehigh valley regularly engaged in bread-winning occupations. The attendance this fall at the evening and Saturday classes is about twice as large as in the previous years. Allentown, a neighboring city, is represented by 20 public school teachers and principals who form a class in educational psychology, meeting Tuesday evenings. The courses offered include psychology, studies in philosophy, elementary and intermediate German, studies in Latin literature, American history, business law, biology and physiography.

Prof W. S. Franklin of the physics department of Lehigh lectured on the gyrost at last week before the Lynn branch of the American society of electrical engineers, and also before the engineers' club at Washington, D. C.

The first Chinaman to attain membership in Tau Beta Pi is Chinin Chu-Fu, a student in the junior class at Lehigh. Fu was pledged, along with six other students, at special exercises last week.

OCT. 23, 1911.

Dr Harvey W. Wiley of the United States bureau of chemistry lectured at Lehigh university Friday before a large audience of students and townspeople of the Bethlehems on "Public health, the nation's greatest concern."

NOV. 13, 1911.

The 1912 Bach Festival.

The 1912 Bach festival will be held in Packer memorial church, Lehigh university, on Friday, May 31, and Saturday,

June 1. These dates were definitely determined at a meeting in Bethlehem, Pa., of the executive committee of the reorganized Bach choir. A chorus of 150 singers is rehearsing regularly under the leadership of Dr J. Fred Wolle for the rendition of the mass in B minor. There will be two sessions each day of the festival. During the last six years in which Dr Wolle was head of the department of music at the University of California, no festivals were held in Bethlehem.

JAN. 15, 1912.

Norton at Lehigh.

Percy L. Norton of Bristol, a member of the class of 1915 at Lehigh University, participated in the Founder's day sports at South Bethlehem, Penn., last Saturday, running on the Freshman relay team, which won with ease from the Sophomores. Berg took the lead at the start of the race and Connette, Keith, Norton and Borgman each widened the gap. Borgman crossed the line a winner by 50 yards. The Freshmen made a clean sweep of the day's events, capturing the baseball game, 7 to 5, and the football game, 6 to 5.

OCT. 12, 1911.

Bristol Boy At Lehigh.

Percy L. Norton of Bristol, who is a Freshman at Lehigh University played guard on the 1910 basketball team in its game with the Sophomore five at Bethlehem, Pa., this week. The Sophomores secured a good lead in the first half, but in the second period the Freshmen made a great rally and almost won. The final score was 19 to 16. Norton also runs on the Freshman track team which easily defeated the sophs on Founder's Day. Athletics at Lehigh have taken great strides recently.

The Brown and White football team this fall tied Princeton 6 to 6, held West Point to a low score and defeated among others, Ursinus and Haverford. Lehigh expects to beat her old rival, Lafayette, on Nov. 25.

Night School for Steel Plant Workers—Recent Lecturers

In the night school of Lehigh University, conducted by the department of education, there are ten classes of young foreigners who are employed during the day in the Bethlehem Steel Company's plant. The pupils include Hungarians, Poles, Russians, Germans, Argentinians and Jews who are taught by university students. Some classes meet in the Hungarian section of South Bethlehem in halls and hotels. English, arithmetic and algebra are the favorite branches. So successful has the work been that three of the foreigners, a Pole, a Russian and a Hungarian are being coached to enter regular Lehigh courses.

The speakers at various meetings at Lehigh last week included Dr. Holmes of the department of psychology at the University of Pennsylvania, J. Horace McFarland, president of the American Civic Association, J. W. Hunter, first deputy State highway commissioner and C. K. Baldwin of New York.

UNIVERSITY EXTENSION COURSES

SEPT. 13, 1911

LEHIGH UNIVERSITY EXTENSION COURSES

FINE OPPORTUNITY FOR LOCAL
RESIDENTS IN SPARE-
TIME STUDY.

List of Extension Courses Announced

This Week—Ladies as Well as
Gentlemen May Enroll in Saturday
and Evening Classes in Business
Law, German, Psychology, Latin, etc.

An opportunity of much importance to studiously inclined men and women of the Bethlehems is offered in the announcement which The Globe today is authorized to make, the 1911-12 Extension Courses of Lehigh University. During the coming term, these courses, begun experimentally in 1909-10 and continued with gratifying success last year, will be forwarded more elaborately than ever. From indications there promises to be a correspondingly increased interest on the part of those whom the Extension plan is aimed to benefit.

While teachers in the schools of these towns and of the Lehigh Valley generally have taken advantage of the University Extension courses in the two years mentioned, the point is emphasized that the studies outlined for 1911-12 are of interest to persons engaged in other lines than teaching. Designed to meet the convenience of people engaged at regular work during the week, these lessons will be given on Saturday mornings and afternoons, as well as on some evenings. The Extension courses are therefore practically alike for teachers and for such employes of local industrial and business concerns who have interests and ambitions aside from their immediate work. Upon the completion of the courses, credit will be given and diplomas awarded. Local teachers who have attended the courses in the past two years have expressed themselves as much pleased with the character of the work, and regard their diplomas with no small degree of pride.

Courses Offered.

The courses will commence on Saturday, Oct. 7, 1911, and will continue until May 18, 1912. The list follows:

American History, problems in, lectures and discussions.

Biology, lectures, discussions and laboratory, Saturday, 1.30 p. m.

Business Law.

The Globe

PUBLISHED EVERY AFTERNOON,
SUNDAY EXCEPTED.

Owners: O. H. MICKLEY, W. A. WILBUR, CHAS. T. HESS.

Education, history of, recitations, Saturday, 9 a. m.

German, elementary, review of grammar reading, dictation, conversation. Very little previous knowledge of German necessary. Saturday, 8.30 to 10 a. m.

German, intermediate, rapid reading of modern German prose and poetry, with at least two modern dramas. Composition work. This course will be conducted in German as far as practicable. Prerequisite, Course 5 or equivalent. Saturday, 10.30 to 12 a. m.

Latin Literature, studies in.

Logic, elementary, recitations, Saturday, 11 a. m.

Philosophy, studies in the history of.

Physiography, lectures, discussions and field work, Saturday, 1.30 p. m.

Psychology, from the educational standpoint, recitations, Saturday, 10 a. m.

The purpose is to make those who take these Extension courses feel that they are really students of the University. The University Library is open to them, they are entitled to the use of the college commons, where meals are served at cost, and rooms will be reserved for the accommodation of the ladies in Drown Memorial Hall. Those intending taking one or more of the courses are invited to communicate with Vice President N. M. Emery or with the professor offering the course they purpose taking.

OPENING OF THE EXTENSION
COURSES FOR THE TERM
OF 1911-12.

Unusually Large Enrollment — Opportunities Afforded to Attend
Founder's Day Exercises in Packer
Memorial Chapel—Unveiling of
Mural Tablet of Asa Packer.

According to the report of Prof. Hughes, who has in hand arrangements for this work, there have been many more inquiries than ever before as to the University Extension Courses of Lehigh. The 1911-12 term will open on this coming Saturday, with what promises to be an unusually large enrollment. An opportunity will be afforded the extension students to attend the Founder's Day exercises in the Memorial Church, where President McCrea of the Pennsylvania Railroad is to speak, and a bronze tablet of Asa Packer is to be unveiled. Persons in the Bethlehems and vicinity purposing to enroll or those desiring further information as to the courses, should call some time on Saturday at Christmas Hall, east of the main entrance to the University.

Emphasis is laid on the fact that these courses afford a splendid opportunity, not only to teachers, but to all studiously-inclined men and women of this community. For the convenience of those who cannot attend on Saturdays, several of the classes including those in psychology and history of education—may be held evenings during the week.

students as in the two previous years. Various other parts of the Lehigh Valley, as well as the Bethlehems, are represented. Allentown has an unusually large number, and arrangements have been made by Prof. Hughes of the Department of Education to conduct a class in that city on Tuesday evenings. Twenty teachers and school principals in Allentown are already enrolled in this class. A similar class is being arranged in Bethlehem. As has been stated in The Globe, the purpose of the Extension Courses is to afford studiously-inclined men and women in this section some of the advantages of University training. The charges have been made very low, the University's plan being simply to meet additional expenses involved.

LEHIGH UNIVERSITY
EXTENSION COURSES

People of the Bethlehems Offered
Chance for Spare Time College
Study.

Continuing its plan to afford people of the Bethlehems and vicinity a chance for spare time college study, Lehigh University today announces its extension courses for the year 1911-12, to begin Oct. 7. These courses, instituted in 1909-10, have been highly successful and the fact that there has been a popular response has led to an enlargement of their scope for this, the third year. Branches are now included which will appeal to business men and other local persons having interests along lines other than their immediate work. In the past, teachers in the public and private schools of this section have largely made up the extension courses enrollment. While this year a special invitation is

extended to others to join the classes, the attractions to teachers have by no means been diminished. The list of eleven courses just announced contains, in fact, important additions in branches of value to educators. The courses offered are as follows:—

American History.—Problems in; lectures and discussions; Professor Stewart, at hour to be arranged.

Biology.—Lectures, discussions and laboratory; Professor Hall, Saturday, 1:30 p. m.

Business Law.—Professor Stewart, at hour to be arranged.

Education.—History of; recitations; Professor Hughes, Saturday, 9 a. m.

German.—Elementary; review of grammar, reading, dictation, conversation; very little previous knowledge of German necessary; Professor Palmer, Saturday, 8:30 to 10 a. m.

German.—Intermediate; rapid reading of modern German prose and poetry, with at least two modern dramas; composition work. This course will be conducted in German as far as practicable. Prerequisite, course 5 or equivalent. Professor Palmer, Saturday, 10:30 to 12 a. m.

Latin Literature.—Studies in; Professor Blake, at hour to be arranged.

Logic.—Elementary; recitations; Professor Hughes, Saturday, 11 a. m.

Philosophy.—Studies in the history of; Professor Hughes, at hour to be arranged.

Physiography.—Lectures, discussions and field work; Professor Miller, Saturday, 1:30 p. m.

Psychology.—From the educational standpoint; recitations; Professor Hughes, Saturday, 10 a. m.

The charges for these courses are nominal, ranging from \$5 to \$20. For most of the single courses the fee is \$5 per year, with \$2 for each additional course. Registration, laboratory fees, etc., are included in this. Fees may be paid at the second session of the course. The term begins Oct. 7, 1911, and will continue until May 18, 1912, with no classes in university vacation periods.

It will be a particular effort on the part of the faculty members offering this extension work to make those who attend feel that they are really Lehigh students. The university library will be open to them, they will be entitled to the use of the college commons, where meals are served at cost, and rooms will be reserved for lady students in Drown Memorial Hall. All who expect to enter one or more of these courses are asked to communicate, as soon as possible, with Vice President N. M. Emery or with the professor offering the course they are taking.

SEPT. 13, 1911

The Bethlehem Times.

MONDAY, OCTOBER 16, 1911.

AT LEHIGH UNIVERSITY.

At the first regular sessions of the Lehigh University Extension Courses on Saturday, a gratifyingly large enrollment was recorded. Up to date there are twice as many students as in previous two years. Allentown is very largely represented in these courses, and arrangements have been made by Prof. Hughes of the Department of Education, whereby work in his department will be conducted in that city on Tuesday evenings. Twenty teachers and school principals of Allentown are already enrolled in this class. A similar class is being arranged in Bethlehem. As has been stated in The Times, the purpose of the Extension Courses is to afford studiously inclined men and women of this section some of the advantages of university training. The charges have been made very low, the University's plan being simply to meet additional expenses involved.

With the laying of a concrete walk along Packer Avenue from the main entrance to the Fritz Laboratory, the bulk of the outside improvements at Lehigh are finished. During the late Summer and Fall, the campus has been beautified in a number of ways. The main roadway leading to the athletic grounds has been macadamized, and other roads and paths are being repaired. The system of grass gutters, which attract attention in Sayre Park, has been extended to the campus.

Rev. Wm. Patterson Taylor, rector of St. Paul's Episcopal Church at East Orange, N. J., a graduate of Lehigh University in the class of 1886, gave an address at the session of the Sunday School of the Church of the Nativity on Sunday.

Prizes for Best Photographs.

The extension courses offered last year to teachers and, in fact, to any one at all, in town or out of town, proved so desirable and successful that they will be taken up again this year. Prof. Hughes, who had charge of the courses, states that the inquiries concerning them are more numerous this year than ever before and the attendance bids fair to be as large as can be comfortably accommodated.

The courses offered are as follows: American History, Prof. Stewart; Biology, Prof. Hall; Business Law, Prof. Stewart; History of Education, Prof. Hughes; German-elementary, Prof. Palmer; German-intermediate, Prof. Palmer; Latin Literature, Prof. Blake; Logic, Prof. Hughes; Philosophy, Prof. Hughes; Physiography, Prof. Blake; Psychology, Prof. Hughes.

The charges for the courses are very reasonable and diplomas are given for courses completed. The time of these courses is Saturday and, by special arrangement, any evening. Students in these courses are entitled to the use of the Commons and of the Library.

These courses are very common in all English colleges and are well attended and appreciated by those of more advanced age, to whom the advantages of a higher education were not available. The attendance is not limited to school teachers, but includes any one who cares to take advantage of this excellent opportunity. Ladies taking both a morning and an afternoon course will find rooms reserved for their accommodation in Drown Hall.

These courses begin on Saturday, Oct. 7, 1911, and continue until May 18, 1912. Application should be made to either the Registrar or to Prof. Hughes.

In this work the University is again taking the initiative in this section of the country and the result will be as favorable as Lehigh's firm stand last year for the preservation of forests. The University is fortunate indeed in having in its Faculty men of such ability as the professors in charge of this branch of the University's work.

EXTENSION COURSES AT LEHIGH UNIVERSITY

Will Resume Oct. 7—Many Allentonians Interested.

Last year a number of Allentown school teachers were enrolled in the Extension courses of Lehigh University. For the coming term, which opens on October 7, it is expected that others, business men as well as teachers of this city, will avail themselves of the opportunity for spare-time study, as offered in these courses.

The sessions are held on Saturday's in the morning and afternoon, and on some evenings during the week, thus enabling attendance by men and women engaged in teaching, business or industrial work. The charges are nominal, \$5 per year for most of the single courses and \$2 for each additional course.

Eleven courses of wide range, all interesting and valuable, are offered for 1911-12. They include lectures and discussions Physiography, including field work, under Prof. Miller. Credit is given and diplomas are presented for courses completed. The term closes May 18.

Allentown ladies who will take attend morning and afternoon sessions on Saturday's will find rooms reserved for their accomodation in Drown Memorial Hall. Meals are served at cost in the University Commons. The extension course students are entitled to the use of the University Library. Allentonians who expect to enter one or more of the courses are asked to communicate as soon as possible with Vice President N. M. Emery or the professor offering the course.

SEPT. 15, 1911

PLAN BIBLE STUDY COURSE AT LEHIGH UNIVERSITY

By invitation of the Faculty of Lehigh University, at South Bethlehem, a number of men met on the campus of that institution yesterday afternoon, in the interest of outlining a course of Bible study, to be pursued by students during the winter, supplementary to the regular curriculum. The chairman of the conference was Rev. Charles L. Fry, D. D., of Catasauqua, and the men of the faculty who warmly advocated the supplemental course were Professors Blake, Meaker, McKibben and Miller. Dr. Fry delivered an address to the students in the morning, and Judge Trexler spoke at night. Joseph E. Platt is the student secretary.

EXTENSION COURSE SESSIONS TO BE HELD HERE TUESDAYS.

That the school teachers of Allentown are alert and ready to grasp educational opportunities is demonstrated by the large enrollment from this city in the extension courses offered by Lehigh University. By special arrangement with Prof. Hughes of the department of philosophy and education, work in his department will be conducted in Allentown on Tuesday evenings. Twenty teachers and principals of the Allentown schools are already enrolled in this class. A similar class is planned for Bethlehem. As has been stated in The Call, the purpose of the extension courses is to afford studiously-inclined men and women of this section some of the advantages of University training. The charges are very low, the university's effort being simply to meet additional expenses involved. The total enrollment this term is more than twice as large as in the two previous years, indicating the growing interest in such work hereabouts.

OCT. 16, 1911.

EXTENSION COURSES TO RESUME AT LEHIGH

Prof. Hughes, who has in charge arrangements for the extension courses at Lehigh, reports that there have been an unusually large number of applicants from Allentown and vicinity. The total enrollment for the 1911-12 term promises to exceed by far that of the two previous years.

As has already been stated in the Call, the present extension year will open this coming Saturday, which is Founder's Day at the University. This will give extension students a chance to attend the Founder's Day exercises at 11 a. m., when President James McCrea of the Pennsylvania Railroad, is to deliver an address, and a mural tablet of Asa Packer, the gift of the alumni, is to be unveiled. The exercises will take place in the Packer Memorial church, on the campus.

Allentonians who go to South Bethlehem on Saturday to enroll should report at Christmas Hall (west of the main entrance), where all arrangements may be made for the year's work. The list of the courses offered includes: Problems in American History under Prof. Stewart; lectures, discussions and laboratory work in Biology, under Prof. Hall; History of Education, Elementary Logic, studies in the History of Philosophy, and Psychology from the educational standpoint, under Prof. Hughes; German, Elementary and Intermediate, under Prof. Palmer; studies in Latin Literature under Prof. Blake; Business Law under Prof. Stewart; and Physiography under Prof. Miller. Classes will meet on Saturdays and in Psychology and History of Education probably on evenings of the week. The charges are nominal, \$5 per year for most of the single courses, and \$2 for each additional course.

Not only teachers but all studiously-inclined ladies and gentlemen of Allentown and vicinity can profit by availing themselves of this opportunity for membership in a University.

Illness Car Riders Jailed.

OCT. 4, 1911.

UNIVERSITY EXTENSION.

This Will Interest Allentown School Teachers and Others.

Last year a number of Allentown school teachers were enrolled as students in the extension courses of Lehigh University. The announcement of these courses for 1911-12 will interest not only teachers but other studiously inclined men and women of this city who may be able to attend the sessions, which are held on Saturday afternoons and mornings and on some evenings of the week.

Eleven interesting and valuable courses are offered by the university for the term, which begins on October 7th and closes May 18th. They include lectures and recitations on American History, Biology, Business Law, History of Education, Elementary and Intermediate German, studies in Latin literature, Elementary Logic, Philosophy, Physiography and Psychology. The charges are nominal. Allentonians who expect to take up one or more of these courses should communicate as soon as possible with Vice President N. M. Emery.

SEPT. 15, 1911.

GAME AT LEHIGH WILL DRAW BIG CROWD

Allentown friends of Lehigh University are going to South Bethlehem to-morrow afternoon to see the Brown and White football eleven meet Swarthmore in what promises to be one of the best games of the season. Especial interest is attached to this contest inasmuch as it will finish a basis for comparing Lehigh and Lafayette before their annual clash on Nov. 25. The Eastonians defeated Swarthmore early in the season, 11 to 6. The Garnet team is reported to have improved considerably since, as was shown in their victory over Ursinus last Saturday, 6 to 2. Lehigh beat Ursinus 5 to 0.

According to dispatches from Swarthmore, practically the entire student body will be up to see to-morrow's game. After Lehigh's defeat of Haverford and her good work against Princeton and the Army, Swarthmore adherents are most desirous of capturing to-morrow's game. Coaches

Brooke and Maxwell have strengthened the Garnet line in an endeavor to stop Lehigh's heavy back field.

In the Lehigh camp this week, attention was centered upon efforts to increase the speed of the eleven. At the signal practise yesterday, the plays were run off at a furious rate. Fick is being used as alternate quarter-back, so that if Pazzetti, the brilliant regular, is knocked out, the running machinery of the big Brown team will not be disturbed. Vela and Goyne, Lehigh's scrappy ends, are not in good physical condition and will hardly get into to-morrow's game. They will be in shape for Lafayette. Admission to Lehigh field to-morrow will be 25 cents.

Lehigh University Extension Course. The Lehigh University Extension Courses for 1911-12, as announced this week, offer eleven branches for Saturday and evening sessions. Last year, a number of school teachers of Easton and Phillipsburg were enrolled in these courses at Lehigh, and it is expected that the group from these cities will be still larger this fall. The courses offered include business, law, American history, biology, elementary and intermediate German, Latin literature, logic, philosophy, psychology, history of education, and physiography. The term extends from October 7 to May 18. Charges are nominal. Local residents who intend to enroll should communicate with Vice President N. M. Emery.

EASTON ARGUS SEPT 15-21

Founder's Day at Lehigh University. Founder's Day at Lehigh University, to be observed this coming Saturday, will be marked by exercises of more than ordinary interest. The main address of the day will be given by President James McCrea, of the Pennsylvania Railroad. As a gift from the alumni, a large mural tablet of Asa Packer will be unveiled. It shows Judge Packer in profile, seated on a chair, cane in hand. The work was executed by the New York sculptor, J. Massey Rhind. The friends of Lehigh at Lafayette College and in Easton are cordially invited to attend these exercises.

OCT. 4, 1911

EXTENSION COURSE STARTS TOMORROW.

Among the List of Applicants at Lehigh Are a Number of Allentonians. To Unveil Packer Tablet.

According to reports from Lehigh University the list of applicants for the 1911-1912 Extension Courses includes a large number of residents of Allentown and vicinity, local teachers and other studiously-inclined men and women.

Tomorrow will witness the opening of the present extension year, which is Founder's Day at the university. Extension students are thereby afforded an opportunity to attend the Founder's Day exercises in Packer Memorial Church, at 11 a. m., when President James McCrea of the Pennsylvania Railroad is to give an address, and a mural tablet of Asa Packer is to be unveiled.

Allentonians who intend to enroll or wish to make inquiries as to the work should report sometime during Saturday at Christmas Hall, west of the day at Christmas Hall, west of the Packer Ave. The courses offered include "Problems in American History and Business Law," under Prof. Stewart; lectures, discussions and laboratory work in biology, under Prof. Hall; "History of Education," "Elementary Logic," studies in the "History of Philosophy and Psychology" from the educational standpoint, under Prof. Hughes; German, elementary and intermediate, under Prof. Palmer; studies in Latin literature, under Prof. Blake, and physiography, under Prof. Miller. Classes will meet on Saturdays and in psychology and history of education, probably evenings. The charges are nominal, \$5 per year for most of the single courses, and \$2 for each additional course.

OCT. 6, 1911.

ALLENTONIANS TAKING EXTENSION COURSES

Allentown is very largely represented in the University Extension Courses of Lehigh as was shown on Saturday when the first regular classes of the 1911-17 term were held. A special arrangement has been made with Prof. Hughes of the department of philosophy and education whereby work in his department will be conducted in this city on Tuesday evening. Twenty teachers and principals in the Allentown schools are already enrolled in this class. A similar class is planned for Bethlehem.

The total attendance in the courses this term is more twice as large as in the two previous years, indicating the growing interest in such work hereabouts. As has been stated in this paper, the purpose of the extension courses is to extend the studiously-inclined men and women of this section some of the advantages of University training. The charges are very low, the effort being simply to meet the additional expenses involved.

COMING CONFERENCE.

At Lehigh University for Conservation of School Children.

A conference of all interested in the conservation of school children will be held at Lehigh University, on Wednesday and Thursday, April 3 and 4, 1912, under the auspices of the American Academy of Medicine. The first session (on Wednesday afternoon) will study the question included under "Medical Inspection and Supervision." On Wednesday evening the program will be more popular in character, at which two addresses will be given.

The Thursday morning session will be devoted to the consideration of the subjects that ought to be taught in schools as a means of conservation and the way in which they should be taught. The final session is given to the discussion of "The Problems of Deficient and Backward Children."

Preparation for the conference is in the care of a committee of the American Academy of Medicine, consisting of Drs. R. H. Beck, Hecktown; W. L. Estes, South Bethlehem; J. E. Fretz, E. M. Green and Charles McIntyre (chairman, of Easton, and H. C. Pohl, Nazareth, with the following advisory committee: Henry S. Drinker, LL. D., President Lehigh University; N. C. Schaffer, LL. D., Superintendent Public Instruction of Pennsylvania; N. M. Emery, A. M., Vice President Lehigh University; T. G. Simonton, M. D., Pittsburg; G. Hudson-Maknen, M. D., Philadelphia; John B. McAllister, M. D., Harrisburg; Walter C. Cornell, M. D., Philadelphia; E. R. Johnstone, Ph. D., Superintendent of the Vineland, New Jersey, Training School; A. A. Hamerschlag, Sc. D., Director of Carnegie Technical Schools and Hon. Joseph Buffington, U. S. Circuit Judge, of Pittsburg.

Membership in the conference is not confined to members of the American Academy of Medicine or to the medical profession. Everyone interested is eligible. It appeals more directly, in addition to members of the medical profession, to teachers, school directors and members of women's clubs. The payment of a fee of two dollars is the only requirement and members will receive the pamphlet volume containing the papers and discussions. As soon as the membership fee is received, the person remitting will be placed upon the mailing list to receive copies of all advance notices, etc. All communications should be addressed to Dr. Charles McIntire, chairman, Easton.

NOV. 10, 1911.

EASTON DAILY FREE PRESS, THURSDAY

Local Teachers Take Extension Courses.

There are a number of Easton and Phillipsburg residents, school teachers and others, among those who have inquired as to the Extension Courses at Lehigh University, according to a report received here today from Prof. Hughes, who has in charge arrangements for this work. The 1911-1912 term will open on this coming Saturday, which is Founder's Day at the university. Persons contemplating enrollment should call sometime on Saturday at Christmas Hall or may address Prof. Hughes. The courses offered include problems in American history and business law under Prof. Stewart; work in biology under Prof. Hall; history of education, elementary logic, history of philosophy and psychology from the educational standpoint, under Prof. Hughes; German, elementary and intermediate, under Prof. Palmer; studies in Latin literature under Prof. Blake, and physiography under Prof. Miller. Classes will meet on Saturdays and probably on some evenings of the week.

LEHIGH BEGINS NEW YEAR

Many Changes in Faculty Announced
by President Drinker.

Special to "The Record."

South Bethlehem, Pa., Sept. 20.—
With a Freshman class numbering
more than 190 Lehigh University re-
opened this afternoon. The opening ex-
ercises took place in the Packer Mem-
orial Church, where the students
gathered and were addressed by Dr. H.
S. Drinker, president of the university.
After the exercises the annual banner
rush between the Sophomores and the
Freshmen took place on Lehigh Field.
Dr. Drinker announced changes among
the faculty as follows:

Professor Howard Eckfeldt, head of
the department of mining engineering,
returns to his duties here after an ab-
sence on leave of one year, during
which he has been engaged in active
engineering work in Mexico.

Professor Henry R. Reiter has been
appointed professor of physical educa-
tion. He will have full charge of all
gymnasium work and athletics.

The following appointments have been
made of instructors and assistants: G.
S. Chiles, mechanical engineering; Dr.
R. C. Gowdy, physics; Dr. Earl A.
Saliers, accounting, department of busi-
ness administration; Raymond W. Wal-
ters, English; Frank E. Haskell, electri-
cal engineering; H. P. Hammond, civil
engineering; Herman P. Smith, mining;
W. F. Odom, chemistry; Christian L.
Slebert, biology; Joseph R. Dawson,
metallurgy; Carl W. Mitman, geology;
J. C. Kimball, physical culture.

OCTOBER 2, 1911

PENNSY'S CHIEF TO SPEAK

James McCrea Will Talk at
Founder's Day Celebration

SOUTH BETHLEHEM, Pa., Oct. 1.—
[Special.]—President James McCrea of the
Pennsylvania Railroad, will deliver the ad-
dress at the Founder's Day celebration at
Lehigh University, South Bethlehem, on
October 7. There will be a special feature
in the exercises at that time, the unveil-
ing of a bronze mural relief tablet of the
founder of the university, Asa Packer.
Presented by the alumni of Lehigh, this
tablet was secured by a committee that
includes Charles L. Taylor, president of
the Carnegie Hero Fund.

The tablet is the work of J. Massey
Rhind, a New York sculptor of note. It
shows a bas-relief of Judge Packer, sit-
ting in his chair, cane in hand.

THE SUNDAY CALL

EASTON, SUNDAY, OCT. 8, 1911.

AT LEHIGH UNIVERSITY

Unveiling of Tablet in Memory of the
Founder of the University.

A strong address favoring the train-
ing of young men in college for activity
in politics, both national and municipal,
was delivered by President James Mc-
Crea of the Pennsylvania railroad at the
Founder's day exercises held yesterday
(Saturday) at Lehigh university. Mr.
McCrea paid high tribute to the memory
of the founder of the university, Asa
Packer, and to the high standards main-
tained by Lehigh as evidenced in the
work of her graduates.

The program yesterday was featured
by the unveiling of a large bronze mural
tablet of Judge Packer, showing him in
profile, seated on a chair, cane in hand.
This tablet, executed by J. Massey
Rhind, a noted New York sculptor, is
the gift of the alumni. In its presen-
tation, some interesting facts about the
life of Judge Packer were brought out.
Born in Groton, Conn., on December 29,
1805, he left New England at the age
of eighteen for Susquehanna county,
Pennsylvania. There he became an ap-
prentice to a carpenter. Going to Mauch
Chunk in 1833, he worked at his trade
and then became interested in canal boat
transportation. His study of the prob-
lem of carrying coal from Mauch Chunk
to New York and Philadelphia led him
to project the Lehigh Valley railroad.
In 1855 he built this road from Mauch
Chunk to Easton, and soon after extend-
ed it into the Wyoming valley and along
the Susquehanna river. In 1843 he was
made an associate judge. In 1852 and
1854 Judge Packer represented his dis-
trict in Congress.

It was in 1865 that Judge Packer
founded Lehigh university. It opened
in the fall of 1866 with four professors
and forty students. Today the institu-
tion has upwards of 700 students and
sixty-nine in the faculty. Its graduates
as a class occupy responsible positions
in the engineering and professional
fields.

Yesterday's exercises were largely at-
tended. Quite a number of Easton citi-
zens were present.

THE WILKES-BARRE TIMES-LEADER

LOCAL MEN IN CHARGE OF LEHIGH CEREMONY

Special to the Leader.

SOUTH BETHLEHEM, Pa., Sept. 27.—
W. A. Lathrop, president of the Lehigh
Coal and Navigation Company, and E. H.
Lawall, consulting mining engineer, of
Wilkes-Barre, were members of the com-
mittee of Lehigh University Alumni who
have in charge the memorial to Asa
Packer, founder of the university, which
will be unveiled at the Founder's Day
celebration at South Bethlehem on Octo-
ber 7. The memorial is in the form of a
beautiful life size bronze mural tablet,
showing a bas-relief of Judge Packer,
sitting in his chair, cane in hand. The
tablet is the work of J. Massey Rhind, an
eminent New York sculptor.

At the coming Founder's Day exercises,
to be held in Packer Memorial Chapel,
the address will be delivered by President
James McCrea of the Pennsylvania Rail-
road.

PLAINFIELD
COURIER

HONORED AT LEHIGH

Plainfield Young Man Was Elected
President of Freshman
Class

At the first meeting of the fresh-
man class of Lehigh University this
week, George Linke, of this city,
was elected president, to serve until
Founders' Day, October 12. Mr.
Linke prepared for Lehigh at Beth-
lehem Preparatory School. The
class of 1915 at Lehigh numbers
about 190 men. The Sophomores
defeated them in the banner rush by
a narrow margin, but the freshmen
expect to make up for this by win-
ning the Founders' Day sports.

This fall sees many improvements
in the material equipment of Le-
high, and the advances in the uni-
versity's scholastic standards have
been proportionate. Among the lat-
ter are the offerings in the courses in
arts and sciences, including a course
in business administration.

THE WILKES-BARRE RECORD

Founders' Day at Lehigh

South Bethlehem, Sept. 27.—President
James McCrea of the Pennsylvania
Railroad will deliver the address at
the Founder's Day celebration at Le-
high University on Oct. 7. A feature
of the exercises at that time will be
the unveiling of a bronze mural relief
tablet of the founder of the university,
Judge Asa Packer, presented by the
alumni of Lehigh. This tablet was
secured by a committee that includes
W. A. Lathrop, president of the Le-
high Coal & Navigation Co., and El-
mer H. Lawall, consulting mining en-
gineer of Wilkes-Barre. The tablet was
executed by J. Massey Rhind, a sculp-
tor of New York City. It shows a
bas-relief of Judge Packer, sitting in
his chair, cane in hand.

SEPT. 27, 1911

PLAINFIELD (N.J.) COURIER

Lehigh University Unveils Tablet to Judge Asa Packer, Its Founder

TABLET UNVEILED IN MEMORY OF ASA PACKER, FOUNDER OF LEHIGH UNIVERSITY

James McCrea, President of the Pennsylvania Railroad, Delivers Address Urging Training School for Government Administration at Annual Memorial Exercises.

[SPECIAL DESPATCH TO THE HERALD.]

SOUTH BETHLEHEM, Pa., Saturday.—This has been a day to be remembered. In Packer Memorial Church, of Lehigh University, were held the annual Founder's Day exercises of this famous technical institution, created by the late Judge Asa Packer, who built the Lehigh Valley railroad and who developed the marvellous mineral resources of the Lehigh Valley.

James McCrea, president of the Pennsylvania railroad, made the address of the day. Another event was the unveiling of a bronze mural tablet in the Memorial Church to the memory of Judge Packer. The tablet was designed and completed by James Massey Rhind, the well known sculptor of New York. Dr. H. S. Drinker, president of Lehigh University, presided, and introduced Mr. McCrea, who said in

necessary to developing the vast wealth and resources of the State and country.

"There was a shortage of scientifically educated young men in 1865, as there is now a shortage of young men being taught the principles and science of practically administering a republican form of government. All these States and legislatures, with the necessary executive officers, make a demand on the country for men adequately educated to legislate and properly administer the laws. It seems to me that to meet these conditions it is the duty of universities and colleges to establish a course on national, State and municipal government, and by making one of the requirements of entering examinations a rudimentary knowledge of such course spread education along these lines among the preparatory schools as well as the colleges of the United States.

GEORGE LINKE CHOSEN AS CLASS PRESIDENT

George Linke, of Plainfield, was elected president of the freshman class at Lehigh University, this week and will retain that position until Founder's Day, when the class will elect a full set of officers. Mr. Linke prepared for Lehigh at Bethlehem Preparatory School. The class of 1915 at Lehigh numbers about 190.

While defeated by a narrow margin in the banner rush, the freshmen expect to gain the year's supremacy over the sophomores by winning the Founder's Day sports on October 12. There are a number of improvements in the equipment at Lehigh this year and the advances in the university scholastic standards have been proportionate. Among the latter are the offerings in the courses in arts and sciences, including a course in business administration.

OCT. 2, 1911

JOHNSTOWN BOY'S PART.

J. L. Evans Plays Baseball at Lehigh's Founder's Day Exercises.

J. L. Evans, son of Josiah T. Evans, of Johnstown, and a Freshman at Lehigh University, took part in the Founder's Day sports at South Bethlehem last Saturday. He played second base on the 1915 baseball team. The Freshmen won all three events.

At the main exercises of the day, an address was given by President James McCrea of the Pennsylvania Railroad. A large bronze mural tablet of Asa Packer, the gift of Lehigh alumni in memory of the University's founder, was unveiled. Lehigh's various departments are largely attended this year, there being a notable increase in the University's new course in Business Administration.

OCT. 12, 1911.

"Asa Packer, a native of Connecticut, moved to Susquehanna county, Pa., when a lad of eighteen, where he learned the carpenter's trade, and ten years later located at Mauch Chunk, became interested in canal boating, mining and selling coal and improving the water ways, and finally, in 1850, he began building the first few miles of the Lehigh Valley Railroad, from Mauch Chunk to Easton. That was the beginning of the trunk line Lehigh system now reaching from New York to Buffalo.

"This and other enterprises pushed to success by Mr. Parker brought great development to the State and welfare to its citizens. Just what prompted Mr. Parker to found a scientific school in 1865 can only be surmised, but he realized that it was time for young men to have a practical education that would benefit them in mastering the industrial and economic enterprises

WILLIAM B. TODD ON LEHIGH TEAM

Plays Guard Position in Basketball Game With Freshmen.
Lehigh Athletics.

William B. Todd, a Williamsport boy who is a student in the electrical engineering course at Lehigh university, played a guard position on the 1914 basketball team in a game with the Freshmen at South Bethlehem this week. The Sophs. won, after an exciting contest, 19 to 16.

Lehigh's athletics standards have been raised decidedly of late. The Brown and White football team has this season tied Princeton, 6 to 6, held West Point to a low score, and defeated Ursinus, Haverford and others. Lehigh expects to win from her old rival, Lafayette, on November 25.

GAZETTE AND BULLETIN, WILLIAMSPORT, PA.

The Tribune

Entered at the Postoffice at Johnstown, Pa., as
Second-Class Matter.

SATURDAY, NOV. 11, 1911.

P. J. White, a former Johnstown High School student, who is a Sophomore in the electrical engineering department of Lehigh University, played forward position on the 1914 class team in its game the other day with the Freshman five. White, who was captain of his team, scored four field goals and five fouls. The Sophomores won, 19 to 16. Harvey Griffith, another graduate of Johnstown High School, also played in the game. Harry Crichton, another Johnstown boy, is playing fullback on the Lehigh football eleven. Athletics at Lehigh have taken great strides forward recently. The Brown and White eleven this fall tied Princeton, 6 to 6, held West Point to a good score, and defeated Ursinus and Haverford. Lehigh students expect to win from their old rival, Lafayette, on November 25th.

Trip of Mining Engineers.

The American Institute of Mining Engineers has added one more to the list of its famous and most successful excursions. Of more than local significance, this last pilgrimage has taken on a distinctly international complexion, and the spontaneous welcome accorded by the Japanese has given it a truly national importance. The 83 members of the Institute were

Nov. 11, 1911.

in Japan 18 days, in which time they visited the following places: Two days at Tokio, with official reception; a day at Kyoto, the ancient capital; visit to Nara; Shisaka copper smelting works, the sacred island of Myajuna, the government steel works at Yawata, and the towns of Moji and Shimonosiki; one day at the port of Kobe; a day at Osaka, two days again at Tokio, two days at Nippo, including a visit to the Nippo electrolytic copper refinery of the Fusakawa Company; a day at Kamakura, a day in the mountains at Myanoshita, near to grand old Fijl, and the final winding up day at Yokohama before sailing for home on the Siberia. Prof. J. W. Richards, of Lehigh, has written a very interesting article recounting in detail the happenings on the trip. This article is published in the January number of the Metallurgical and Chemical Engineer. Prof. Richards is Vice President of the institute and one of the leading metallurgists of the world. The above abstract was taken from Prof. Richards's article.

Erie Boy Plays Football For Lehigh University

E. R. Hazen, son of E. D. Hazen, 650 West Eighth street, Erie, and a freshman at Lehigh University, played right halfback on the 1915 football team in the Founder's Day Spirits at South Bethlehem last Saturday. The freshmen won all three of the regular events, track, baseball and football.

At the main exercises of the day, an address was given by President James McCrea, of the Pennsylvania Railroad. A large bronze mural tablet of Asa Packer, founder of the university, was unveiled, the tablet being the gift of Lehigh Alumni. Lehigh's various departments are well attended this year, with a notable increase in the university's new course in business administration.

ATHLETICS AT LEHIGH.

Williamsport Boy on the Sophomore Football Team.

William B. Todd, of Williamsport, who is a sophomore in the electrical engineering course at Lehigh university, played guard on the 1914 basketball team in its game with the freshmen this week. The Sophs won after an exciting contest, 19 to 16.

Athletics at Lehigh have taken great strides forward recently. The Brown and White football team this fall tied Princeton, 6 to 6, held West Point to a low score, and defeated, among others: Ursinus and Haverford. Lehigh expects to win from her old rival, Lafayette, on November 25.

Lehigh Evening School.

The second term of Lehigh evening school will open on Thursday evening, at 7:30 o'clock, in Christmas Hall, Lehigh University Campus, Packer Avenue and Birch Street. Classes will be formed in English, Algebra and possibly in other subjects, if there should be a demand for them. The tuition fee is nominal. Classes meet twice a week, on Mondays and Thursdays. Young men employed during the day will find this a good time to enter upon study along these lines.

WILLIAMSPORT BOYS TOOK PART IN MINSTREL SHOW

New Sophomores at Lehigh and Active
in the Social Events of the
College.

Robert A. Laedlein and William B. Todd, former High school students, now sophomores at Lehigh University, took part in the recent production of the University Minstrel association. Mr. Todd was one of the "bones" and Mr. Laedlein was a "marine." This minstrel show is one of the features of the social life of the students of Lehigh.

Both young men attended the local High school and graduated from the institution with the class of 1910. During their four years of High school life both were active in social events and both took prominent part in the several minstrel performances given for the benefit of the Athletic association. Mr. Todd was leading man in the Senior class play.

THE ALLENTOWN MORNING CALL

LEHIGH UNIVERSITY.

New Dormitories for Nearby College.
Professors Play Basket Ball.

The work of altering an old building on the Lehigh University campus for use as dormitories is proceeding so rapidly that the building will be ready for occupancy by spring. The new hall—which has not yet been named—will accommodate 34 students, there being three floors divided into suites and single rooms. The equipment will be of the best. Situated near the Commons and the main college buildings, this hall is more favorably located than Taylor Hall, the large dormitories which were given by Mr. Carnegie.

The younger men of Lehigh's teaching force have organized an athletic club that meets in the gymnasium each Thursday evening. The main exercise is basket ball. Games are played between picked teams. The mid-year examinations were finished yesterday and the students will have vacation until the opening of the second term on Tuesday morning.

LEHIGH HOLDS STARS TO MEET LAFAYETTE

Five of the Big Men Out of the Game To-day

Lehigh University is throwing away no chances to beat Lafayette next Saturday and for that reason most of their stars will be out of the game when the team lines up against Franklin and Marshall's team to-day on the gridiron on Lehigh field. Among the men who will be out of the game, being saved up for the annual big contest that Lehigh would rather win than all the rest of her schedule, are Vela, Goyne, Paetti, Dayton and Crichton.

From South Bethlehem yesterday came word of the enlargement of the seating capacity for the big game by the building of additional bleachers at the east end of the field. By this means it will be possible to seat 7300 people, an increase over previous arrangements of 1300 seats. More people can be accommodated in standing room, so that a crowd of probably 10,000 people will be able to see the game.

This increase was made largely because of the complaint that went out of Easton during the last few days about the allotment of tickets, Lafayette men claiming that they had not been given a square deal. Officers of the Easton college were in South Bethlehem yesterday, had a conference with the university authorities regarding tickets and left for Easton thoroughly satisfied with their additional allotment.

An officer of the Lehigh University Athletic Association yesterday denied the statement published in the city papers that Lafayette had received less than its usual allotment of tickets for the annual football game to be played here on Nov. 25. On Monday, the same day the sale was opened at South Bethlehem to the general public Eastonians received their usual number of tickets. The university authorities have decided, in order to further accommodate the rooters of the Maroon and White, to enlarge the football grandstand so that it will seat 300 more persons.

The Athletic Association this year kept the tickets out of the hands of scalpers and thus prevented a repetition of conditions two years ago.

THE ALLENTOWN MORNING CALL, FRIDAY, NOV. 24, 1911.

LEHIGH FOOTBALL SQUAD TO RUSTICATE AT PLEASANT CORNER

Brown and White Warriors to Put Finishing Touches on at Upper End Hotel

Twenty-two husky young athletes, comprising the football squad of Lehigh University, last evening passed through this city on their way to Pleasant Corner where they will remain at the hotel of Henry F. Smith until to-morrow forenoon when they will return to this city and go to South Bethlehem, arriving there just in time for the big game with Lafayette to-morrow.

Heading the squad was Captain Wylie and keeping a watchful eye on the young bloods at all time was Coach Reiter. The men were in happy frame of mind except that they were a little sore because Pazzetti, Houser and two other players had been kept back in South Bethlehem through deficiency in the mathematical work.

The men were eager for the trip into the country, and when a Slatinton car arrived they packed into it with a mass play formation that carried the crew off its feet. A few of the men made end runs about the car and there were any number of successful forward passes of heavy grip that contained the football togs that will be donned just as soon as the men have taken breakfast to-day up in the clear air of the hills around Pleasant Corner.

Coach Reiter had little to say except that the team is in the pink of condition and hopeful for success over their old rivals, the maroon and white. Goyne and Crichton are not fully recovered from their injuries but are expected to be in the game on Saturday. Captain Wylie felt equally confident and looked around with pride upon the group of huskies which blocked the pavement in front of Good's drug store and attracted the greatest attention on account of their size and fine appearance.

Wylie said that the trip into the country is an idea of Coach Reiter's and is an innovation. It is designed

to get the men away from the excitement of school and bring them back just in time for the big game. Up in the country it will be possible to try out a lot of new plays that they would rather have no one at all see. While it was not believed that the team would rest any too well last evening it is believed that they will slumber as peacefully as infants to-night and come down country ready for the game to-morrow as strong as Titans.

Pleasant Corner is known throughout this section as one of the most hospitable places in the county. When arrangements were made for the accommodation of the team it was difficult to make the good housewife of the hotel understand that there was to be no sausage, scrapple, buckwheat cakes and other seasonable delicacies on the breakfast table to-day. Nor could they understand why they were not to serve five kinds of pie to the hungry fellows. However, Captain Wylie prepared menus for the four meals the men will eat up at the hotel and this is about what they will get: Eggs and cereals, bread and milk for breakfast; beefsteak thick and rare, potatoes and vegetables and ice cream for dinner and supper, and plenty of all.

The team will leave the country hotel to-morrow at 11 o'clock.

The student body of Lehigh University had a singing practice in the gymnasium last evening. The Bethlehem Steel Company band of 80 men practiced with them and will lead the singing. A lot of new songs will be sung.

A monster smoker will be held this evening and speeches will be made by students and alumni.

The sales of seats is fine and a record breaking crowd is expected.

Lafayette will come up with a large crowd and is confident of victory. Spiegel, the star half-back, will likely play in this game.

INTENSE INTEREST IN THE LEHIGH-LAFAYETTE GAME

Arrangements For Handling An Immense Crowd At South Bethlehem On Saturday.

According to reports from Bethlehem today, interest in Saturday's great grid-iron contest between Lafayette and Lehigh is tense, both among the students and townspeople. Never before have the Lehigh alumni sent in so many orders for seats. The Lehigh athletic committee is sparing no efforts to provide adequate accommodations for what promises to be the largest crowd ever on the Brown and White field. The grandstand has been moved back and raised and the intervening space is being filled with stands. At the east end of the gridiron, near the baseball diamond, huge bleachers have been put up for general admission patrons, who are sure to find plenty of room and a good view of the game. Another marked improvement is the erection of the newest type of goal posts. The posts themselves are six feet in back of the goal line, with arms extending to support the cross-bar and upright, which are directly over the line. This arrangement is designed to prevent injury to players.

A meeting was held on Lehigh Field yesterday afternoon of 100 students who are to serve as ushers on Saturday. The Lehigh athletic committee, having succeeded in keeping tickets out of the hands of speculators, so far as is known, will endeavor to insure prompt and courteous handling of the crowd on the field. Saturday's game will begin at 2.30 sharp.

PLENTY OF SEATS NOW FOR LEHIGH-LAFAYETTE GAME

An Additional Allotment of 220 Seats Has Been Received Here.

An additional allotment of 220 tickets for next Saturday's football game at South Bethlehem, was sent to Easton this morning by the Lehigh management. This makes the total for Easton as follows:—513 @ \$2, 501 @ \$1.50, (cheering section); 1218 @ \$1.00, 400 @ 75c., 60 @ \$1.50; total, 2692.

Two years ago over 2,000 Eastonians attended the game at South Bethlehem, and the prospects are the crowd this year will be even larger. There will probably be over 10,000 people in attendance, the largest crowd that has ever seen the two teams play.

Extra Cars To Football Game.

The Easton Transit Company will put extra cars in service on Saturday afternoon next to accommodate the crowds that will attend the Lafayette-Lehigh game at South Bethlehem. These cars will leave the Circle at 12.30 and 1 o'clock in the afternoon and run direct to the grounds.

LAFAYETTE VS. LEHIGH.

Interest in Game on Lehigh Field
Saturday.

The Lafayette-Lehigh foot ball game at South Bethlehem this year promises to be the best and most spectacular one in a number of years. The crowd which will attend it will be probably the largest crowd that ever witnessed a Lafayette-Lehigh foot ball game. Both teams are making the most complete preparations and will spring all the tricks they know. With what is declared to be the strongest Brown and White team in recent years, Lehigh is counting upon a victory over her old rival, Lafayette, in the big game on Saturday. Interest and enthusiasm are at decidedly high pitch, judging from accounts received here. But Lafayette will also be prepared to put up her strongest game of the year, and her supporters cannot see how she can lose. The Lehigh team this year has been strengthened by the addition of four players who came from Wesleyan college. The pick of these is Pazetti, who plays quarterback for Lehigh. Notwithstanding, taking into consideration the form shown by both teams all year, Lafayette appears to be the favorite, and it is said that the odds will be slightly on Lafayette when the whistle blows for the kick-off.

Lehigh field will this year make a much better appearance than it has in a long time past. Charles H. Young, a Lehigh man, who has had wide experience in constructing stands, is in charge of the work of the erection of additional stands at Lehigh field. Painters have been busy and besides plenty of room for the general admission people and in the stands, the field will present a brightened appearance. Another marked improvement is the erection of the newest type of goal posts. The posts themselves are six feet in back of the goal line with arms extending to support the cross-bar and upright, which are directly over the line. This arrangement is designed to prevent injury to players.

A meeting was held on Lehigh field yesterday afternoon of 100 students who are to serve as ushers on Saturday. The Lehigh Athletic committee, having succeeded in keeping tickets out of the hands of speculators so far as is known, will endeavor to insure prompt and courteous handling of the crowd on the field. Saturday's game will begin at 2.30 sharp.

Lafayette is now in the best form of the season, and the students on the Hill are more than confident. Spiegler, the star half-back of the Lafayette team, will start in the game. He is now almost recovered from the injuries he received in the Indian game and Lafayette supporters expect much from him.

Okeson Coaching Lehigh

Bethlehem, Pa., Nov. 24.—Walter R. Okeson of 25 Clarendon Place, Orange, Resident Engineer of the Phoenix Bridge Co., spent several days here this week, assisting Coach Reiter in getting the Lehigh University eleven into shape for their big game Saturday with the Lafayette College team. Interest in the battle between these old rivals is unusually great, and advance sales indicate an attendance of about 10,000 people. Lehigh has had an excellent football record this fall, having tied Princeton 6 to 6, held West Point to a low score and defeated Ursinus, Haverford, Franklin and Marshall, and other teams.

Okeson, who was a graduate of Lehigh in the class of 1896, was a star on the Varsity team while in college, and was awarded an end position on the All-American eleven.

LEHIGH PREPARING FOR BIG CROWD

Seating Capacity Increased. Expect to Win.

Exceptional interest is being taken locally in Saturday's game between Lehigh and Lafayette at South Bethlehem, as is evidenced by the great advance sale of seats in this city.

The Lehigh Athletic Committee is sparing no efforts to provide adequate accommodations for what promises to be the largest crowd ever on the Brown and White field. The grand stand has been moved back and raised, and the intervening space is being filled with stands. At the east end of the gridiron, near the baseball diamond, huge bleachers have been put up for general admission patrons, who are sure to find plenty of room and a good view of the game. Painters have been busy and Lehigh field will present its best appearance of the season. This work is in charge of Charles H. Young, a Lehigh man who has had wide experience as a constructing superintendent for a Philadelphia plant.

Another marked improvement is the erection of the newest type of goal posts. The posts themselves are six feet in back of the goal line, with arms extending to support the cross-bar and upright, which are directly over the line. This arrangement is to prevent injury to players.

A meeting was held on the field yesterday of 100 Lehigh students who are to serve as ushers on Saturday. The Lehigh Athletic committee, having so far as is known succeeded in keeping tickets out of the hands of speculators, will endeavor to insure prompt and courteous handling of the crowd on the field. Saturday's game will begin at 2.30 o'clock.

Among the Lehigh players and student body, there appears to be a decided opinion that Lehigh will win.

LAFAYETTE AND LEHIGH CLASH TO-DAY

Memorable Contest to Take Place at So. Beth.

With the members of the Lehigh football squad ready to come down this morning with their lungs filled with the pure air from around Pleasant Corner, where they spent the last two nights and with the Lafayette team also in the pink of condition and thoroughly rested, following the final practice Thursday afternoon, everything points to a memorable game when the rivals meet this afternoon on the Lehigh field at South Bethlehem.

The rainy weather yesterday morning prevented the carrying out of the full program mapped out for the Pleasant Corner visit, but the trip was pronounced a decided success and the players to a man declare themselves "fit as a fiddle" for the game.

If the weather man is at all decent the attendance at the game will be a record breaker, for never in the history of the annual games between the two institutions has interest in the outcome of the battle been so keen. Extra seating space has been provided on the field and special trains and trolley cars will be pressed into service to handle the throng. The cheering sections of both colleges are tuned to a high pitch and the battle of lungs will be none the less interesting than the game.

The two colleges began to play football games with each other in 1884. Since then no year has gone by without at least one game except 1896. Until 1902 there were always two games each year, one played in Bethlehem and one in Easton. In 1885 and 1891 there were three games the odd one being played in Wilkes-Barre in the latter year. In all there have been 45 games, of which Lafayette has won 26, Lehigh 17 and two have ended in a tie. Lafayette has scored a total of 694 points to 354 of her opponents. Lafayette has an average of 49 points per game while Lehigh's average is 8.6 points per game. Lafayette has shown her greatest superiority since 1898, only three games having been lost out of the sixteen that have been played in that time.

The Lehigh team is generally conceded to be stronger this year than they have been for some time. Comparative scores give them a very high ranking. Their tie game with Princeton was a great feather in their Brown and White cap. As a result of all this there is lots of Lehigh money in sight. Lehigh has always been reluctant about backing her team with glittering gold, but this year is an exception. The terms of wager are almost universally "even money", with bets off in case of a tie.

As far as actual figures go Lafayette's line outweighs Lehigh's by 127 pounds to the man, but Lehigh's backfield outweighs her opponents by 8 1/4 pounds to the man. The average weight of the Brown and White's line is 172.7 pounds, backfield 168 pounds, and taking the 22 most promising candidates from the entire squad, the average weight is 170.9-11 pounds. The

average age of the team is 20 17-22 years; the average age of the entire squad is 21 1/2 years, and the average height is 5 feet 11 1/2 inches.

Lafayette's line averages 173 1/2 pounds; their backfield 159 3/4 pounds, provided Spiegel plays. He is their lightest backfield man, and the average weight of 22 men on the squad is 170 1/2 pounds. The average age of the Lafayette regulars is 20 17-22 years, and their average height is 6 feet. Lafayette's big center, Benson, will have it on Captain Wylie by thirty-six pounds, and is five and one-half inches taller, but the latter is fast and that will probably counterbalance the former's advantage. Captain Donnelhower, of Lafayette, is just one-half head taller than Pazzetti, who is Lehigh's star quarter, but the latter weighs six pounds more than Dannehower. The following is a statistical summary of the players:

ALLENTOWN, PA.

THE ALLENTOWN MORNING CALL,

LAFAYETTE FACULTY GUESTS AT LEHIGH.

With Prof. J. McKeen Cattell, the eminent psychologist and editor, as the guest of honor, the Faculty Clubs of Lafayette College and Lehigh University Friday evening had a supper and a meeting in the Commons and Drown Hall at Lehigh. This joint gathering was arranged by the Lehigh Faculty Club to allow the Lafayette Club to hear the address by Prof. Cattell, whose father was a former President of Lafayette and who is himself a Lafayette graduate. The occasion was, in all respects, a happy one, showing in decided fashion the cordial relations existing between the teaching staffs of these well-known institutions.

Supper was served in the Commons at 7 o'clock, a fine meal, including chicken and fried oysters, prepared by George Matthews. Ninety men, about forty of whom were from Lafayette, sat at two long tables. Ample advantage was taken of the opportunities for social intercourse.

Following a reception to Prof. Cattell in Drown Hall, the meeting, quite informal in every way, was called to order by Prof. W. S. Landis, who, with Prof. P. M. Palmer and Prof. Percy Hughes, comprised the Lehigh Club committee of arrangements. Prof. Cattell spoke on "Problems of University Administration." His paper was masterly in its concise presentation of the historical phases of university organization and was penetrating and practical in its analysis of present-day problems. A discussion followed by members of both faculties, in which the remedies suggested by Prof. Cattell were considered.

Prof. Cattell was the guest during his stay here of Prof. W. S. Franklin. He returned this morning to New York, where he is head of the Department of Psychology in Columbia University.

FOOT BALL.

Lehigh's Team is at Pleasant Corner.

Twenty-two husky young athletes, comprising the football squad of Lehigh University, last evening passed through this city on their way to Pleasant Corner where they will remain at the hotel of Henry F. Smith until to-morrow forenoon when they will return to this city and go to South Bethlehem, arriving there just in time for the big game with Lafayette to-morrow.

Heading the squad was Captain Wylie and keeping a watchful eye on the young bloods at all time was Coach Reiter. The men were in happy frame of mind except that they were a little sore because Pazzetti, Houser and two other players had been kept back in South Bethlehem through deficiency in the mathematical work.

The men were eager for the trip into the country, and when a Slatington car arrived they packed into it with a mass play formation that carried the crew off its feet. A few of the men made end runs about the car and there were any number of successful forward passes of heavy grips that contained the football togs that were donned just as soon as the men had taken breakfast to-day up in the clear air of the hills around Pleasant Corner.

Coach Reiter had little to say except that the team is in the pink of condition and hopeful for success over their old rivals, the maroon and white. Goyne and Crichton are not fully recovered from their injuries but are expected to be in the game on Saturday. Captain Wylie felt equally confident and looked around with pride upon the group of huskies which blocked the pavement in front of Good's drug store and attracted the greatest attention on account of their size and

fine appearance.

Wylie said that the trip into the country is an idea of Coach Reiter's and is an innovation. It is designed to get the men away from the excitement of school and bring them back just in time for the big game. Up in the country it will be possible to try out a lot of new plays that they would rather have no one at all see. While it was not believed that the team would rest any too well last evening it is believed that they will slumber as peacefully as infants to-night and come down country ready for the game to-morrow as strong as Titans.

Pleasant Corner is known throughout this section as one of the most hospitable places in the county. When arrangements were made for the accommodation of the team it was difficult to make the good housewife of the hotel understand that there was to be no sausage, scrapple, buckwheat cakes and other seasonable delicacies on the breakfast table to-day. Nor could they understand why they were not to serve five kinds of pie to the hungry fellows. However, Captain Wylie prepared menus for the four meals the men will eat up at the hotel and this is about what they will get: Eggs and cereals, bread and milk for breakfast; beefsteak thick and rare, potatoes and vegetables and ice cream for dinner and supper, and plenty of all.

The team will leave the country hotel to-morrow at 11 o'clock.

The student body of Lehigh University had a singing practice in the gymnasium last evening. The Bethlehem Steel Company band of 80 men practiced with them and will lead the singing. A lot of new songs will be sung.

A monster smoker will be held this evening and speeches will be made by students and alumni.

The sales of seats is fine and a record breaking crowd is expected.

Lafayette will come up with a large crowd and is confident of victory. Spiegel, the star half-back, will likely play in this game.

Lehigh Evening School.

An opportunity for young men in the Bethlehems and vicinity who wish to study English, algebra and other subjects is afforded in the Lehigh Evening School, conducted by the Department of Education of the University. The second term of the school will open on Thursday evening at 7.30 o'clock, in Christmas Hall. Classes meet on Monday and Thursday evenings. The tuition fee is nominal. Designed to appeal to young men who work during the day, the school has been successful thus far in giving its students practical, useful instruction. Prof. Hughes, who has the work in charge, states that "this is a good time to enter upon these courses."

JANUARY 4, 1912

LAFAYETTE FACULTY GOING TO LEHIGH

Will Be Guest of Brown and White Teaching Staff At Reception To Be Tendered Son of the Late Dr. Cattell.

Members of the Lafayette Faculty Club will be the guests of the Faculty Club of Lehigh University, at South Bethlehem, tomorrow evening, January 5, when the Lehigh teaching staff is to tender a reception to Prof. J. McKeen Cattell, of Columbia University.

Prof. Cattell will lecture in Packer Memorial chapel tomorrow morning on "Science and Democracy," to which the public is invited. At 6.45 p. m. the Lehigh and Lafayette teachers will have a supper in the Lehigh Commons, followed by Prof. Cattell's talk to them. His subject at this time is to be "Problems of University Administration."

The joint meeting of the faculties of these two well-known institutions for this particular occasion is peculiarly appropriate, inasmuch as Prof. Cattell's father was a former president of Lafayette. As editor of the magazines, Science and Popular Monthly, and head of the Department of Psychology at Columbia, Prof. Cattell has high standing, indeed, in the scientific world. His views along certain educational and administrative lines have attracted unusual attention, and both Lafayette and Lehigh teachers are looking forward with interest to his address before them.

Published daily (except Sunday) in the Morning Call Building, No. 27 South Sixth Street, Allentown, Pa.

His views along certain educational and administrative lines have attracted unusual attention, and both Lafayette and Lehigh teachers are looking forward with interest to his address before them.

SATURDAY JANUARY 6, 1912.

HAPPY EVENT AT LEHIGH UNIVERSITY

Prof. Cattell, Eminent Psychologist and Editor, Guest of Honor of Faculty Clubs of Lehigh and Lafayette.

With Prof. J. McKeen Cattell, the eminent psychologist and editor, as the guest of honor, the Faculty Clubs of Lafayette College and Lehigh University last evening had a supper and a meeting in the Commons and Drown Hall at Lehigh. This joint gathering was arranged by the Lehigh Faculty Club to allow the Lafayette Club to hear the address by Prof. Cattell, whose father was a former President of Lafayette and who is himself a Lafayette graduate. The occasion was, in all respects, a happy one, showing in decided fashion the cordial relations existing between the teaching staffs of these well-known institutions.

Supper was served in the Commons at 7 o'clock, a fine meal, including chicken and fried oysters, prepared by George Matthews. Ninety men, about forty of whom were from Lafayette, sat at two long tables. Ample advantage was taken of the opportunities for social intercourse.

Following a reception to Prof. Cattell in Drown Hall, the meeting, quite informal in every way, was called to order by Prof. W. S. Landis, who, with Prof. P. M. Palmer and Prof. Percy Hughes, comprised the Lehigh Club committee of arrangements. Prof. Cattell spoke on "Problems of University Administration." His paper was masterly in its concise presentation of the historical phases of university organization and was penetrating and practical in its analysis of present-day problems. A discussion followed by members of both faculties, in which the remedies suggested by Prof. Cattell were considered.

Prof. Cattell was the guest during his stay here of Prof. W. S. Franklin. He returned this morning to New York, where he is head of the Department of Psychology in Columbia University.

THE PROBLEM

OF UNIVERSITY ADMINISTRATION

Address By Prof. J. McKeen Cattell
In Drown Hall, Lehigh
University.

With Prof. J. McKeen Cattell, the eminent psychologist and editor, as the guest of honor, the Faculty Clubs of Lafayette College and Lehigh University last evening had dinner and a meeting in the Commons and Drown Hall at Lehigh. This joint gathering was arranged by the Lehigh Faculty Club to hear the address by Prof. Cattell, whose father was a former President of Lafayette, and who is himself a Lafayette graduate. The occasion was, in all respects, a happy one, showing the cordial relations existing between the teaching staffs of these well known institutions.

Supper was served in the Commons at 7 o'clock, a fine meal, including chicken and fried oysters, prepared by George Matthews. Ninety men, about forty of whom were from Lafayette, sat at two long tables. Ample advantage was taken of the opportunities for social intercourse.

Following a reception to Prof. Cattell in Drown Hall, the meeting, quite informal in every way, was called to order by Prof. W. S. Landis, who, with Prof. P. M. Palmer and Prof. Percy Hughes, comprise the Lehigh

Club Arrangement Committee. Prof. Cattell spoke on "Problems of University Administration." His paper was masterly in its concise presentation of the historical phases of University organization and was penetrating and practical in its analysis of present-day problems. A discussion followed by members of both faculties in which the remedies suggested by Prof. Cattell were considered.

Prof. Cattell was the guest during his stay of Prof. W. S. Franklin. He returned, this morning, to New York City, where he is head of the Department of Psychology in Columbia University.

THE PHILADELPHIA RECORD,

SCIENCE AIDS DEMOCRACY

Educator Traces the Two as Progressive Yokefellows.

Special to "The Record."

South Bethlehem, Pa., Jan. 5.—"Science and Democracy" was the title of an address interestingly given before the faculty, students and townspeople in the Packer Memorial Church of Lehigh University today. It was delivered by Dr. J. McKeen Cattell, professor of psychology at Columbia University and editor of Science and The Popular Science Monthly. Dr. Cattell spoke on the relations between science and democracy, tracing the inter-relations from the foundation of the mediaeval universities to the present time. His main argument was that science, with its applications, has been the cause of democracy. If wants are very simple, it is possible to have a kind of equality of opportunity and of resources, as among the lower animals and savages.

When conditions become more complicated society is thrown into a patriarchal, or feudal, or despotic, or oligarchic system. The material resources are not sufficient to provide adequately for all; the stronger seize on them, and the many must toil in ignorance and poverty in order that a few may have knowledge, leisure and luxury. But with the applications of science to industry and commerce, to the prevention of disease and premature death, it again becomes possible to provide equality of opportunity and adequate resources for all.

In the course of a single century the average length of life has doubled, and the amount of work that each man can do has been multiplied fourfold. It should be the chief object of democracy, in order that it may become secure and complete, to promote the further extension of science.

President Drinker in Japan

President Henry S. Drinker, of Lehigh University, most of whose active life was spent in this city, has been on a tour of Japan as a member of the delegation of the Institute of American Mining Engineers, studying the country. He writes back to his university paper some interesting comments on his trip as well as his views on the present status of the country before the world. Dr. Drinker was born in Hong Kong and as a lad saw Perry on his way to Tokio. He has been in close touch with the country ever since, so that his views are of interest.

At a time when many critics in this country are fearful of the progress of Japan, consider its civilization a thin veneer and its ambitions an international danger, Dr. Drinker takes an optimistic view. He has studied Japanese educational systems and their results and finds them worthy of the highest approval. He believes that the country is on a solid intellectual foundation. He sees no danger to this country from Japan's military policy and considers the country would be foolish to forfeit our friendship. But he does not think that Japan is one day likely to lead the world in the efforts for universal peace. Just now she is busy preparing to protect herself, since her voice in no way would be of value without having something more than academic arguments to advance in a crisis.

It may be that Captain Hobson will not be convinced by these views, but coming from such a high source they are worthy of consideration, especially as they conform with American wishes.

MR. SINDEL COLLEGE EDITOR.

South Bethlehem, Feb. 19.—L. J. E. Sindel, of Reading, a member of the class of 1913 in the mechanical engineering course at Lehigh University, has been elected an associate editor of the Brown and White, the college newspaper, published by the students at Lehigh. The present competition for positions on the staff of editors was unusually keen.

LEHIGH UNIVERSITY.

Chinaman Won Oratorical Contest— Other Notes.

The Junior Oratorical contest was held in Packer Memorial church, Lehigh university, on Washington's birthday, when six students in the class of 1913 competed for alumni prizes of \$25, \$15 and \$10. The awards were: First, Chin-min Chu-Fuh, whose subject was "The Chinese Revolution;" second, Sidney D. Williams who spoke on "The Regulation of Trusts;" third, Henry R. Griffin whose oration was on "The Short Ballot." The other speakers were Donald Bowman, William C. Frey, Jr., and William C. Rehniss.

The Southern Lehigh club had its twentieth annual banquet in Washington, D. C., this week. Addresses were made by Dr. Harvey W. Wiley, chief of the bureau of chemistry, Dr. Joseph A. Holmes, director of the bureau of mines, Congressman W. D. B. Ainey, President Drinker, Prof. Wm. C. Thayer and others.

E. A. Sterling of Philadelphia, a former forester of the Pennsylvania railroad, lectured on wood preservation before the Lehigh student body Friday morning.

President Drinker, of Lehigh, was this week appointed by Gov. Tener an honorary member of the national committee for the celebration of the one hundredth anniversary of peace among English speaking peoples, to be held in 1914 and 1915.

Lehigh university was represented at the Chestnut Blight conference at Harrisburg this week by President Drinker, Prof. R. W. Hall and H. Cranmer of the department of forestry.

HIS HALF-MILLION PLUM IN VACATION

Philadelphian in Hawaii Amazes
Rivals by Capturing Break-
water Contract.

MEANS A LOT MORE

Bonds From Home Arrive Only
Two Hours Before the
Opening of Bids.

Special to "The Record."

Bethlehem, Pa., Dec. 11.—In his trip around the world for recuperation, President Henry S. Drinker, of Lehigh University, is seeing and learning a lot of things. Recently in China, the land of revolution, Dr. Drinker, his wife and two daughters were in the midst of revelations when he wrote home a letter that was received here yesterday. It was, however, an epistle mostly about Hawaii, where Dr. Drinker and family had stopped en route to the Orient and enjoyed a brief visit full of new ideas and an almost enchanted environment. But most interesting of all that the noted educator learned in Honolulu was a fact about an enterprising Philadelphian, a man from "sleepy Philadelphia," who, just for recreation, in the midst of a vacation, captured and got away with a contract for \$500,000 for improvements at Honolulu, while other bidders were deliberately waiting to receive the big plum in their usual humdrum fashion. The man, Charles Francis Wood, of the Quaker City, represented the Philadelphia Breakwater Company, and he got the half-million-dollar contract for breakwater improvements at Honolulu just as a holiday diversion. Here is what President Drinker writes about the incident:

Charles Francis Wood, the well-known engineer (vice president of the Breakwater Company of Philadelphia, contractors for river and harbor improvements), who has two sons at Lehigh, was at Honolulu with his automobile to meet us. Mr. and Mrs. Wood have been making quite a stay at Hawaii, and they insisted on the whole party lunching with them. Prior to this we were taken on an automobile ride to the principal beauty spots of Hawaii mountain climbs and passes, rice and sugar lowlands, extinct volcanic craters, views of surpassing beauty, a wonderland, a fairyland of loveliness and of novelty to us of the old-new world on the Atlantic.

Hospitality and Hustle.

To bring to us a realization of the Southern story-book tales of our childhood, Mr. Wood had hospitably provided draughts of the milk of cocoanuts, and then whisked us back to the ship, stopping on the way for a quantity of beautiful flower-garlands, with which all male (strangers) are bedecked as a farewell offering when they leave Hawaii. Arrived at the ship, we found every one similarly garlanded, and the effect was novel and striking.

Mr. Wood is the head of a large company doing work at many points, largely for the Government, on breakwater construction. He had not had a holiday for 14 years, so last August he took a run out to Hawaii with his family for a rest. Like many other Americans, he found a little rest went a long way with him; learning that the Government was asking bids on a \$500,000 breakwater job out there, he quietly looked into it, and concluded to take a hand. He cabled to his home office for the necessary guarantees and bonds. They arrived by steamer September 8, two hours only before the time set for opening the bids. The one offered by Mr. Wood for the Philadelphia company proved to be the lowest, and he got the contract, to the disgust of the local contractors, who had not dreamed of any such opposing bid appearing.

Made Sure of His Ground.

Some attempt was made to have Mr. Wood's bid set aside for alleged informalities, but any man who knows Charles Francis Wood knows that he is not the kind of man to make that kind of bid. The contest was carried to Washington. General Bixby, chief of engineers, finally made a flat recommendation that the Philadelphia bid be accepted. The Secretary of War decided in favor of Mr. Wood's Philadelphia company, and the contract was awarded to them. It is not only a large contract in present, but there is much more work in prospect.

Dr. Drinker in this letter also tells of the sessions of the American Institute of Mining Engineers, which he attended in Japan. Papers were read by Dr. Reiji Kanda, of Tokyo, on "Mining and Metallurgical Interests in Japan," by D. W. Brunton, of Denver, vice president of the Institute, on "Laramie Tunnel," with discussion by Dr. Drinker and W. L. Saunders, president of the Ingersoll-Rand Company; by W. O. Clark, superintendent of the United Verde Mining Company, on "A Proposed Change in the United States Mining Law," and by Professor J. W. Richards, of Lehigh University, on "Electro-Chemical Industries of Norway and Sweden." The institute party, which included 38 engineers and 43 women, their wives and daughters, was very hospitably entertained by a committee of eminent Japanese engineers and scientists.

THE ALLENTOWN MORNING CALL,

TUESDAY, FEB. 20, 1912.

LEHIGH UNIVERSITY.

Teaching Young Foreign Workmen,
Lectures Given This Week.

In addition to its classes for public and private school teachers in extension courses, the Department of Education of Lehigh University is doing work among the foreign population of South Bethlehem. English, arithmetic and algebra are taught to young Hungarians, Poles, Russians, Germans, Argentinians and Hebrews employed at the Bethlehem Steel Co.'s plant. Six of the classes meet in halls and hotels in the Hungarian section, the remainder at the University. The teachers are Lehigh students. A Russian, a Hungarian and a Pole are being coached to enter the regular university courses.

Joseph W. Hunter, first deputy state highway commissioner of Pennsylvania, addressed the Civil Engineering Society on "Good Roads" on Wednesday.

The Civil Engineering Society had as speaker for its February meeting, C. K. Baldwin, '95 chief engineer of the Robbins Belt Co., New York. Dr. Holmes of the Department of Psychology, University of Pennsylvania, gave a talk before the Christian Association. J. Horace McFarland of the National Conservation Association on Friday morning addressed the student body in the chapel on "See Pennsylvania First."

Lehigh Base Ball Schedule.

Lehigh announced their baseball schedule on Saturday and it is one that will keep the team hustling. The schedule calls for nineteen games, eleven of which are at home. The schedule is:

March 27 and 30, open.
April 10, Princeton, away.
April 13, Cornell, away.
April 17, Ursinus, away.
April 20, East Ends, at Bethlehem, away.
April 24, Tufts, at home.
April 26, Columbia, at home.
May 1, Franklin and Marshall, away.
May 4, Army, away.
May 8, open.
May 11, Stevens, away.
May 15, Pennsylvania, away.
May 18, Lafayette, at home.
May 22, open.
May 25, Lafayette, away.
May 30, Rutgers, at home.
June 1, Swarthmore, at home.

Lehigh University Items.

The work of altering an old building on the Lehigh University campus for use as dormitories is proceeding so rapidly that the building will be ready for occupancy by spring. The new hall which has not yet been named will accommodate thirty-four students. There will be three floors divided into suites and single rooms. The equipment will be of the best. Situated near the Commons and the main college buildings, this hall is more favorably located than Taylor hall, the large dormitories which were given by Mr. Carnegie.

The younger men of Lehigh's teaching force have organized an athletic club

that meets in the gymnasium each Thursday evening. The main exercise is basketball. Games are played between picked teams. The mid-year examinations were finished Friday and the students will have a vacation until the opening of the second term on Tuesday morning.

LEHIGH ATHLETIC NOTES

Students Organize Soccer League—Basket Ball and Base Ball.
 The students at Lehigh University have organized a soccer league, with eleven teams comprising fraternity and dormitory groups. A Spring schedule is being arranged. This form of foot ball is quite popular in the Bethlehems. The Bethlehems Club, composed of English and Welsh employes at the Bethlehem Steel Company's plant, holds the championship of Eastern Pennsylvania, not having been defeated this year. These players assist in coaching the college boys.
 After having easily defeated Brown on Washington's birthday and having won out over Penn State, the Lehigh basket ball team went into the game with Swarthmore Saturday night hopeful of victory. The Quakers have not lost a single contest this season. Lehigh has had an unusually successful record this winter, capturing most of the games. Princeton won from the Brown and White five by a single point.
 Little can be learned about Lehigh's base ball prospects. There are more candidates out for the nine than last spring.

READING, MARCH 11, 1912.

READING CAPTAIN AT LEHIGH UNIVERSITY

South Bethlehem, March 11.—Stanley E. Muthart, of Reading, the speedy center of the Lehigh University basketball team, has been elected captain for next year. With their victory over Swarthmore, the Brown and White five closed the most successful season in Lehigh's basketball history. The Quakers had not suffered a single defeat prior to this game, having beaten the Army, the Navy, University of Pennsylvania, Bucknell, Dickinson and other strong teams. Lehigh's list of "wins" includes contests with Brown, Penn State, Gettysburg and others. The Brown and White team lost to Princeton by one point in the last 40 seconds of play.
 Muthart made a splendid record during the past season. He led in the number of points scored, his total being 247. Playing in 27 halves, he shot 72 goals from the field and basketed 103 foul goals. P. J. White, a forward, was second in points scored, 91.
 Lehigh's baseball prospects are regarded as quite favorable. The new coach, J. F. Keady, formerly of Dartmouth, has taken the squad in hand.

LEHIGH CLOSED GREAT BASKET BALL SEASON.

Lehigh has just completed the most successful basket ball season in her athletic history. The schedule closed with last Saturday's victory over Swarthmore remarkable because the Garnet five had not suffered a single defeat prior. Swarthmore had beaten the Army, the Navy, University of Pennsylvania and other strong teams. Lehigh's list of "wins" includes contest with Brown, Penn State, Gettysburg and others. The Brown and White team lost to Princeton by one point in the last forty seconds of play. Stanley E. Muthart of Reading, the speedy centre who scored 247 points during the season, has been elected captain for next year.

AT LEHIGH UNIVERSITY.

Railroad Men Met at Lehigh—Alumni Organize in Utah.

As guests of Lehigh university, two hundred members of the telegraph and telephone department of the Pennsylvania railroad had two sessions at South Bethlehem, Pa., last week. Prof. W. S. Franklin addressed them on "The Gyroscope" and A. L. Ervin spoke on "Morse and Multiplex Telegraph Apparatus." The railroad men were entertained in the University commons.
 Prof. F. P. McKibben, head of the department of civil engineering, who visited the Northwest last summer, addressed the Lehigh politics club Saturday evening on "The Government of Alaska." At a gathering in Salt Lake City recently, alumni of Lehigh in eight Western mountain states organized a club. Dr. J. E. Talmage was chosen president and J. H. Wolfe secretary.
 President Drinker represented Lehigh at the anniversary celebration at the University of Pittsburgh this week.

SONS OF LEHIGH AT ANNUAL FEAST

President Drinker Tells of New
Athletics—Dr. Wiley on
"Alley Conditions."

Declaring that sociological conditions in the alleys of Washington are more shameful than those in the times of slavery, Dr. Harvey Wiley, in an address last night at the twentieth annual banquet of the Southern Lehigh Club at the Shoreham, said the great need of the National Capital in the present day is alley engineers.

"Worse Than Slavery."

"Conditions among the poor colored people of the District," said Dr. Wiley, "are worse than those in the olden days of slavery. The infant mortality among the colored is just twice that of the white race. And with this pitiable state of affairs at our door we walk the streets without giving them the least consideration or concern. What we need is alley engineers. We need men who will help these suffering people for humanity's sake and not alone for the sake of art."

Ralph P. Barnard, '89, presided as toastmaster. Dr. Henry S. Drinker, of the class of '71, and at present president of the university, delivered an address, in which he told of the revival of athletics at Lehigh. He said that beginning tomorrow a system of compulsory athletics will be placed in operation, at the instance of the student body itself.

Addresses were also delivered by Dr. William C. Thayer, professor of English language and literature at the university, and Dr. Joseph A. Holmes, director of the Bureau of Mines, Department of the Interior. Maj. William V. Judson, Engineer Commissioner of the District, and Eugene G. Grace, of the class of '89, general manager of the Bethlehem Steel Company, were upon the guest list, but were unable to attend. Under the nom de plume of "Prof. Fizz," George A. Bentley, accompanied on the piano by James White, sang in the guise of a Minute Man to the tune of a popular song parodies on Dr. Wiley, Dr. Drinker, Mr. Grace, Maj. Sylvester, and others.

Officers and Guests.

Officers of the organization are L. N. Gillis, '93, president; T. C. J. Bailey, jr., '90, vice president, and Albert Draper, '07, secretary-treasurer. The committee in charge of the banquet was composed of L. N. Gillis, '93; J. A. Watson, '84; R. P. Barnard, '89; T. C. J. Bailey, jr., '90; H. C. Eddy, '92; William Bowie, '95; G. H. Chasmar, '97; B. Kent, '44; Albert Draper, '07; Elwood Johnson, jr., '07, and H. J. Jackson, '08.

The guests were Dr. Henry S. Drinker, Dr. William C. Thayer, Dr. Harvey W. Wiley, Dr. Joseph A. Holmes, Representative William D. B. Alney, '87, of Pennsylvania; James White, and George A. Bentley. Others present were F. A. Weihe, T. C. J. Bailey, jr., Herbert Wright, H. C. Eddy, Henry Orth, H. D. McCaskey, C. J. O'Neill, W. I. Boyd, E. C. Brown, Fairfax Bayard, G. H. Chasmar, Clarence Barnard, S. J. Gass, D. F. Hewitt, B. M. Kent, Albert Draper, J. H. Gallher, Elwood Johnson, jr., J. G. Mathers, H. J. Jackson, S. L. Heckinger, J. T. Vivian, Charles Wheatley, T. R. Senior, jr., E. F. Baumgartner, J. C. Stoddard, H. H. Thompson, L. N. Gillis, William Bowie, J. A. Watson, W. A. MacFarland, G. A. Nixon, and W. P. Richards.

PLEA FOR ATHLETICS

Made by President Drinker at
Lehigh Club Dinner.

TO BE MADE COMPULSORY

System Planned for Benefit of Gen-
eral Student Body.

OTHER GUESTS AT BANQUET

List Included Dr. Harvey W. Wiley,
Dr. Joseph A. Holmes and Rep-
resentative Ainey.

The system of compulsory athletic exercise, as a means of insuring sound minds by creating sound bodies, and as an essential requirement for graduation, to be made part of the course at Lehigh University, was the theme of the address delivered by Dr. Henry S. Drinker, a graduate of the class of '71, and the president of the institution, at the annual banquet of the Southern Lehigh Club, held in the Shoreham Hotel, last night.

"From the standpoint of the faculty," said Dr. Drinker, "this move is supported because it must promote the well-being and health of the student, particularly of that student who will not take such exercise without the incentive of scholastic marking for its accomplishment. From the standpoint of the student body, it is enthusiastically supported because it is certain to forward success in athletic contests."

Among others present as guests of the evening were Dr. William C. Thayer, professor of English language and literature at Lehigh University; Dr. Harvey W. Wiley, chief of the bureau of chemistry; Dr. Joseph A. Holmes, director of the bureau of mines, and Representative William D. B. Alney, class of '87, of the fourteenth congressional district of Pennsylvania. Ralph P. Barnard, '89, was the toastmaster. Entertainment was provided by James White, jr., and George A. Bentley, the latter presented as the wraith of a past president of Lehigh and lampooning alumni and faculty present in a song that made a clever hit.

Dr. Drinker's Address.

Dr. Drinker in his address said in part: "It will be remembered that this club took an active interest in the general discussion of athletics throughout our alumni and student bodies two years ago. The outcome of this discussion has been most helpful, and the matter has received careful attention by the trustees and faculty. Lehigh has always borne the reputation of a place for honest educational work, and is maintaining it. In safeguarding and training young men, the care of their bodies is as essential and important a duty as the training of their minds. With us, as you alumni well know, the difficulty has not been to make our students work, the difficulty has been to make them rest, sleep and play sufficiently to insure sound minds and sound bodies for work.

"We do not wish to procure or to train gladiatorial athletes, but we are anxious to see that our programs of work are so ordered that every student in college shall not only have the time and opportunity, but shall be compelled to systematically take a reasonable amount of open-air exercise away from the drawing rooms and laboratories and study rooms, and to this end our roster work, which formerly ran to 5 and 6 p.m., has been revised so that

this year for the first time, practically all classroom work ceases at 4 p.m., and this result has been reached by careful arrangement and organization without in any way lowering our requirements or standards of educational work.

Compulsory Athletics.

"And to the end that this time may be availed of to the best advantage, the student body has petitioned and the faculty have agreed to institute a system of compulsory athletic exercise on students in all classes, in addition to the gymnasium work heretofore and still required from the freshman class, making it obligatory on every student to take a certain reasonable amount of open-air exercise, the record of fulfillment of this requirement during the four years to be as essential to the obtaining of a diploma as any study requirement.

"Under these new rules such physical exercise will include gymnasium work, fencing, wrestling, basket ball, hand ball, bowling and all forms of outdoor sports, such as tennis, base ball, foot ball, lacrosse, track and other field sports, cross-country runs, walks taken solely for the sake of exercise, skating coasting, golf, boating and swimming; these athletic duties to be subject to the honor system similarly to all other requirements."

Additions to Teaching Staff.

Dr. Drinker further called attention to the advancement that had been made in the size and grade of the teaching staff during the last few years.

"It is the policy of Lehigh not to strive to increase its student body, but to remain an institution with a student body of about 600," he said; "to strive continually to strengthen the teaching staff and facilities and to base and maintain its reputation on the character of its product rather than on the size of its attendance roll.

"With a student body this year of 600 and a teaching force of sixty-seven the university shows an average of one teacher to nine students, a condition that educators will recognize as exceptionally favorable, especially where, as in this case, the large majority of this force are mature, experienced men."

The officers of the club are: President, L. B. Gillis, '93; vice president, T. C. J. Bailey, jr., '90; secretary-treasurer, Albert Draper, '07. The committee which arranged the dinner consisted of L. N. Gillis, '93; J. A. Watson, '84; R. P. Barnard, '89; T. C. J. Bailey, jr., '90; H. C. Eddy, '92; William Bowie, '95; G. H. Chasmar, '97; B. M. Kent, '04; Albert Draper, '07; Elwood Johnson, jr., '07 and H. J. Jackson, '08.

Those at the Banquet.

Those at the dinner were T. C. J. Bailey, jr., '90; Ralph Barnard, '89; Clarence Barnard, '98; Fairfax Bayard, '96; William Bowie, '93; E. C. Brown, '95; G. H. Chasmar, '97; Albert Draper, '07; H. C. Eddy, '92; J. H. Gallher, '07; S. J. Gass, '98; L. N. Gillis, '93; S. L. Heckinger, '09; D. F. Hewitt, '02; H. J. Jackson, '08; Elwood Johnson, '08; B. M. Kent, '04; H. D. McCaskey, '93; W. A. MacFarland, '88; J. G. Mathers, '08; G. A. Nixon, '78; C. J. O'Neill, '93; Henry Orth, '92; W. P. Richards, '88; J. C. Stoddard, '09; H. H. Thompson, '09; J. T. Vivian, '05; J. A. Watson, '84; F. A. Weihe, '89; Charles Wheatley, '06; Herbert Wright, '90; T. R. Senior, jr., '07.

[NOTICES DVE

MEN IN WASHINGTON]

DR. WILEY EXPLAINS HIS POLITICAL AIMS

Elaborates on Presidential Platform in Speech to Lehigh Alumni.

LIKENS HIMSELF TO DR. SUN YAT SEN

Says He Is the Marquis of Queensbury of Socialists and Opposed to Wealth.

Launched formally on his Presidential boom last night at the twentieth annual dinner of the Southern Lehigh Club at the Shoreham Hotel, Dr. Harvey W. Wiley elaborated upon his platform in the Presidential election struggle. He intimated, however, that like the famous Dr. Sun, of the Chinese republic, he would straighten the affairs of the nation and then gracefully sidestep the nomination for Presidency. This, Dr. Wiley claimed, was even more than any Presidential candidate in this country has ever done.

"No matter how humble a man may be, he is entitled to the same rights and privileges of the rich man. That's my platform," said Dr. Wiley. "My gospel is public health, long life, and efficiency of service."

Dr. Wiley's speech deplored conditions in the alleys of Washington. The infant mortality, Dr. Wiley claimed, warranted consideration and immediate action.

Athletics Are Compulsory.

Dr. Henry S. Drinker, a graduate of the class of '71 and president of Lehigh University spoke of the system of compulsory athletics at Lehigh as a means of creating sound minds and bodies. Dr. Drinker dwelt upon the course in athletics as an essential requirement for graduation.

Outlining the proposed course in athletics, Dr. Drinker said that fencing, wrestling, basketball, handball, bowling, and a gymnasium course would be required indoors and all forms of outdoor sports such as football, baseball, tennis, lacrosse, track work, skating, coasting, golf, boating and swimming would find a place on the curriculum.

Dr. William C. Thayer, professor of English at Lehigh, and Dr. Joseph A. Holmes, director of the Bureau of Mines, gave addresses. Congressman William D. B. Ainey, Lehigh '87, of Pennsylvania, was present. Ralph Barnard, '89, acted as toastmaster. James White and George A. Bentley furnished the entertainment during the evening with songs.

Officers of Club.

The officers of the club are: President, L. B. Gillis, '33; vice president, T. C. J. Bally, jr., '30; secretary-treasurer, Albert Drapper, '07. The committee which arranged the dinner consisted of L. N. Gillis, '33; J. A. Watson, '84; R. P. Barnard, '89; T. C. J. Bally, jr., '30; H. C. Eddy, '22; William Bowie, '35; G. H. Chasmar, '37; B. M. Kent, '04; Albert Draper, '07; Elwood Johnson, jr., '07, and H. J. Jackson, '08.

Those at the dinner were T. C. J. Bally, jr., '30; Ralph Barnard, '89; Clarence Barnard, '38; Fairfax Bayard, '30; William Bowie, '35; E. C. Brown, '25; G. H. Chasmar, '37; Albert Draper, '07; H. C. Eddy, '22; J. H. Gallber, '07;

Wiley Pointers.

I am working to keep people out of heaven just as long as I can, and the strange thing about it is, I am getting the support of the ministers. I find they do not care to get there ahead of time.

I believe in equal rights for men and women. If the woman has the same right to vote as I have, I have the same right to stand up in a crowded street car as she has. I keep my seat and let the woman stand.

I am the Marquis of Queensberry of Socialists. I want a rule of the game, so that a man will have to live fair and square. The rich have the stranglehold on the race of the country. I want the American citizen to have the right for his "white alley."

I want a condition of affairs to make large fortunes impossible. Help for help's sake, and not for art.

S. J. Gass, '38; L. N. Gillis, '33; S. L. Hickinger, '09; D. F. Hewitt, '02; H. J. Jackson, '08; Elwood Johnson, '08; B. M. Kent, '04; H. D. McCaskey, '33; W. A. McFarland, '88; J. G. Mathers, '08; G. A. Nixon, '78; C. J. O'Neill, '32; Henry Orth, '32; W. P. Richards, '88; J. C. Stoddard, '09; H. H. Thompson, '09; J. T. Vivian, '05; J. A. Watson, '84; F. A. Weihe, '89; Charles Wheatley, '06; Herbert Wright, '90; T. R. Senior, jr., '07.

WASHINGTON
POST

DINNER OF LEHIGH MEN

Dr. Wiley Points Out the Need of Reforms to Aid Poor.

ATTACKS "LAWS FOR THE RICH"

Engineers Present Advised to Pay More Attention to the Public Weal Than Their Reputations—College Men, He Says, Should Be "Taught to Fight Fair"—Other Speakers.

Forty graduates of Lehigh University attended the twentieth annual banquet of the Southern Lehigh Club at the Shoreham Hotel last night. Dr. Harvey W. Wiley impressed upon the engineers present that they should perform their work with less regard for their personal reputation and with more regard for the general health of the public. The death rate of the country, he said, is entirely too high, and they should make every effort to introduce and maintain better sanitation in all works.

Although the rich are not to blame for taking advantage of their opportunities to amass fortunes, added Dr. Wiley, the laws of the country should be changed so that the poor will have equal opportunity with the wealthy.

"No matter how high or how low a man is in the social scale," he continued, "he should not be compelled to contend against the overwhelming odds that exist at the present. Men should be taught in the colleges to fight fair and not seek to obtain a strangle hold on the public, as is the case with many who have amassed great fortunes."

Others Who Made Addresses.

Dr. Henry S. Drinker, the president of Lehigh University, spoke on the accomplishments of the institution during the last year.

Other addresses were made by Dr. William C. Thayer, of Lehigh University; Dr. Joseph A. Holmes, director of mines, of the Department of Interior; James White, jr., and Ralph P. Barnard, who acted as the toastmaster.

An amusing novelty was introduced by George A. Bentley, who sang comic parodies from a volume entitled "Doctor Wiley's Cook Book." The songs ranged in reference from "President Taft's reciprocity bill" and pensions for government employes to Maj. Richard Sylvester and "Dorsey Foulitz."

Among others present were T. C. J. Bally, Clarence Barnard, Fairfax Bayard, William Bowie, E. F. Baumgartner, V. I. Boyd, E. C. Brown, G. H. Chasmar, V. A. Draper, H. C. Eddy, J. H. Gallber, S. J. Gass, L. N. Gillis, S. L. Heelinger, D. F. Hewitt, H. J. Jackson, Elwood Johnson, B. M. Kent, H. D. McCaskey, W. A. McFarland, J. G. Mathers, G. A. Dixon, C. J. O'Neill, Henry Orth, W. P. Richards, J. C. Stoddard, H. H. Thompson, J. T. Vivian, J. A. Watson, F. A. Weihe, Herbert Wright, Charles Wheatley, and T. R. Senior, jr.

1899

The Intercollegiate

Lehigh Life

THE minstrel show this year was something novel and entirely different from anything of previous years. The scene was laid on the deck of a ship off the coast of Florida. In the opening chorus were introduced songs from Pinafore and the Mikado. Coon songs and ballads followed mingled with up-to-date jokes. The songs were particularly good and the singers at their best. Heretofore the show has been given in the Opera House, but this year it was decided to make it shorter and give it in Drown Hall. A dance followed lasting until midnight.

There is a movement on foot to introduce soccer at Lehigh. This will provide a sport for those men who desire outdoor exercise during the lapse between the close of the football season and the beginning of the spring sports. The success of this movement will depend largely upon the number of men showing interest in this activity.

A new idea is being formulated at Lehigh whereby all students will be required to take some kind of exercise regularly. This will not only be an inducement to proper exercise but also will be an incentive to men to try for the various athletic teams as the participant will receive one term hour credit. At present, the number of term hours required for a man to stay in college is ten. The idea is to have this exercise count as one of the term hours or else, raise the standard to eleven and have it count as two term hours.

No one sport is designated as the proper exercise, a choice being given to the man himself. Credit for the exercise chosen will be given on the basis of attendance, interest, and efficiency, the relative importance of the three being in the order named. The matter was presented to the faculty by a committee appointed by the stu-

dent body and the result rests with the faculty.

The basketball team is making a fine showing this season having lost but one of the six games already played. The defeat was at the hands of the Princeton five, the winning goal having been shot in the last minute of play. The team seems to be a settled matter now with A. K., and P. J. White as forwards, Muthart at center, and Cole and Captain Cook at guard. In case of injury to one of the regulars, there is a long string of capable substitutes from which a good man can be chosen at short notice.

ANDREW K. WHITE MADE GOOD RECORD.

South Bethlehem, Pa.—Andrew K. White of Chicopee made a good record as a forward on the Lehigh University basketball team, which has just closed a most successful season. The schedule closed with last Saturday's victory over Swarthmore, remarkable because the Quakers had not suffered a single defeat prior. They beat the Army, the Navy, University of Pennsylvania, Bucknell and other strong teams. Lehigh's list of "wins" includes contests with Brown University, Penn State College, Gettysburg and others. The Brown and White team lost to Princeton by one point in the last forty seconds of play.

White played in 14 halves and scored 28 goals from the field. Other Chicopee students at Lehigh in the engineering and chemistry courses are A. C. Cooper, W. J. Orr, H. D. Baldwin and T. J. Priestley.

THE PLAIN SPEAKER

17 West Broad Street, Hazleton, Pa.

Subjects by Local Graduates.

The list of the subjects of Seniors in the civil engineering department of Lehigh University, South Bethlehem, include studies by two Hazleton students, Frank S. Lubrecht and Harry M. Benjamin. Mr. Lubrecht will present a "Study of Methods of Surfacing Highways." Mr. Benjamin, with four other seniors is making experiments to determine the accuracy of various kinds of water meters.

LOCAL BOYS FIGURE IN SUCCESSFUL SEASON

SPECIAL TO JOHNSTOWN DEMOCRAT.

South Bethlehem, March 11.—Two Johnstown boys, Peter J. White and Harry A. Crichton (the latter now of Bethlehem), figured prominently in Lehigh's basketball season just closed, the most successful in the history of the university. The schedule closed with last Saturday's victory over Swarthmore, remarkable because the Quakers had not before then suffered a single defeat. They beat the Army, the Navy, University of Pennsylvania, Bucknell, Dickinson and other strong teams. Lehigh's list of "wins" includes contests with Brown, Penn State, Gettysburg and others. The Brown and White team lost to Princeton by one point in the last 40 seconds of play.

White scored 91 points and Crichton 58 points during the season, almost entirely on goals from the field. These records are especially good, because both men were handicapped by absence from several games. White sustained an injury to an arm that kept him out for several weeks and Crichton began to play only after the second term opened.

Lehigh's baseball prospects are regarded as quite favorable. The new coach, J. F. Keady, formerly of Dartmouth, has taken the squad in hand.

AT LEHIGH UNIVERSITY.

Important News Items from the South Bethlehem Institution of Learning.

In a lecture on "Present Conditions in China" at Lehigh University on Saturday, Arthur Rugh, who spent some years in China, paid tribute to Harvard for its support of medical research to determine the cause of various Oriental diseases. Mr. Rugh predicted that the next fifteen years will see marvellous development in China's industrial life, and he advised young men looking for a field of work to go there. In the evening Mr. Rugh addressed the Lehigh Christian association on religious activity in China.

President Drinker attended the annual meeting of the Pennsylvania State Forestry association at Harrisburg last week. Prof. W. S. Franklin gave a lecture on "The Gyroscope" before the Engineers club in Baltimore on Friday.

One hundred and five members of the senior class of Lehigh University were gathered at a banquet in the Eagle hotel, Bethlehem, last Thursday night. An elaborate menu was served. With the serving of the coffee and cigars Toastmaster Edwards, also president of the class, read a letter from Dr. H. S. Drinker, president of Lehigh University, expressing regret at not being present. Registrar Emery, Prof. J. L. Stewart and Prof. W. L. Wilson, members of the Lehigh University faculty, and guests of the class, responded to the invitation of the toastmaster.

Lehigh has just completed the most successful basketball season in her athletic history. The schedule closed with last Saturday's victory over Swarthmore, remarkable because the Garnet five had not suffered a single defeat prior. Swarthmore had beaten the Army, the Navy, University of Pennsylvania and other strong teams. Lehigh's list of "wins" includes contests with Brown, Penn State, Gettysburg and others. The Brown and White team lost to Princeton by one point in the last forty seconds of play. Stanley E. Muthart, of Reading, the speedy forward who scored 247 points during the season, has been elected captain for next year.

The March meeting of the athletic committee of Lehigh University was held Thursday afternoon in Drown hall with the following members present: Prof. W. L. Wilson; Prof. H. R. Reiter, Vice-President Emery, S. L. Harleman, R. B. Bird, V. B. Edwards, '12, and G. P. Flick, '14. The base ball schedule for this spring was submitted by Manager Baird and was approved. The election of G. S. Simpson, '14, to the position of an assistant manager of the football team was also approved. It was also decided to award to the managers of the teams of 1910-1911 the insignia which was awarded to their respective teams.

—Ernest E Finn, of Montrose, a Junior in the course in Mechanical Engineering at Lehigh University, was elected President of the student Young Men's Christian Association at a meeting this week. G. P. Flick, of Tarentum, the Varsity football quarter-back, was chosen Secretary. The Association, which is an important factor in the college life at Lehigh, has had an unusually successful year. It has conducted classes among foreign workmen at the Bethlehem Steel Co.'s plant, with Association members as instructors. English, arithmetic and a few other branches are taught. The Y. M. C. A. handbook, distributed free to all students, netted a profit because of the large number of advertisements. Special work is planned for next year under the new administration. At a meeting of the Lehigh Mechanical Engineering Society last week, Mr. Finn gave a talk on "Machinery of an Anthracite Mine."

CHILD CONSERVATION.

Interesting Sessions to Be Held at Lehigh on April 3 and 4.

Bethlehem, March 16. — School teachers and others interested in education in Pennsylvania, New York and New Jersey, will attend a Conference on Conservation of School Children to be held at Lehigh University, on April 3 and 4, under the auspices of the American Academy of Medicine. There will be two sessions each day under the general heading, "Deficient and Backward Children," "Conservation of School Children," "Teaching Hygiene," and "Medical Inspection."

The speakers will include Dr. A. N. Craig of Chicago, president of the American Academy of Medicine; Dr. W. S. Cornell, lecturer at the University of Pennsylvania; Dr. Thomas D. Wood, of Teachers' College, Columbia University; Prof. Percy Hughes, of Lehigh University; Prof. Alvin Davison, of Lafayette college; Dr. Samuel G. Dixon, state commissioner of health; Dr. Joseph S. Neff, director of public health and charities in Philadelphia; Dr. H. H. Goddard, of Vineland, N. J.; Dr. H. C. Sharp, of Indianapolis; J. H. Van Sickle, of Springfield, Mass.; Dr. E. B. McCready, Dr. J. F. Edwards, Dr. W. C. White and Director Arthur Hammerschlag, of Pittsburgh, and others.

The executive committee of the conference is composed of Drs. R. H. Beck, of Hecktown; William L. Estes, of South Bethlehem; J. E. Fretz, E. M. Green and Charles McIntire, of Easton, (chairman,) and H. C. Pohl, of Nazareth. The local committee includes President Drinker, Vice President Emery, and Dr. Estes, of Lehigh University.

Neff, director of Public Health and Charities in Philadelphia; Dr. H. H. Goddard, of Vineland, N. J.; Dr. H. C. Sharp, of Indianapolis; J. H. Van Sickle, of Springfield, Mass.; Dr. E. B. McCready, Dr. J. F. Edwards, Dr. W. C. White and Director Arthur Hammerschlag, of Pittsburgh, and others.

The executive committee of the conference is composed of Drs. R. H. Beck, of Hecktown, William L. Estes, of South Bethlehem, J. E. Fretz, E. M. Green and Charles McIntire, of Easton; and H. C. Pohl of Nazareth. The local committee includes President Drinker, Vice President Emery and Dr. Estes of Lehigh University.

The big cage of Lehigh University presents a busy scene these early spring afternoons. Base ball, lacrosse and track candidates are using the large enclosed area, which of course is free of mud, in order to get into condition for the approaching season. The base ball schedule opens on March 27 with a game at South Bethlehem with Lebanon Valley. Coach Keady, who came to Lehigh from Dartmouth, has a wealth of candidates, but just what they will produce in actual play remains a question. If the problem of pitchers can be solved, the Brown and White team will be strong as the other positions have likely aspirants. The lacrosse outlook is said to be most favorable. It is too early to judge as to track prospects.

F. Herbert Snow, of Harrisburg, chief engineer of the Pennsylvania department of health, lectured before the Lehigh student body Friday morning on "Public Health and the Civil Engineer." Mr. Snow discussed proposed legislation along the lines of preventive medicine.

President Drinker attended the reception to President Hibben of Princeton, held in Horticultural hall, Philadelphia, on Wednesday evening.

DR. E. W. GOODENOUGH TO PRESENT PAPER

Will Be Present at Conference of New England Educators.

South Bethlehem, Pa., March 17.—New England educators will take part in a conference to be held at Lehigh university on April 3 and 4, under the auspices of the American Academy of Medicine. At the sessions of the first day, the general subjects will be "Deficient and Backward Children" and "Conservation of School Children," "Teaching Hygiene" and "Medical Inspection" will be discuss on the second day. The speakers will include Dr. A. R. Craig, president of the American Academy of Medicine, J. H. Van Sickle, superintendent of the schools of Springfield, Mass., Dr. Helen C. Putnam of Providence, R. I., Andrew W. Edson, associate city superintendent of schools of New York city, Dr. E. B. McCready of Pittsburgh, Prof. Percy Hughes of Lehigh university, Dr. T. D. Wood of Columbia university and others. The proceedings will contain papers by Dr. Dudley A. Sargent of Harvard and Dr. E. W. Goodenough of Waterbury, Conn.

LEHIGH VALLEY

REVIEW

Allentown, March 23, 1912

TESTS IN 800,000 POUND TESTING MACHINE AT LEHIGH UNIVERSITY.

In the presence of a score of prominent cement, steel and railroad company engineers of Eastern Pennsylvania, the Civil Engineering Department of Lehigh University this week tested a large column of the kind used in factories, printing establishments and other buildings where great weight is supported. The test was held in Fritz Engineering Laboratory, where the column was placed in the 800,000 pound testing machine of Lehigh, the largest of its type in the world. It was crushed under a load of 208 tons. This is the first of a series of nine tests, the results of which will be published by Prof. Frank P. McKibben, head of the department. Among other work done by means of the machine in Fritz Laboratory was the determining, for the city of Scranton, of the strength of pillars of coal and stone, similar to those in mines under the city.

Bethlehem Bach Festivals Revived.

After an interim of seven years, Bach festivals will be resumed in Bethlehem, Pa., next spring, under the direction of J. Fred Wolle, the eminent conductor and organist, who resigned his position as head of the department of music at the University of California to take up again the work in his native city. It is reported that Dr. Wolle was influenced toward this step by the suggestion and encouragement of Charles M. Schwab, president of the Bethlehem Steel Company, and an ardent lover of music, whose patronage has brought to Bethlehem for the Lehigh Valley Symphony Orchestra concerts Schumann-Heink, Alda, Bonci and other artists. The Bach Choir executive committee last week announced that Mr. Schwab offers to guarantee one-half of the expenses of the coming festival, which it is estimated will total \$5,000.

Dr. Wolle has selected the Mass in B minor for rendition in Packer Memorial Church, Lehigh University, on Friday, May 31, and Saturday, June 1, when there will be two sessions daily. The Mass is now being rehearsed by a chorus of 150 voices, comprising many veteran singers of the Bach festivals of 1900, 1901, 1903 and 1905. There is excellent young material, too, in accessions from the Oratorio Society of the Bethlehems, of which T. Edgar Shields was conductor. Displaying admirable spirit, this organization, which had six successful seasons, merged its identity in that of the new Bach Choir.

The resumption of the festivals has aroused enthusiasm and energetic support of the Bethlehem citizens, who take pride in this movement.

Present plans look to the formation of auxiliary branches of the Bach Choir in New York, Philadelphia, Baltimore, Washington, Pittsburgh, Cincinnati, Chicago, Buffalo, Boston and other cities. Liberal responses have been received from music lovers in these cities who have expressed willingness to become guarantors of the choir. For the approaching festival \$1,500 have already been guaranteed, exclusive of Mr. Schwab's offer. ||

were received by the director, Dr. J. Fred Wolle, and other officers of the choir, as also requests for ticket reservations. With continuation of the interest that has been manifested the past month both as to rendition and patronage, the two-day festival, May 31, June 1, will be an assured success.

THE BETHLEHEM TIMES-

TUESDAY, FEBRUARY 6, 1912.

SNAP SHOTS.

The recent number of the Musical Courier had the following article on the revival of the Bach Choir and the coming Spring festival: "After an interim of seven years, Bach festivals will be resumed in Bethlehem, Pa., next Spring, under the direction of J. Fred Wolle, the eminent conductor and organist, who resigned his position as head of the department of music at the University of California to take up again the work in his native city. It is reported that Dr. Wolle was influenced toward this step by the suggestion and encouragement of Charles M. Schwab, President of the Bethlehem Steel Company, and an ardent lover of music, whose patronage has brought to Bethlehem for the Lehigh Valley Symphony Orchestra concerts Schumann-Heink, Alda, Bonci and other artists. The Bach Choir Executive Committee last week announced that Mr. Schwab offers to guarantee one-half of the expenses of the coming festival, which it is estimated will total \$5000. Dr. Wolle has selected the Mass in B minor for rendition in Packer Memorial Church, Lehigh University, on Friday, May 31, and Saturday, June 1, when there will be two sessions daily. The Mass is now being rehearsed by a chorus of 150 voices, comprising many veteran singers of the Bach festivals of 1900, 1901, 1903 and 1905. There is excellent young material, too, in accessions from the Oratorio Society of the Bethlehems, of which T. Edgar Shields was conductor. Displaying admirable spirit, this organization, which had six successful seasons, merged its identity in that of the new Bach Choir. The resumption of the festivals aroused enthusiasm and energetic support of the Bethlehem citizens, who take pride in this movement. Liberal responses have been received from music lovers in these cities who have expressed willingness to become guarantors of the choir. For the approaching festival \$1500 have already been guaranteed, exclusive of Mr. Schwab's offer."

Rehearsal Last Evening.

The singers of the Bach Choir gathered last evening in the Moravian Seminary Chapel for the weekly rehearsal of the "Mass in B Minor." It was an excellent one. About twenty new names were added to the roll of membership and about 160 vocalists were present at the rehearsal. It is intended to seat the singers on the main chapel floor instead of on the platform, as that place was thoroughly filled last evening. Numerous requests for information concerning the future recital of the work in hand

SCHWAB GUARANTEES HALF BACH CHOIR EXPENSE

The estimated expenditures for the Bach festival to be held next Spring, at Bethlehem, will amount to \$5000. Charles M. Schwab, president of the Bethlehem Steel Company, who has manifested a great interest in the Bach choir since its reorganization last fall, yesterday generously made an offer to Dr. J. Fred Wolle, conductor of the musical organization, to guarantee one-half of the expenses, or \$2500, on condition that the association secures the other one-half. Dr. Wolle yesterday reported Mr. Schwab's offer to the board of directors of the association, who authorized the foregoing announcement. In addition the board made public that it had received thus far a guarantee of between \$1400 and \$1500 from Bethlehem, Philadelphia, Buffalo and other places towards the support of the festival. This announcement will undoubtedly be enthusiastically received by the members and friends of the Bach Choir.

The Bach Festival.

Public Ledger.

It is announced that at Bethlehem, Pa., this spring the Bach festivals that have brought musical distinction to the community in past years are to be resumed. The festivals of 1900, 1901, 1903 and 1905 are still remembered not merely by the active participants, but by pilgrims who came from near and far to hear the masterpieces of choral music sung effectively. With the departure of Doctor Wolle, the prime mover, whose earnest enthusiasm was the mainspring of a miniature Oberammergau, the Old Moravian church no longer resounded with the thrilling strains of the B minor Mass and the choir of trombones in the belfry at daybreak. Doctor Wolle has now returned from his field of useful activity on the Pacific slope, and with the encouragement of Charles M. Schwab and others the festivals are to be resumed. If one thinks of these affairs merely as a sequence of religious concerts, he does not comprehend their motivation. They mean to the daily life of Pennsylvania cities a continuing inspiration. As in the Tyrolean village where the Passion Play is held, so in the Bethlehems the stated rehearsals of chorus and orchestra for long periods are a social influence whose effect in enforcing the communal spirit it is impossible to overestimate. The participants are drawn from all classes of society—from university circles and the rolling mills—and the artificial barriers and imaginary distinctions of caste disappear in the prosecution of a common object, which is to sing the august masterpieces of the great patriarch of music as well as they can be sung. No visitor to Bethlehem at Christmas-tide or Easter during the progress of one of these festivals can have failed to find in the very atmosphere the peculiar reverential sense of choral music not as an accomplishment, but as a mode of worship. This sense as of "moving in worlds not realized" permeates house and home, and is not confined to the hallowed precincts of the meeting-house. It goes with the worker to his daily toil, and cheers the night watches of the invalid; it proves that here in Pennsylvania, as well as in distant Germany, music and life may travel hand-in-hand upon the pilgrim's way.

MUSIC NOTES.

Andrew Dippel, the general manager of the Chicago-Philadelphia Company, which will present "Carmen" at the Metropolitan Opera House on Tuesday evening, was in town yesterday. He announced that Massenet's "Cendrillon" would be presented at the second Tuesday visit of the company, and Wolf-Ferrari's "I Gioielli della Madonna" at the third.

Mrs. Homer and Pasquale Amato will take part in the performance of "Tristan und Isolde" to be sung in Boston on Monday evening under the direction of Felix Weingartner.

Charles M. Schwab, President of the Bethlehem Steel Company, has guaranteed half the expenses of this year's beach festival in Bethlehem, giving \$2,500. Bach's B minor mass will be sung by the choir on May 31 and June 1, under the direction of Dr. J. Fred Wolle.

Bach Festivals to be Resumed in Bethlehems.

After an interim of seven years, Bach festivals will be resumed at Bethlehem, next spring, under the direction of Dr. J. Fred Wolle, the eminent conductor and organist, who resigned as head of the Department of Music at the University of California to take up this work in his native town. It is reported that Dr. Wolle was influenced to take this step by the suggestions and encouragement of Charles M. Schwab, President of the Bethlehem steel company, a lover of music, whose patronage has brought to the Bethlehems for Lehigh Valley Symphony concerts Madame Schumann-Heink, Madame Azda, Bonci and other artists. The Bach choir executive committee has announced that Mr. Schwab will guarantee one-half of the expenses of the coming festival which it is estimated will total \$5,000.

Dr. Wolle has selected for the festival to be held in Packer Memorial church, Lehigh university, on May 31 and June 1, the Mass in B Minor. It is being rehearsed by a chorus of 150 voices, comprising many of the veterans of the Bach festivals of 1900, 1901, 1903 and 1905. There is excellent young material from the Oratorio society of the Bethlehems, of which T. Edgar Shields was conductor. This organization, displaying an admirable spirit, merged its identity in that of the new Bach choir.

The resumption of the festivals has aroused enthusiasm in the Bethlehems, whose citizens take civic pride in this movement.

Present plans look forward to the formation of auxiliary branches of the Bach choir in New York, Philadelphia, Baltimore, Washington, Pittsburgh, Cincinnati, Chicago, Buffalo, Boston and other cities. Liberal responses have been received from music lovers in these cities who have expressed willingness to become guarantors of the choir. For the approaching festival, \$1,500 has already been guaranteed, exclusive of Mr. Schwab's offer of \$2,500.

The Express has received the following from the Bach Choir headquarters in Bethlehem, Pa.:

Charles M. Schwab, whose musical interest has been shown in his Bethlehem Steel Company Band and other local organizations, has assured the financial success of the 1912 Bach festival by guaranteeing \$2,500 or one-half of the estimated expenses of the festival. Under the leadership of Dr. J. Fred Wolle, the re-established Bach Choir of 150 voices will give the mass in B minor in Packer Memorial Church, Lehigh University, on May 31st and June 1st. Dr. Wolle has resigned as head of the department of music in the University of California to resume Bach festivals of the character of those successfully given in Bethlehem in 1900, 1901, 1903 and 1905. Auxiliary societies of the Bach Choir are being formed in New York, Philadelphia, Boston, Buffalo, Cincinnati, Washington, Baltimore, Pittsburgh and Chicago.

BACH FESTIVAL IN BETHLEHEM.

Formal announcement was made this week of the reestablishment of the Bach Choir, with headquarters in Bethlehem, Pa., and proposed auxiliary branches in nine large cities of the country. The first festival will be held on May 31, and June 1, in Packer Memorial Church, Lehigh University, when the Mass in B minor will be rendered under the direction of Dr. J. Fred Wolle of the Bach Festivals. Dr. Wolle resigned as head of the Music Department, in the University of California, to resume this work in his native city. The financial success of the 1912 festival has been assured by the offer of Charles M. Schwab, President of the Bethlehem Steel Co., to guarantee \$2500, or one-half of the estimated expenses of the festival. Of the remainder, \$1500 has been subscribed up to date, by music lovers of the Bethlehems, and other large cities where auxiliary branches are proposed—New York, Philadelphia, Boston, Buffalo, Cincinnati, Washington, Baltimore, Pittsburgh, and Chicago.

Bach's Mass is being rehearsed by a chorus of 150 singers of the Bethlehems, comprising many of the veterans of the Bach Festivals of 1900, 1901, 1903, and 1905. The former Oratorio Society of the Bethlehems, of which T. Edgar Shields was conductor, voluntarily merged with the new choir.

PROGRESS IN ARRANGING FOR 1912 BACH FESTIVAL

Meeting of Executive and Other Committees Saturday Afternoon.

Highly encouraging progress in arranging for the 1912 Bach festival was reported at a meeting of the executive and other committees of the Bach Choir, held on Saturday afternoon in the E. P. Wilbur Trust Company's building. Upon the financial side as well as from the standpoints of popular interest and rehearsal work, indications were declared to be most promising for a festival that will maintain the standard of and probably surpass the successful cycles of 1900, 1901, 1903 and 1905. The personnel of the several committees was definitely announced, and the respective chairmen determined upon active work at once so that all details may be completed, wherever possible, considerably in advance of the renditions in Packer Memorial Church, Lehigh University, May 31 and June 1 next.

It developed that the reorganization of the Bach Choir, under Dr. J. Fred. Wolle, has occasioned widespread interest throughout the country. Liberal announcements of the coming festival have appeared in newspapers of the character of the New York Evening Post, the Boston Evening Transcript, the Springfield (Mass.) Republican, in Buffalo, Washington and other papers. Surprisingly generous responses have been received from music lovers in New York, Philadelphia, Cincinnati, Washington and Buffalo, who will become guarantors to assist in assuring the financial security of the affair. As was commented on by members of the committees, the Bach festivals have been in the past and appear likely again to be one of the best advertisements this community could desire.

The local support of the project to re-establish the Bethlehems as the center of the Bach movement in America has been, it was reported, even heartier than was hoped. Interest among business men, industrial leaders and local citizens in general is on the increase. From the singers of the Bethlehems there has been a splendid response to the recent invitations to join the choir. At the last rehearsal, more than 140 singers were in attendance. As is invariably the experience of choral organizations, male voices are in the minority. The Committee on Membership extends to tenors and basses an especial invitation to report at the rehearsal tonight in the chapel of the Moravian Seminary and College for Women.

Chairman M. J. Shimer, of the Ticket Committee, announced that Packer Church will shortly be visited to ascertain what seating arrangements can be made. A second meeting will be held to confer with President H. S. Drinker, of Lehigh, who is also President of the Bach Choir, in regard to seating. Chairman Ray Walters, of the Publicity Committee, outlined plans for a vigorous campaign that will reach the principal newspapers and other journals of the country. Chairman T. Edgar Shields, of the Program Committee, stated briefly suggested work for this committee. There were discussions as to the work

THE BACH CHOIR

PREPARING FOR FESTIVAL

Encouraging Progress Being Made for Renditions in Packer Memorial Church.

Highly encouraging progress in arranging for the 1912 Bach Festival was reported at a meeting of the Executive and other committees of the Bach Choir, held on Saturday afternoon in the E. P. Wilbur Trust Co.'s building. Upon the financial side as well as from the standpoints of popular interest and rehearsal work, indications were declared to be most promising for a festival that will maintain the standard of and probably surpass the successful cycles of 1901, 1903 and 1905. The personnel of the several committees was definitely announced, and the respective chairmen determined upon active work at once so that all details may be completed, wherever possible, considerably in advance of the renditions in Packer

Memorial church, Lehigh University, next May 31 and June 1.

It developed that the re-organization of the Bach Choir under Dr. J. Fred. Wolle has occasioned wide spread interest throughout the country. Liberal announcements of the coming festival have appeared in newspapers of the character of the New York Evening Post, the Boston Evening Transcript, the Springfield (Mass.) Republican, in Buffalo, Washington and other papers. Surprisingly generous responses have been received from music lovers in New York, Philadelphia, Cincinnati, Washington and Buffalo who will become guarantors to assist in assuring the financial security of the affair. As was commented on by members of the com-

of the Entertainment and Accommodation Committees, of which Mrs. E. F. Gray is chairman, and of the Membership Committee, headed by Miss Gertrude Levering.

The committees, as announced on Saturday, are: Entertainment and Accommodation, Mrs. Gray, chairman; George R. Booth and Miss Pflueger; Ticket, M. J. Shimer, chairman; A. C. Huff, A. H. Gross, A. N. Cleaver and F. G. Hoch; Membership, Miss Levering, T. Edgar Shields, Miss Harriet Kitchell, R. V. K. Eberman, J. Samuel Wolle, Miss Florence Boone and Miss Martha Cassell; Press, Ray Walters, chairman; Prof. Barry MacNutt, E. M. Haas, R. V. K. Eberman, Miss Marie Hesse, Mrs. Geo. W. Halliwell, Mrs. R. R. Hillman and Miss Harriet Kitchell; Program, T. Edgar Shields, Prof. J. W. Richards and Dr. J. H. Clewell. The Executive Committee comprises Dr. H. S. Drinker, W. A. Wilbur, Dr. W. L. Estes, Rev. Dr. J. H. Clewell, T. E. Shields, M. J. Shimer, A. N. Cleaver, George R. Booth and Frank G. Hoch.

mittees, the Bach Festivals have been in the past and appear likely again to be one of the best advertisements this community could desire.

The local support of the project to re-establish the Bethlehems as the center of the Bach movement in America has been, it was reported, even heartier than was hoped. Interest among business men, industrial leaders and local citizens in general is on the increase. From the singers of the Bethlehems, there has been a splendid response to the recent invitations to join the Choir. At the last rehearsal, more than 140 singers were in attendance. As is invariably the experience of choral organizations, male voices are in the minority. The Committee on Membership extends to tenors and basses an especial invitation to report at the rehearsal tonight in the chapel of the Moravian Seminary and College for Women.

Chairman M. J. Shimer of the Ticket Committee announced that Packer church will shortly be visited to ascertain what seating arrangements can be made. A second meeting will be held to confer with President H. S. Drinker of Lehigh, who is also President of the Bach Choir, in regard to seating. Chairman Ray Walters of the Publicity Committee outlined plans for a vigorous campaign that will reach the principal newspapers and other journals of the country. Chairman T. Edgar Shields of the Program Committee stated briefly suggested work for this committee. There were discussions as to the work of the Entertainment and Accommodation Committee of which Mrs. E. F. Gray is chairman, and of the Membership Committee, headed by Miss Gertrude Levering.

The committees, as announced on Saturday, are: Entertainment and Accommodation, Mrs. Gray, chairman, George R. Booth, and Miss Pflueger; Ticket, M. J. Shimer, chairman, A. C. Huff, A. H. Gross, A. N. Cleaver and F. G. Hoch; Membership, Miss Levering, T. Edgar Shields, Miss Harriet Kitchell, R. V. K. Eberman, J. Samuel Wolle, Miss Florence Boone and Miss Martha Cassell; Press, Ray Walters, chairman, Prof. Barry MacNutt, E. M. Haas, R. V. K. Eberman, Miss Marie Hesse, Mrs. George W. Halliwell, Mrs. R. R. Hillman, and Miss Harriet Kitchell; Program, T. Edgar Shields, Prof. J. W. Richards and Dr. J. H. Clewell. The Executive Committee comprises Dr. H. S. Drinker, W. A. Wilbur, Dr. W. L. Estes, Rev. Dr. J. H. Clewell, T. E. Shields, M. J. Shimer, A. N. Cleaver, George R. Booth and Frank G. Hoch.

The Republican.

SPRINGFIELD, SUNDAY, FEB. 18, 1912.

Charles M. Schwab, whose interest has been shown in his Bethlehem steel company band and other local organizations, has assured the financial success of the 1912 Bach festival at Bethlehem, Pa., by guaranteeing \$2500, or one-half of the estimated expenses of the festival. Under the leadership of Dr. J. Fred Wolle, the re-established Bach choir of 150 voices will render the mass in B minor, in Packer Memorial church, Lehigh university, on May 31 and June 1. Dr. Wolle has resigned as head of the department of music in the university of California, to resume Bach festivals of the character of those successfully given in Bethlehem in 1900, 1901, 1903 and 1905. Auxiliary societies of the Bach choir are being formed in New York, Philadelphia, Boston, Buffalo, Cincinnati, Washington, Baltimore, Pittsburg and Chicago.

The Bethlehem Times.

MONDAY, MAY 6, 1912.

Mr. Douty to Sing at Bach Festival.

The host of local music lovers to whom the singing of Nicholas Douty gave pleasure at the four previous festivals of the Bach Choir will doubtless be interested to learn that Dr. J. Fred Wolle, conductor of the choir, has just completed arrangements with Mr. Douty for his appearance at the festival to be given in Packer Memorial Church, Lehigh University, on May 31 and June 1. Mr. Douty will be heard in the tenor solo parts on both days. Since his last work in Bethlehem, Mr. Douty has had continued success in Bach renditions, notably at Montclair, where Frank Taft conducted a Bach festival, and in Chicago, where the Apollo Club gave Bach's "Passion." Of his Montclair solos, the New York Herald said: "Mr. Douty carried off the honors, his singing being marked by distinction throughout," and the New York Sun: "Mr. Douty gave the one individual performance. He carried an arduous part with the lightness and spirit of a sanguine temperament." Writing in the Chicago Tribune, W. L. Hubbard said of Mr. Douty's Apollo Club work: "He delivered the recitative with excellent taste and with rare good understanding. He did not avoid the suggesting of the dramatic meaning that is contained in this greatest of all narratives, and yet at no time overstepped the bounds of oratorio proprieties." Prominent musical organizations with whom Mr. Douty has appeared as soloist include, beside those mentioned above, the New York Oratorio Society, the Philadelphia Choral Society, the Baltimore Oratorio Society, the Brooklyn Oratorio Society, the Pittsburgh Mozart Club, the New Haven Oratorio Society, Washington Choral Society, Buffalo Orpheus Club, the Philadelphia Mendelssohn Club and the Philadelphia Orchestra.

CHAS. M. SCHWAB BACKS DR. J. FRED WOLLE.

Music Lovers in New York, Philadelphia, Baltimore, Washington and Cincinnati Subscribe Toward Resumption of Bethlehem Bach Festivals.

The Pacific Coast Musical Review takes a great deal of satisfaction in giving publicity to the following special correspondence from Bethlehem, Pa., which will prove of great interest to all genuine music lovers on the Pacific Coast:

Bethlehem, Pa., Feb. 8, 1912.

Dr. J. Fred Wolle, who resigned as head of the Department of Music in the University of California to resume the Bach Festivals in Bethlehem, has announced that Charles M. Schwab, President of the Bethlehem Steel Co., guarantees \$2,500, or one-half of the estimated expenses of the Festival to be held here next spring. The remainder has been subscribed by music lovers in New York, Philadelphia, Baltimore, Washington, and Cincinnati. In these cities and also in Boston, Pittsburg, Buffalo and Chicago auxiliary societies of the Bach Choir are being formed. The movement is meeting success on all sides. Dr. Wolle's Bethlehem Choir of 150 voices will render the Mass in B Minor in Packer Memorial Church, Lehigh University on May 31 and June 1. There will be two sessions daily. The singers include many veterans of the original Bach Choir, which gave festivals in 1900, 1901, 1903 and 1905. The Oratorio Society of the Bethlehems, an organization of 100 voices under the direction of T. Edgar Shields, voluntarily merged its identity with that of the Bach Choir. Dr. Wolle conducted Bach Festivals in the Greek Theatre in Berkeley several years ago.

We shall have more to say about these great events in subsequent issues of this paper.

The Republican.

SPRINGFIELD, SUNDAY, MAY 5, 1912.

OF MUSIC AND MUSICIANS.

The Bach festival at Lehigh university, South Bethlehem, Pa., will take place on Friday, May 31, and Saturday, June 1. There will be two performances each day. The works to be given are the mass in B minor and several of the cantatas.

Bach Festivals to be Revived.
The Bethlehem Bach festivals, which were notable musical events some years ago, are to be revived. Soloists for the Bach festival to be held in Packer Memorial Church, Lehigh University, on May 31 and June 1 were announced this week by Dr. J. Fred. Wolle, conductor of the Bach Choir. They are: Soprano, Mrs. Mary Hissem deMoss; contralto, Mrs. Gertrude May Stein-Bailey; tenor, Nicholas Douty, and bass, Frank Croxton. The orchestral parts will be played by members of the Philadelphia Orchestra. Mrs. Bailey and Mr. Douty have sung at all six of the previous festivals in Bethlehem; Mrs. deMoss appeared at the last four. During the past winter the Bach Choir of 200 voices has been working hard under the direction of Dr. Wolle.

BACH FESTIVAL MUSICAL EVENT

Many Local Lovers of Music Looking Forward to Excellent Program

The Bach festival, in Packer Memorial church, Lehigh University, South Bethlehem, Pa., is one of the next important musical events in this section. On Friday, May 31st and Saturday, June 1st. Two sessions daily. The program and plans follow:

Friday, 4.00 p. m. and 8.00 p. m.—Cantatas.

Saturday, 2.00 p. m. and 5.00 p. m.—Mass in B. minor.

There will be ample time, after the second session on Saturday, to take trains to all points east and west.

200 voices, soloists, orchestra and organ. Dr. J. Fred. Wolle, conductor.

Program books will be issued containing the full text of each vocal work, names of members of the choir, etc. These books will be on sale at the A. C. Huff Music Store and at the church. No other program will be issued. As in former festivals, the audience is requested to rise and sing the chorales, supported by the chorus, orchestra and organ.

The sale of single tickets opens Thursday, May 23rd. Address A. C. Huff Music Store, 57 South Main street, Bethlehem, Pa. Tickets will be on sale at the church after 9.00 a. m. on both days of the festival.

The choir is determined to make its resumption on festival work a performance equal to the standards of its earlier renditions.

SUNDAY.....MAY 12, 1912

Matters Musical.

Soloists for the Bach Festival to be held in Packer Memorial Church, Lehigh University, on May 31 and June 1, were announced last week by Dr. J. Fred Wolle, conductor of the Bach Choir. They are: Soprano, Mrs. Mary Hissem DeMoss; contralto, Mrs. Gertrude May Stein-Balley; tenor, Nicholas Douty, and bass, Frank Croxton. The orchestral parts will be played by members of the Philadelphia Orchestra.

NEWARK EVENING NEWS,

SATURDAY, MAY 11, 1912.

Bethlehem's Bach Festival.

After an interval of several years, the giving of Bach festivals in Bethlehem, Pa., will be resumed this spring. Under the direction of Dr. J. Fred Wolle, who conducted the former festivals, and whose professional engagements in California resulted in the discontinuance of them, a choir of 200 singers has been working hard since last fall in preparing for public performance the works to be heard at the coming festival. One of the compositions entering into the program is the great Mass in B minor, which was sung by Montclair's Bach choir four years ago, and profoundly impressed all who heard it.

The festival will be held in the Packer Memorial Church, Lehigh University, Fri-

day and Saturday, May 31 and June 1. The soloists will be Mrs. Mary Hissem de Moss, soprano; Mrs. Gertrude May Stein-Bailey, contralto; Nicholas Douty, tenor, and Frank Croxton, bass. The orchestral parts will be played by members of the Philadelphia Orchestra.

A Concert in Montclair.

Mrs. Beatrice Bowman-Flint, soprano, assisted by Miss Marie Hoskins Bishop, violinist, and Hans Hanke, pianist, will give a concert in the hall of the Montclair Club Monday night, May 20. Mrs. Flint, who was a member of the Montreal Grand Opera Company during the past season, will sing the aria "Ah! fors e lui," from Verdi's "La Traviata," and several songs. Miss Bishop will play Drdla's "Souvenir," Paganini's Etude No. 13, Spross's "Romance," Novacek's "Perpetuum Mobile," Prochaska's "Romance," Handel's Minuet and a Chopin nocturne. Mr. Hanke's contributions to the program will be Liszt's Hungarian Rhapsody No. 2 and several of Chopin's compositions.

THE EVENING POST: NEW YORK,

SATURDAY, MAY 11, 1912.

MUSICAL NEWS AND GOSSIP

Soloists for the Bach Festival, to be held in Packer Memorial Church, Lehigh University, on May 31 and June 1, are announced by Dr. J. Fred Wolle, conductor of the Bach Choir, as follows: Soprano, Mrs. Mary Hissem de Moss; contralto, Mrs. Gertrude May Stein-Bailey; tenor, Nicholas Douty, and bass, Frank Croxton. The orchestral parts will be played by members of the Philadelphia Orchestra. Mrs. Bailey and Mr. Douty have sung at all six of the previous festivals in Bethlehem; Mrs. de Moss appeared at the last four. Mr. Croxton is a bass who was soloist on recent tours of the Pittsburgh Festival Orchestra and the Victor Herbert Orchestra. During the past winter the Bach Choir of 200 voices has been working hard under the direction of Dr. Wolle, and during the present month rehearsals on the difficult choruses of the Mass in B Minor are frequent, indeed.

THE INDIANAPOLIS NEWS,

SATURDAY, MAY 11, 1912

MUSIC NOTES.

Mrs. Gertrude May Stein-Bailey, contralto, who sang at the Indianapolis May festivals and later married Leon O. Bailey, a lawyer of this city, now of New York, is to be one of the soloists at the Bach festival at Bethlehem, Pa., May 31 and June 1. The festival is under the direction of J. Fred Woole, conductor of the Bach choir, who was heard in this city in an organ recital a few years ago. In addition to these soloists will be Frank Croxton, of New York, formerly of this city; Mrs. Mary Hissem-DeMoss and Nicholas Douty. Mrs. Bailey and Mr. Douty have sung at all the six concerts of the previous festivals, and Mrs. DeMoss at the last four. The choir numbers two hundred voices and its most difficult number, the Mass in B minor, is receiving unusual study in numerous rehearsals.

Democrat Chronicle.

A superior advertising medium because of its well balanced and thorough distribution.

LEHIGH UNIVERSITY.

In the presence of a score of prominent cement, steel and railroad company engineers of Eastern Pennsylvania, the Civil Engineering Department of Lehigh University this week tested a large concrete column of the kind used in factories, printing establishments and other buildings where great weight is supported. The test was held in Fritz Engineering Laboratory, where the column was placed in the 800,000 pound testing machine of Lehigh, the largest of its type in the world. It was crushed under a load of 208 tons. This is the first of a series of nine tests, the results of which will be published by the Civil Department. Among other work that has been done by means of the machine in Fritz Laboratory was the determining, for the city of Scranton, of the strength of pillars of coal and stone, similar to those in mines under the city.

Whether Lehigh field will be in a condition to permit the playing of the first game of the base ball season next Wednesday, is a question. The schedule calls for a contest with Lebanon Valley College. During the recent wintry weather, the Brown and White ball tossers have been alternating with the lacrosse candidates in the use of the cage. This huge building makes possible throwing and batting practice.

Prof. Frank P. McKibben of the Civil Engineering Department of Lehigh this week visited Muhlenberg College, Allentown High School and Catasauqua High School.

Lehigh's 1911-12 Register, just published, shows that, despite an increase in tuition, the enrollment is practically as large as last year. In the regular courses 639 students are registered, which, with 41 in the teachers' courses, brings the total up to 681.

LEHIGH UNIVERSITY NOTES.

South Bethlehem, March 26.—Using the same giant machine in which mine pillars were tested for Scranton a year or more ago, the civil engineering department of Lehigh University last week conducted a test of a large concrete column of the kind used in factories, printing establishments and other buildings where weight is supported. A score of prominent cement, steel and railroad engineers of Eastern Pennsylvania witnessed the crushing, which took place in the Fritz Engineering Laboratory. The column was crushed under a load of 208 tons. This is the first of a series of nine tests, the results of which will be published by Prof. Frank P. McKibben, head of the department. The Lehigh testing machine is the largest of its type in the world, having a capacity of more than 800,000 pounds. It was used in determining, for the city of Scranton, the strength of pillars of coal and stone, similar to those in mines under the city.

Prof. McKibben visited the East Pittston High school last week.

MOUNT CARMEL, PA.,

A TOWN BOY

The list of thesis subjects of seniors in the civil engineering department of Lehigh University, as announced this week, contains an interesting study by W. H. Lazarus, of Mount Carmel. Mr. Lazarus is preparing a design for a reinforced concrete arch highway bridge. The Lehigh register, which has been published, shows the university's enrollment to be nearly 650 students. There has been a marked increase in the business administration course of the arts and science department. The year has been a favorable one in all respects.

LEHIGH UNIVERSITY

Important Testing Work by Civil Engineering Department

In the presence of a score of prominent cement, steel and railroad company engineers of eastern Pennsylvania, the civil engineering department of Lehigh University last week tested a large concrete column of the kind used in factories, printing establishments and other buildings where great weight is supported. The test was held in Fritz Engineering Laboratory, where the column was placed in the 800,000 pound testing machine of Lehigh, the largest of its type in the world. It was crushed under a load of 208 tons. This is the first of a series of nine tests, the results of which will be published by Professor Frank P. McKibben, head of the department and a graduate of Massachusetts Institute of Technology. Among other work done by means of the machine in Fritz Laboratory was the determining, for

the city of Scranton, of the strength of pillars of coal and stone, similar to those in mines under the city.

LEHIGH UNIVERSITY.

Column Test in Fritz Laboratory—Enrollment Figures.

A score of prominent railroad, steel and cement company engineers of Eastern Pennsylvania this week saw the testing of a large concrete column in the Fritz Engineering laboratory of Lehigh university, the column being of the type used in factories, printing establishments and other buildings where great weight is supported. Placed in the 300,000 pound testing machine of Lehigh, the largest of its kind in the world, the column was crushed under a load of 208 tons. This is one of a series of nine tests, the results of which will be published by the department of civil engineering. Among other work done by means of this machine was the determining, for the city of Scranton, of the strength of pillars of coal and stone, similar to those in mines under the city.

Prof. W. S. Franklin (physics) lectured before the High school students of Olean, N. Y., this week. Prof. F. P. McKibben (civil engineering) gave addresses on "Technical Education" in Wilkes-Barre, Scranton and East Pittston Wednesday, Thursday and Friday.

"Lehigh's 1911-12 Register," just published, shows that, despite an increase in tuition, the enrollment is practically as large as last year. In the regular courses 639 students are registered, which, with forty-one in the teachers' courses, brings the total up to 681. The number of civil engineering students is thirteen less than last year, a falling off in this line similar to that reported at most Eastern institutions. The mechanical and electrical engineering departments have substantially the same enrollment. A gain of eighteen students is noted in the Arts and Science department, in which the new course in business has proved popular.

Lehigh's first base ball game, a contest with Lebanon Valley college, is scheduled for Wednesday. Whether Lehigh field will be in a condition to permit play is a question. During the recent wintry weather, the "Brown and White" ball tossers have been alternating with the lacrosse candidates in the use of the cage.

THE ALLENTOWN MORNING CALL,

MONDAY, APRIL 1, 1912.

WESTERN LEHIGH ALUMNI TO MEET AT SALT LAKE CITY.

Another meeting of the Inter-mountain Lehigh Club, the organization of Lehigh University men living in the states of Utah, Idaho, Wyoming, Montana, Colorado, Arizona and New Mexico, is scheduled for the middle of April. Salt Lake City, Utah, is the point at which they will gather.

A permanent organization was effected at the March 1 meeting, held at the University club, Salt Lake City, when the temporary officers were made permanent. Dr. James E. Talmaze, the well known writer on Mormonism and a famous Geologist, is its president. In attendance at this meeting were Dr. James E. Talmaze, '91, James C. Dick, '95, M. L. Hanauer, '86, E. G. Rodgers, '10, M. H. Fehnel, '87, James P. Martin, '00, Howard L. Baldwin, '07, Joseph H. Siegel, '96, J. L. Melzell, '00, and James H. Wolfe, '05. Twenty-five letters of regret were received. Dr. Brinker wrote the club a very fine letter with a promise to visit them at some early date.

An executive committee of Messrs. Hanauer, Dick and Siegel was appointed to attend to arrangements for future meetings, to be held monthly.

Any Lehigh men visiting Salt Lake will be taken care of, once his presence there is known. The secretary will advise the different members of the presence of any Lehigh visitors to Salt Lake and arrange for meetings.

Cyphers fought Labor's battle in 1910 at South Bethlehem.

Shall he fight them at Washington in 1913 and 1914 the Next Congress? The voter must decide. 28-4t.

Lehigh University.

Lehigh will play Princeton, Cornell and Columbia Universities on April 10, 13 and 26, respectively.

"The Brown and White," the students' newspaper, this week published interesting figures as to earnings of Lehigh Mechanical Engineering graduates immediately upon leaving college. This followed editorial comment upon a reported speech of the president of Princeton upon initial wages of college graduates. Beginning with 1901, all Lehigh Mechanicals graduating in June have secured positions before graduation. The average monthly wage at the start was as follows: 1911, \$76.20; 1910, \$75.40; 1909, \$72.90; 1908, \$66.64; 1907, \$73; 1906, \$69.33; 1905, \$67; 1904, \$57; 1903, \$65; 1902, \$60; 1901, \$55.

The Lehigh University Chemical Society has passed resolutions expressing to H. S. Miner, '88, chief chemist of the Welsbach Light Co., appreciation of the gift of a portrait of the late Waldron Shapleigh. The portrait has been placed in the Shapleigh Library of the Lehigh Chemical Laboratory.

CIVIL ENGINEERING DEPARTMENT INVESTIGATES.

The list of thesis subjects of Seniors in the Civil Engineering Department of Lehigh University, South Bethlehem, Pa., as announced this week, includes an unusually interesting series of experiments in which Herbert L. Cooper of Chicopee is taking part. These experiments, carried on in the hydraulic laboratory given to Lehigh by the veteran ironmaster, John Fritz, aim to determine the accuracy of various kinds of water meters. It is not unusual for cities without meters to consume and waste as much as 100 gallons of water a day for every man, woman and child. Where people pay for the water as determined by meters, the consumption is not over 70 or 75 gallons for each person. The Lehigh students are also testing water wheels and turbines, which are now increasingly used to develop water power, particularly on the Pacific Coast.

TITUSVILLE BOY IS A SENIOR AT LEHIGH

Special to the Herald.

SOUTH BETHLEHEM, Pa., March 22.—The list of thesis subjects of seniors in the civil engineering department of Lehigh university, as announced this week, includes an unusually interesting series of tests in which Horace D. Kerr of Titusville is taking part. These tests, carried on in the John Printz engineering laboratory, aim to determine the carrying capacity of nine concrete columns, each ten feet long and fourteen inches in diameter, of the type used in office buildings, printing establishments, factories and wherever great weight is to be carried. To crush these columns, a pressure of from 300,000 to 780,000 pounds is applied by means of the 800,000 pound testing machine of Lehigh, the largest machine of its type in the world.

Well known railroad, steel and cement engineers of eastern Pennsylvania witnesses one of the tests conducted by the students this week. One of the columns broke suddenly when the load reached 205 tons and Luther Snyder, a senior who had just read an instrument at the foot of the column, narrowly escaped being struck by a large falling piece of concrete.

Hazleton Students at "Lehigh."

South Bethlehem, March 21, 1912.
The list of thesis subjects of Seniors in the Civil Engineering Department of Lehigh University, as announced this week, include studies by two Hazleton students, Frank S. Lubrecht and Harry M. Benjamin. Mr. Lubrecht will present a "Study of Methods of Surfacing Highways." Mr. Benjamin, with four other Seniors, is making experiments to determine the accuracy of various kinds of water meters.

These experiments, carried on in the hydraulic laboratory given to Lehigh by John Fritz, show that, as a rule, water meters are quite reliable. It is not unusual for cities without meters to consume and waste as much as 100 gallons of water a day for every man, woman and child. Where people pay for the water as determined by meters, the consumption is not over 70 or 75 gallons for each person. The Lehigh students are also testing water wheels and turbines, which are now increasingly used to develop water power, particularly along the Pacific Coast.

THE SUNDAY CALL

LEHIGH UNIVERSITY.

Initial Wage of College Graduates—Portrait Presented—Baseball.

Following editorial comment upon a reported speech of President Hibben, of Princeton, upon initial wages of college graduates, the "Brown and White," the students' newspaper of Lehigh University, in the latest issue gives figures furnished by the Mechanical Engineering department of Lehigh. Beginning with 1901, all mechanicals graduating in June have been placed before graduation. The average monthly wage at the start was as follows: 1911, \$76.20; 1910, \$75.40; 1909, \$72.90; 1908, \$66.64; 1907, \$73; 1906, \$69.33; 1905, \$67; 1904, \$57; 1903, \$65; 1902, \$60; 1901, \$55.

The Lehigh University Chemical society has passed a resolution expressing to H. S. Miner, '88, chief chemist of the Welsbach Light Co., appreciation of the gift of a portrait of the late Waldron Shapleigh. The portrait has been placed in the Shapleigh library in the Lehigh chemical laboratory.

The Lehigh club of Greater New York at a meeting at the Manufacturers' club on Thursday discussed several questions that are receiving general alumni attention.

Lehigh's 5 to 0 baseball victory over Lebanon Valley college on Wednesday pleased the Brown and White student body, especially as Little, the visiting twirler, won quite a reputation on a seashore nine last summer. With adequate support from his team-mates the result would have been very close. Pazzeti, the football quarterback and captain for next season, was seen on the mound for Lehigh for the first time. His work was promising. Just how the team will act when stronger opponents are faced can only be surmised. Lehigh has an unusually hard schedule, playing Villa Nova two games, Princeton, Columbia University, Cornell and East Ends of Bethlehem in the next month.

One hundred and twenty-five members of the Freshman class held their first annual banquet at the Eagle hotel, Bethlehem, on Thursday evening. President H. A. Crichton was toastmaster. Speeches were made by President H. S. Drinker, Professor H. R. Reiter, of the physical education department, R. W. Walters, of the English department, President Edward, of the Senior class, President Dugan, of the Junior class, and President Bailey, of the Sophomore class, and others.

At a meeting of the "Brown and White" board on Wednesday afternoon in Drown hall, the following officers were elected for the ensuing year: Editor-in-Chief, A. B. Gorman, '13; Assistant Editors, T. W. Downs, '14, and L. T. E. Sindel, '14; Business Manager, H. L. Rooney, '13, and Assistant Business Manager, R. A. Laddlein, '14.

LEHIGH UNIVERSITY

Some Statistics to Show That Engineering Graduates Receive More Than \$6.00 a Week

After quoting from a reported speech of President Hibben of Princeton upon initial wages of college graduates, the Brown and White, the students' newspaper of Lehigh University, in its last issue gave figures furnished by the Mechanical Engineering Department of Lehigh. Beginning with 1901, all mechanical seniors graduating in June have been placed in positions before graduation. The average monthly wage at which they began work after leaving college was as follows: 1911, \$76.20; 1910, \$75.40; 1909, \$72.90; 1908, \$66.64; 1907, \$73; 1906, \$69.33; 1905, \$67; 1904, \$57; 1903, \$65; 1902, \$60; 1901, \$55.

The Lehigh University Chemical Society has passed a resolution expressing to H. S. Miner, '88, chief chemist of the Welsbach Light Company, appreciation of a portrait of the late Waldron Shapleigh. The portrait has been hung in the Shapleigh Library in the Lehigh chemical laboratory.

LEHIGH UNIVERSITY

CONSERVATION OF CHILDREN

Prominent Educator and Physicians to Attend Conference in Drown Memorial Hall.

Prominent educators and physicians from all parts of the East and Middle West will arrive here tomorrow to attend a conference on "Conservation of School Children" in Drown Memorial Hall, Lehigh University, Wednesday and Thursday, under the auspices of the American Academy of Medicine. This conference is one of National importance and promises to be of unusual interest and value.

Lehigh University will act as host to the visiting members of the Academy, and it is planned to make their stay here as pleasurable as possible.

The attendance of citizens of the Bethlehem in general, and those in particular, who are interested in educational matters, will be welcome.

The program tomorrow will be as follows:

First session—"Deficient and Backward Children."

Wednesday, April 3, 2 p. m.

Presiding officer, Alexander Richter Craig, A.M., M.D., Chicago, President of the American Academy of Medicine. Committee on Program: G. Hudson-Makuen, A.M., M.D., and Walter S. Cornell, B.S., M.D., Philadelphia, and E. R. Johnstone, Vineland, N. J.

1. Greetings and response.

2. "Remediable Conditions in the Feeble-minded and Backward." Walter Stewart Cornell, B.S., M.D., Philadelphia, Lecturer on Child Hygiene, University of Pennsylvania. Discussion: To be opened by Maximilian P. E. Groszmann, Ph.D., Plainfield, N. J., Educational Director of the National Association for the Study and Education of Exceptional Children; H. M. Carey, M.D., Spring City, Superintendent Eastern Pennsylvania Institution for the Feeble-Minded and Epileptic.

3. "Sterilization and Segregation." (a) Henry H. Goddard, Ph.D., Vineland, N. J., Director of Research in the Vineland Training School for Backward and Feeble-Minded Children. (b) H. C. Sharp, M.D., Indianapolis, Ind. Trustee Indian Reformatory Jeffersonville. Discussion: To be opened by Alexander Marcy, Jr., M.D., Riverton, N. J.

4. "How to Secure State Appropriations for the Proper Care of the Feeble-Minded." Joseph S. Neff, M.D., Philadelphia, Director of Public Health and Charities. Discussion: To be opened by E. R. Johnstone, Vineland, N. J., Superintendent of the Training School for Backward and Feeble-Minded Children.

5. "How Far Shall the Public School System Care for the Feeble-minded?" (a) Andrew W. Edson, New York City, Associate City Superintendent of Schools of the City of New York. (b) J. H. Van Sickle, Springfield, Mass., Superintendent of Schools. (c) E. Rosworth McCready,

LEHIGH UNIVERSITY NOTES

Interesting Experiments Being Made
By Simon C. Peters, of Town

South Bethlehem, Pa., March 22—(Special)—The list of thesis subjects of Seniors in the Civil Engineering Department of Lehigh University, as announced this week, include an interesting experiment in which Simon C. Peters, of Middletown, is taking part. I. A. St. John and Mr. Peters, working in the new Fritz Engineering Laboratory are making an experimental determination of the sliding friction of concrete, as applied to dam construction. Records are taken of the weight required to move a block of concrete, sliding on a surface of the same material.

The Lehigh Register, just published, shows the University's enrollment to be nearly 650 students. There has been a marked increase in the business administration course in the Arts and Science Department. The year has been a favorable one in all respects.

M.D. Pittsburgh, Medical Director, Hospital School for Backward Children. Discussion: To be opened by Wm. C. Schauffer, A.B., M.D., Lakewood, N. J., President of the State Board of Education of New Jersey.

Second Session—"Conservation of School Children."

Wednesday, April 3, 7.30 p. m.

Presiding officer, Henry S. Drinker, LL.D., President Lehigh University. Address by Owen H. Lovejoy, Secretary of the National Child Labor Committee.

On Thursday the subjects will be "Teaching Hygiene" and "Medical Inspection." Health Commr. Samuel G. Dixon will preside at the afternoon session on Thursday.

NOTES OF DOINGS AT LEHIGH UNIV.

Cement Pillar Test is Made Before Gathering of Prominent Engineers.

South Bethlehem, March 25.—Using the same giant machine in which mine pillars were tested for Scranton a year or more ago, the Civil Engineering Department of Lehigh University last week conducted a test of a large concrete column of the kind used in factories, printing establishments and other buildings where great weight is supported. A score of prominent cement, steel and railroad engineers of Eastern Pennsylvania witnessed the crushing, which took place in the Fritz Engineering Laboratory. The column was crushed under a load of 208 tons. This is the first of a series of nine tests, the results of which will be published by Prof. Frank P. McKibben, head of the department. The Lehigh testing machine is the largest of its type in the world, having a capacity of more than 800,000 pounds. It was used in determining, for the city of Scranton, the strength of pillars of coal and stone, similar to those in mines under the city.

Henry H. Otto, of Wilkes-Barre, a senior at Lehigh, gave a talk on the economic situation in the anthracite regions at a meeting of the Mining Society of Lehigh last Friday.

Prof. F. P. McKibben of Lehigh's Department of Civil Engineering spoke on "Engineering Education" before the students of the Wilkes-Barre High School last Tuesday. He also visited the Harry Hillman Academy and the Plymouth High School.

It was used in determining, for the city of Scranton, the strength of pillars of coal and stone, similar to those in mines under the city.

The lists of theses by Lehigh seniors, to be presented for graduation in June, include studies by Merle I. Terwilliger, of Scranton, in Electrometallurgy; Charles T. Von Konecny, of Scranton, in Chemical Engineering, and Ralph B. Williams, of Scranton, in mining engineering.

Prof. E. P. McKibben, of Lehigh's department of civil engineering, gave a talk on "Engineering Education" before the Central High school and visited the Technical High school in Scranton and the Dunmore High school last week.

PHYSICIANS AND TEACHERS STUDY CONSERVATION OF CHILDREN

Series of Splendid Papers Dealing With Advanced
Thought Presented at the Conference

The Conference on Conservation of School Children, held at Drown Hall, Lehigh University, South Bethlehem, under the auspices of the American Academy of Medicine, closed yesterday with the completion of the afternoon program. In every respect the sessions were fully up to the expectations of the committee in charge and a widespread interest was shown in the study of advanced methods of dealing with children.

Attendance at the sessions of the conference was marked by the presence of a large number of educators engaged in the institutions in the various cities and towns of the Lehigh Valley, giving proof of the interest of those into whose care the children are placed during school hours in the welfare of their charges and a desire to meet the present day problem with present day methods.

F. D. Raub, superintendent of the schools of this city, participated in the discussion yesterday morning of a reading by Percy Hughes, A. M., Ph. D., Professor of Philosophy at Lehigh, on "What Shall Be Taught," from the teacher's point of view.

Among the Allentownians who attended the sessions were: Judge F. M. Trexler, Prof. F. D. Raub, Dr. F. S. Boyer, Dr. Thomas H. Weaver, Miss Allen, primary supervisor; Miss Nonnemacher, principal of the Second Ward school; Miss Lillie Roth, Miss Charlotte Schmerker, Miss Carrie Koons, Miss Mary Roth.

Dr. Samuel G. Dixon, of Harrisburg, State Health Commissioner, who was to have been the presiding officer at the afternoon session Thursday, was unable to be present on account of sickness. In his place Dr. Edwards, vice president of Lehigh University,

presided, and in opening the session expressed the pleasure of the authorities of the university in having the sessions of so notable a conference held within its bounds, expressing the hope that future meetings may also be held at Lehigh.

A resolution expressing the appreciation of the academy of the many courtesies extended during the conference by the members of the faculty of Lehigh and the citizens of the Bethlehems and the interest in the sessions on the part of the daily press, was adopted at the opening of the afternoon session by a rising vote.

Among those registered at the sessions were:

Dr. R. H. Beck, of Hecktown; Dr. H. H. Brinkerhoff, Jersey City; Dr. James Baker, of West Chester; James J. Bevans, superintendent of county schools, of Mauch Chunk; Dr. W. C. Cornell, of Phila.; Dr. F. M. Corwin, of Bayonne; Rev. J. H. Clewell, of Bethlehem; Dr. H. M. Carey, of Spring City, superintendent of the East Pennsylvania Institute for Feeble-minded and Epileptics; Dr. A. R. Craig, of Chicago; Andrew U. Edson, of New York, associate city superintendent of schools; N. M. Emery, A. M., vice president of Lehigh University; Dr. W. L. Estes, surgeon-in-chief of St. Luke's Hospital, South Bethlehem; Maximillian P. E. Grozman, of Plainfield, N. J.; P. S. Hulsizer, principal of high school No. 1, Jersey City; Halliday R. Jackson, supervising principal of high school No. 1, Jersey City; nor Hope Johnson, of New York, connected with the School Board Public Education Association; Elmer E. Kuntz, borough superintendent of school at Lansford; Elizabeth L. Mar-

tin, school physician and instructress in Hygiene, of Pittsburg; Dr. Albert F. Moxey, of Mt. Airy, Philadelphia; Dr. Charles McIntire, of Easton; Dr. Joseph S. Neff, superintendent of Philadelphia Department of Health; Mrs. J. W. Richards, of South Bethlehem; Prof. Edward C. Roest, of Bethlehem; Miss Helen M. Randall, superintendent of Foulke and Long Institute; S. Langhorne; Mrs. Clara P. H. Stilwell, of Philadelphia; Nathan C. Schaeffer, L. L. D., Superintendent of Education, of State of Pennsylvania, of Harrisburg; Dr. W. G. Schauffer, of Lakewood, N. J., president of State Board of Education; Dr. Edward H. M. Sell, of White Plains, N. Y.; Dr. J. E. Tuckerman, of Cleveland, O.; Miss Sara Phillips Thomas, State Superintendent of Pennsylvania, W. T. T. U.; Dr. J. K. Weaver, of Norristown; Prof.

Thomas D. Wood, M. D., Columbia University, New York; Mary Winsor, of Haverford; W. I. Zechman, Supervising Principal of Weatherly schools; O. R. Lovejoy, of New York; Dr. E. B. McCreary, Medical Director Hospital School for Backward Children, Pittsburgh; Louis Nusbaum, District Superintendent of Schools, Philadelphia; Dr. Helen C. Putman, of Providence, R. I.; Francis D. Raub, Superintendent of Schools at Allentown; Dr. Watson L. Savage, of Pittsburgh; W. S. Steele, Principal of High Schools of Harrisburg; Clara Sassaman, South Bethlehem; Grace E. Spiegle, head of Department of Hygiene of Philadelphia Normal School; Z. L. Straw, M. D., of Manchester, N. H.; Dr. Thos. H. Weaver, medical inspector Allentown schools; Dr. W. C. White, head of Tuberculosis League, of Pittsburgh; Dr. H. M. Bracken, of St. Paul, Minn.; Dr. Mabel A. Bradley, of Akron, O.; Dr. Walter H. Brown, of Richlandtown; Dr. H. B. Burns, of Pittsburgh; Dr. L. L. Button, of Rochester; Jane R. Baker, physician with West Chester schools; Wm. G. Chambers, dean of School of Education, Pittsburgh; Rev. Paul deSchweinitz, Elizabeth A. Di-

man, probation officer, of South Bethlehem; J. F. Edwards, M. D., Superintendent of Bureau of Infectious Diseases; Dr. Seneca Egbert, dean of Medico-Chirurgical College; Dr. C. E. Ehinger, physical director of West Chester Normal School; Dr. J. E. Fritz, Dr. E. M. Green, of Easton; Jacob S. Grim, teacher of biology of Kutztown; J. S. Reberling, Superintendent of W. T. Carter Junior Republic.

One of the seven physicians who organized the American Academy of Medicine at the Centennial Exposition in Philadelphia in 1876, Dr. Edward H. M. Sell, of White Plains, N. Y., is in attendance at the conference. He graduated from the University of Pennsylvania in 1876 and pursued post-graduate courses at Paris, Vienna, and London. With the late Dr. Sibbett he passed through the siege of Paris and it was while there that they discussed the organization which today is one of the leading medical associations in the world. Dr. Sell is 80 years of age and is now practicing at White Plains, N. Y. During the conference he is the guest of his niece, Mrs. D. S. Menges, of Sixth street, Allentown.

LEHIGH UNIVERSITY NOTES

Thesis by a Lebanon Student—Important Column Tests

The list of thesis subjects of seniors in the Mechanical Engineering Department of Lehigh University, announced this week, include a study by Edward H. Robb, of Lebanon. Mr. Robb's thesis is "The Layout of a Machine Shop for the Building of a Pipe Machine."

Using the same giant machine in which mine pillars were tested for the city of Scranton, the Civil Engineering Department of Lehigh is testing concrete columns of the kind used in factories, printing establishments and other places where great weight is supported. A score of prominent cement, steel and railroad engineers of Eastern Pennsylvania witnessed one of the tests this week. The Lehigh testing machine in Fritz engineering laboratory is the largest of its type in the world.

EASTON, SUNDAY, APRIL 14, 1912.

THE SUNDAY CALL.

J. P. CORRELL,

Sole Owner and Responsible Editor.

LEHIGH UNIVERSITY.

The Week's Activities at Nearby Institution—Geological Work.

Rev. W. C. Clark, of Richmond, Va., preached before the student body of Lehigh university at a special service in Packer Memorial church yesterday afternoon.

The classes in economic geology at Lehigh spent Friday and Saturday at Franklin Furnace, N. J., where they inspected the zinc mines. Other weekend trips taken by the students this spring have been to the Cornwall magnetic deposits, the smelters at Lebanon, and the iron mines at Oxford Furnace, N. J.

Prof. Benjamin L. Miller of Lehigh is the joint author with Dr. William B. Clark of John Hopkins university of a report on "Geology of the Virginia Coastal Plain," which has just been issued by the Virginia geological survey.

The American Academy of Medicine has given Lehigh university a vote of thanks for the hospitality extended to the physicians and educators who attended the Child Conservation conference at Lehigh last week.

On Thursday the subjects will be "Teaching Hygiene" and "Medical Inspection." Health Commissioner Samuel C. Dixon will preside at the afternoon session on Thursday.

THE ALLENTOWN MORNING CALL.

CONFERENCE OPENS AT LEHIGH TO-DAY

Conservation of School Children to Be Discussed.

Prominent educators and physicians from all points of the East and Middle West will arrive at South Bethlehem today to attend a conference on conservation of school children, to be held in Drown Memorial Hall, Lehigh University, on Wednesday and Thursday, under the auspices of the American Academy of Medicine. This conference is one of national importance and promises to be of unusual interest and value.

Lehigh University will act as host to the visiting members of the academy and it is planned to make their stay as pleasurable as possible. Citizens of the Bethlehems in general, and those in particular who are interested in educational matters, are cordially invited to attend the sessions of the conference.

The program to-day will be as follows: First session, 2 p. m.; "Deficient and Backward Children;" presiding officer, Alexander Righter Craig, A. M., M. D., Chicago, president of the American Academy of Medicine; Committee on Program, G. Hudson-Makuen, A. M., M. D., and Walter S. Cornell, B. S., M. D., Philadelphia, and E. R. Johnstone, Vineland, N. J. 1. Greetings and response; 2. "Remediable Conditions in the Feeble-Minded and Backward," Walter Stewart Cornell, B. S., M. D., Philadelphia, lecturer on Child Hygiene, University of Pennsylvania.

Discussion: To be opened by Maximilian P. E. Groszmann, Ph. D., Plainfield, N. J., Educational Director of the National Association for the Study of Educational and Exceptional Children; H. M. Carey, M. D., Spring City, Superintendent Eastern Pennsylvania Institution for the Feeble-Minded and Epileptic; 3. "Sterilization and Segregation;" Henry H. Goddard, Ph. D., Vineland, N. J., Director of Research in the Vineland Training School for Backward and Feeble-Minded Children.

Discussion: To be opened by Alexander Marcy, J., M. D., Riverton, N. J.; 4. "How to Secure State Appropriations for the Proper Care of the Feeble-Minded," Joseph S. Neff, M. D., Philadelphia, Director of Public Health and Charities.

Discussion: To be opened by E. R. Johnstone, Vineland, N. J., Superintendent of the Training School for Backward and Feeble-Minded Children; 5. "How far Shall the Public School System Care for the Feeble-Minded" (a) Andrew W. Edson, New York, Associate City Superintendent of Schools in the city of New York. (b) J. H. Van Sickle, Springfield, Mass., Superintendent of Schools; (c) E. Bosworth McCreedy, M. D., Pittsburgh, Medical Director, Hospital School for Backward Children.

Discussion: To be opened by Wm. C. Schaffer, A. B., M. D., Lakewood, N. J., president of the State Board of Education of New Jersey.

Second session, 7.30 p. m.; "Conservation of School Children;" presiding officer, Henry S. Drinker, LL. D., president Lehigh University; address by Owen H. Lovejoy, secretary of the National Child Labor Committee.

White, of Pittsburg, Professor of Medicine at the University of Pittsburg.

"Child Labor vs. the Conservation of School Children" was the topic discussed by Owen H. Lovejoy, of New York, secretary of the National Child Labor Committee, at the conference on the conservation of school children in Drown Hall, Lehigh University, Wednesday night. The address was highly interesting. The speaker pointed out facts that prove the problem is one that needs the greatest attention. Mr. Lovejoy said in part:

The speaker discussed the dimensions of the problem of child labor in America, involving approximately two million children, and the relation of the problem especially to education and health. He said: "A system which takes out of the public school at least two million children under 16 years of age, which draws away from school before they have learned anything that will be of permanent educational value deserves the most careful attention of the educator, even if interested in nothing beyond his profession. Also a system which according to the meagre reports issued by various State labor departments show that children are more frequently injured or killed than adults working by their side, presents a matter of definite concern to guardians of public health. Laying aside economic questions, therefore, and all the other questions relating to child labor, we have before us a problem which can best be handled by the combined efforts of those who guard the public health, those who foster education and those specifically engaged in the study of the relation of children to industry. The Child Labor Committee is essentially a militant organization. We have not had the time and cannot now take the time to make exhaustive investigations for the establishment of statistical tables to prove that children should not work a 12-hour day or a 12-hour night; that little boys should not bend for 9 hours a day over the choking dust of anthracite in a coal breaker, or that a 7-year-old child should not work all winter in an oyster packing house on the Gulf Coast, and all summer in a vegetable cannery in Maryland. We recognize the importance of having conclusive proof on all these points, but for the time being it has seemed necessary for us to devote our energy to an attempt to remove the most glaring abuses leaving to the greater patience of other scientific students the problems of research here indicated.

"And we believe it entirely proper to urge that neither educators nor physicians can render any greater service at the present junction than by encouraging such thorough and exhaustive research as shall at the end of a decade or quarter century leave no room for doubt in the public mind as to the extent, nature and effects of the considerations we have here under discussion.

"School men can study this problem without greatly adding to their daily burdens. The operation of the truancy law, the needs of an exceptional backward child, the problem of the repeater, the development of courses of study fitted to those who demand physical activity, all these and similar problems present to the teacher interested in child conservation an opportunity to render a social service of prime value not only to the children, but to the community at large."

The speaker then discussed the typical truant officer and the customary methods of dealing with a backward child. He urged the necessity of having every teacher familiar with the child labor laws of his own State and with his duties in relation thereto. He contended that the school system which eliminated the backward child in order to make a better record for those who remain in cowardly, and discussed the development of part time methods in the higher grades to combine book training with practical handiwork.

He continued: "To the physician, hospital manager or health officer the problem should be equally intimate. How seldom do hospital records show the industrial records of the patient brought for treatment; yet through a series of years an accumulation of invaluable evidence will be possible, the value of which is beyond our present belief. Special cases indicate too frequently that patients brought to them are simply worn-out human machines at 40 or 45 years of age as the result of early hard work. The same is true regarding the records of patients who suffer from some specific malady, and a glance at their early history would throw a flood of light on their present condition. Similarly in the case of children, the records should be as full and revealing as possible."

The speaker cited the evidence gathered from some Juvenile Court records and reformatory books as to what the child did from the time he was committed, and urged that these records should be more complete. He said: "I am confident that we must all take higher ground in relation to the care and training of our children. We must apply the same scrutinizing attention to this human product that manufacturers and merchants are applying to specialized methods of securing business efficiency. I venture to predict the time is near at hand when in all our more advanced States we shall recognize that the child is so truly an asset of the State that during his entire period of minority the State will claim supervision of his care, physical training and educational opportunities.

"I do not mean to indicate that the relation of parent to child will be less than now. On the other hand, it will be more. The service rendered will be larger and more significant. There will be more freedom, but at the same

time less neglect. We shall begin seriously to banish ignorance by undertaking to meet the needs of an industrial civilization, with an educational system fitted to the present appetite of parents and children. By this we may lead them step by step from the mere consideration of the wage-earning value of education to an appreciation of its service in citizenship and the higher requirements of life. To do this the situation requires more than we have yet demanded of our educators and of our health officers. We must begin to insist not that educators and health officers shall put the thin end of a wedge into our business affairs, but that education and health are the paramount assets of our civilization, and that without them both our democracy cannot achieve its mission either in relation to other nations of the world or in the more immediate demands of its own citizens."

Following the lecture there was an informal reception, the members of the Academy and their friends being the guest of Lehigh University.

ABSTRACTS FROM CONFERENCE PAPERS

Read at Session on Conservation of Children.

The various means of guarding society from defectives were discussed at Thursday's session of the conference. The meeting was attended by a large audience composed of clergymen, physicians, educators and others interested in the problem. The teachers of the Bethlehem schools attended in a body. Rev. Paul deSchweinitz, D. D., was the presiding officer at the session which began at 9 o'clock.

The first paper presented was in reference to what should be taught in the school room. Seneca Egbert, A. M., M. D., Dean of the Medical Chirurgical College, Philadelphia submitted an interesting address, "The Physicians' Point of View."

Percy Hughes, A. M., Ph. D., Professor of Philosophy and Education at Lehigh University, presented a paper "The Teachers' Point of View." He said in part:

The teacher may consider "what should be taught" as a matter of ideal to be cherished, habits to be formed, a power of judgement developed, or information imparted. These four aspects of instruction are here given in their order of importance; but the teaching of hygiene in our public schools has emphasized the reverse order, until recently. And, in spite of great improvements in the latest text books, there is still a tendency to center instruction in health in the study of physiology—a line of approach unsuited to the child—and to teach hygiene as a preparation for days to come, where as what should be taught is in the first place an ideal of complete living, realized as far as may be under the conditions of the school-room.

During the first six years of the school life, hygiene should be taught as incidental to the art of doing and living efficiently, of attaining those scholastic and social aims which a true school life makes prominent. Most treatises on hygiene for elementary grades still speak of health as though it were a dominant motive in the child life, whereas boys and girls of that age seek the joys of achievement, rather than the mere comfort of being well. They do not miss health, and therefore do not seek it. They think objectively, and should do so. If the school building, the school equipment, the school program, the personality and life of the teacher are eloquent of health, and if the teacher is informed and alert to make use of the games of the child, and every part of instruction as a means of forming habits of health, if it is recognized that education is at every stage a preparation for life, only in so far as it is itself a complete living, according to the stage of development of the child, then the child will learn in such a school an ideal of efficient and joyous living which will remain with him. Without such an ideal and such a memory, hygienic habits are unlearned under the occasional stresses of life and not renewed. But in the seventh or eighth grade, at the dawn of adolescence, the rules of health, and some of the most evident data of physiology may be summarized, with special ref-

SPRINGFIELD, THURSDAY, APR. 4, 1912.

TWENTY PAGES.

SPRINGFIELD, MASS., THURSDAY, APRIL 4, 1912.

ADDRESS BY VAN SICKLE.

Speaks at Second Annual Conference on the Conservation of School Children.

Prominent physicians and educators from various points in the East and middle West are attending the second annual conference on the conservation of school children, which opened at Lehigh university, South Bethlehem, Pa., yesterday afternoon, under the auspices of the American academy of medicine. Dr Alexander R. Craig of Chicago, Ill., president of the association, presided.

J. H. Van Sickle, superintendent of schools of Springfield, delivered an address on the care of feeble-minded children by the public schools, and he spoke in part as follows:—

In the most progressive communities the control and care of the positively feeble-minded, like that of the insane, is a state function. Boys of this class if left to themselves, being unable to sustain themselves in competitive industry, drift into criminality and come upon the state for support in our penal institutions. It is now seen that state supervision over these boys should begin before criminal tendencies have been allowed to develop.

To prevent the marriage of feeble-minded girls and to shield them from temptations to which they are notoriously easy prey is obviously a duty. This duty the state can perform more effectively and at less expense than the local community. At what point shall the state take up this burden?

While feeble-minded boys are within the usual compulsory attendance age and are under the watchful eye of teacher and attendance officer, the local community may properly assume full responsibility for their training. Feeble-minded girls become a menace earlier than feeble-minded boys, but for a number of years both boys and girls of this class may with safety to themselves and others be taught in the public day schools. They should, however, be grouped in special classes where their characteristics may be carefully studied. In border line cases, several years may pass before it can be determined with certainty whether a child is positively feeble-minded or merely backward, hence the special class in the public school serves a highly useful purpose as a clinic in which suspected cases are slow-

ly and carefully diagnosed. From the special class the child of temporary retardation is returned to the grades. Some of the border-line cases of feeble-mindedness and the high-grade cases pass from the school to employment. Those who go from the class to the state school for the feeble-minded are removed from the community to which they are a menace, are themselves protected, and are taught to assist the state toward their own support in so far as they are capable of doing so. Except in the exceedingly small number of instances where the feeble-minded child has a good home, local communities cannot safely retain feeble-minded children beyond the age of adolescence.

The public school can render its best service by teaching the feeble-minded not ordinary academic studies, but such elements of simple industry as will most nearly render them self-supporting when at about the age of adolescence they go to the custodial home.

The teacher of the special class should have the ability to enter into sympathetic relations with parents of feeble-minded children, gradually and gently acquainting them with the child's real condition and with the advantage which the state institution offers, and finally securing their consent to a transfer.

While in the special class each child should be put into as good physical condition as possible. This is a prerequisite in determining the child's mental condition.

The public school is one of our social institutions, and as such it may justly be expected in work with the feeble-minded to do whatever its publicly provided facilities can accomplish without neglecting its other functions. By gathering subnormal children into special classes and fitting them for partial self-support in institutions, the school renders only a reasonable service, for the segregation of the feeble-minded is equally in the interest of the normal children whose progress they would otherwise impede.

The address followed a talk by Dr Henry H. Goddard, director of research in the training school for defective children at Vineland, N. J., in which the sterilization of such children was advocated, so that there might be no fear that they would produce more defectives for society to care for. Dr Van Sickle's view that there should be state care for the subnormal children was also urged by A. W. Edson, assistant superintendent of the New York public schools, and E. Bosworth McCready, an educator of Pittsburg, Pa. Another session of the conference is to be held to-day.

erence not so much to the child himself as to the social and civic life of the community into which he must now feel he is entering. This is all that is necessary to conform to the laws of this State, strictly interpreted. And even here it does not appear at all necessary to "forecast the years." No more need be taught than the child can appreciate as directly entering his life, still viewed objectively and socially. Of four difficult subjects in hygiene, civic hygiene, sex hygiene, the abuse of alcohol and the abuse of narcotics, the most difficult to treat in this way is that of sex hygiene, which has received special attention in this conference. But even here the teacher will urge, I think, the same position. In like manner alcohol, tobacco, etc., may be discussed in relation to those civic and social problems which arise as the school leads the child to feel the responsibility which already begins to rest upon him. In the high school the law requires in this State and many others the teaching of physiology and hygiene, and there seems to be every reason why in the high school something of both subjects should be taught; and doubtless the hygiene should now rest more directly upon physiology. But considerations which vary in every school will determine whether the instruction shall be in a separate course, or in connection with biology, or with a universal system of physical exercise, or with a course introductory to science in general. Whether in the high school or in the grades the obstacle that stands in the way of instructing the child to live according to a hygienic ideal is the poor preparation of the teacher. Any one can teach the average book in physiology and hygiene. To bring the whole school life to bear in the formation of hygienic habits and ideals of living requires a teacher of at least a good high school training supplemented by a normal school course in which much of the work has been brought directly to bear upon just this purpose.

The discussion that followed was opened by Francis D. Raub, Superintendent of Schools, of Allentown.

A paper on "How Should Hygiene be taught; Methods in Vogue," was ably presented by W. S. Steele, A. M., LL. B., Principal of Harrisburg High School. He said:

Definitions of hygiene: 1. The science which tells how to keep living bodies in good condition or working order; 2. Hygiene teaches the art of preserving the health and preventing disease; 3. Hygiene treats of the laws of health, it teaches how to care for, use and nourish the body.

Importance of hygiene: 1. Necessary for present and future health of the body. Teaches one to avoid taking cold. To avoid such diseases as yellow fever, typhoid fever, tuberculosis and malaria. Teaches what to do in case of injury to the body, such as breaking of arm or cutting of a blood vessel (Army physicians declare that in most wars before the present century negligence in regard to the laws

of Home-Making, to investigate conditions and needs in their respective states and to report plans for meeting them effectively through such continuation schools or classes.

With the address "Indirect Methods of Teaching Hygiene," by C. E. Ehinger, M. D., of West Chester, Physical Director of the State Normal School, the morning session was brought to a close.

carelessness concerning hygiene. (c) During 1900-1906 one million died of tuberculosis in this country. Recent investigations indicate that one-half of these people might have escaped the disease, or might have recovered from it, by observing the laws of hygiene. Living in hygienic ways has, in Massachusetts, decreased the death rate from tuberculosis one-half since 1875. 3. Necessary to have hygiene a part of the school requirements. Because it is the only place where many children can be taught correctly the means of taking care of themselves. The child who, by work, must keep himself needs to be instructed well and thoroughly on the necessity of good, plain food; the necessity of caring for the body, if he ever expects to accomplish anything by his work; the danger of abusing the body by filling it with the poison of cigarettes or liquor. 4 Has an ethical value. It ought at least to arouse a wholesome respect for the Creator, by showing the wonderful co-ordination of all parts of the body. The speaker also dealt with: 1. Methods used in teaching hygiene; 2. Some anatomy and physiology essentials; 3. Comparative anatomy; 4. Drawings; 5. Interesting and picturesque verbal illustrations advocated; 6. Scrapbooks; 7. Recitations used to improve English; 8. Even mythology has its place; 9. Experiments.

Louis Nusbaum, District Superintendent of Public Schools of Philadelphia, submitted a paper in which improvements were suggested. He said:

We know that something is wrong with our teaching of physiology and hygiene since these subjects are usually regarded as dry, uninteresting and unintelligible. Teachers fail to observe the requirements of the law concerning the subject. Everywhere there is a tendency to avoid, evade and curtail whenever possible. Pupils do not like to study it and teachers do not like to teach it.

This condition is no doubt due partly to the provisions of our laws which for many years past, have required the teaching of "physiology and hygiene with special reference," etc., in all grades of the public schools of the Commonwealth, and, in attempting to teach the subject in all grades, the educational authorities have undoubtedly had to face a difficult problem in providing material enough to go around for the eight or twelve years. Hence, the inordinate extent of our teaching of this subject. This same legal provision is undoubtedly responsible for another situation which has created in the child an aversion for the subject, and that is the necessity for persistent repetition of the same material in the several grades, due to insufficiency of subject matter.

The purpose of teaching the subject seems to be twofold, first, to secure to the individual a sound body, which in turn will tend to increase his happiness, efficiency and longevity. This is the purpose generally recognized in schools. Next there is a social aim of this teaching. The child must aid in the perfection not only of his own happiness and efficiency but also of the happiness and efficiency of the society in which he lives.

With this point of view as a place of departure it may be desirable for us to examine some of the things to be avoided in order that these ends

may be attained without arousing the child's opposition, whether conscious or otherwise. The subject must be freed of technicalities, which do not interest and only confuse the child.

As physiology has been taught in the past we have endeavored to present a vast amount of unattractive anatomy of the human system, fitting in the functions of each organ in its precise place. Most of the anatomy much of the physiology should be eliminated. We must avoid the attempt to give didactic moral instruction concealed under cover of technical physiology—children are keen to discover subterfuge and hypocrisy! We must be particularly careful to avoid exaggeration in our presentation of the subject. We must avoid arousing the opposition of the child by seeming to present an indictment against those in his own home who may be users of alcohol or tobacco. Such teaching creates a community sentiment against the work of the school, and proves to be a real hindrance to the accomplishment of the desired result. What we need at this time is to teach hygiene and sanitation with a background of physiology instead of teaching, as in the past, physiology with a foreground of anatomy.

We want to get as far as possible away from the teaching of physiology whose only appeal is to the intellect, and particularly to an intellect unprepared for such an appeal. We must remember that physiology is a study of the most difficult phase of the most delicate and most intricate mechanism of which we have any knowledge. Properly treated the subject has a great big measure worthy of the activities of every child whose body is full of good, red blood, and the presentation ought to be such as to appeal stirringly to the interest of each one.

The discussion that followed was opened by James S. Grim, Ph. D., of the Keystone State Normal School and Miss Sara Phillips Thomas, of Scientific Temperance Instruction, W. C. T. U.

Thomas D. Wood, M. D., of New York Teachers' College, Columbia University, presented a paper on "Teaching Hygiene for Better Parentage." An address on the same subject was also made by Helen C. Putnam, A. B., M. D., of Providence, R. I. It follows in part:

Life is a trust from fathers and mothers beginning before history; to be guarded and bettered in one's turn; and passed along to children's children. A definite conception of this trust is essential to right living. Educators are finding that well directed correlation of human life with phenomena of growing things in school gardens and nature studies develops a wholesome mental attitude. Since tens of millions of our population have only fractions of primary schooling, there is where the teaching must begin. These primary years are the time to lay foundations before a wrong bias is established.

Education for parenthood cannot be completed at this early age. The strategic years for making it most effective are from 12 to 24, when homemaking instincts are waking and strongest. We have 15,000,000 young people of these ages in no schools, and eligible for such instruction. All state boards of education were petitioned by the American Association for Study and Prevention of Infant Mortality to urge the appointment of Commissions on Continuation Schools

School and College

LEHIGH UNIVERSITY

Paul E. More Lectures—Associate Professor Landis Resigns

Paul Elmer More, editor of *The Nation*, addressed Lehigh University students and citizens of Bethlehem, Pa., in Packer Memorial Church last week. Mr. More's subject was "Science as a Philosophy of Life," the address being given under the auspices of the Lehigh chapters of Phi Beta Kappa and Tau Beta Pi. Professor Charles Proteus Steinmetz of Union College lectured before the Electrical Engineering Society of Lehigh on Saturday. The Lehigh Chemical Society, at its April meeting in the home of President Drinker, was addressed by E. L. Knoedler of the Welsbach Light Company.

Walter Savage Landis, associate professor of the metallurgical department of Lehigh, has resigned to become technologist for a large European manufacturing chemical company.

LEHIGH UNIVERSITY

Sunday Services—Inspection Trip by Geology Classes—Notes

Rev. Dr. W. C. Clark of Richmond, Va., preached before the student body of Lehigh University at a special service in Packer Memorial Church yesterday afternoon.

The classes in economic geology at Lehigh spent Friday and Saturday at Franklin Furnace, N. J., where they inspected the zinc mines. Other week-end trips taken by the students this spring have been to the Cornwall magnetite deposits, the smelters at Lebanon, and the iron mines at Oxford Furnace, N. J.

The American Academy of Medicine has given Lehigh University a vote of thanks for the hospitality extended to the physicians and educators who attended the Child Conservation Conference at Lehigh last week.

EASTON, SUNDAY, APRIL 28, 1912.

THE SUNDAY CALL.

J. P. CORRELL,

Sole Owner and Responsible Editor.

No. 318 and 320 Ferry St., Easton, Pa.

LEHIGH UNIVERSITY NOTES.

Activities of Junior Week—Various Addresses—Athletics.

From Thursday to Sunday, many guests were entertained at Lehigh University during the annual festivities of "Junior week." Nine of the fraternities, as well as the various dormitory sections, held house parties. The program included two dances, two base ball games, a track meet and the performance of the Mustard and Cheese dramatic association. Among the guests were Miss Kern, Miss Stamets, Miss Keller, Miss Jennings, Miss Crater, L. E. Putnam, of Easton, Miss Wise, of Bangor, and Mrs. Wenner, of Allentown.

President H. S. Drinker, of Lehigh, together with Judge A. T. Clearwater, a former justice of the Supreme court of New York, last week addressed the Senate committee on foreign relations in Washington, D. C., presenting suggestions as to the projected celebration in 1914-1915 of the 100th anniversary of peace among English-speaking peoples. This they did as members of a delegation appointed by the National committee for promoting the celebration, of which Mr. Carnegie is chairman.

Dr. Rossiter W. Raymond, past president of the American institute of mining engineers, will be the speaker at the second of the spring series of religious services, held in Packer Memorial church today (Sunday).

All of the chestnut trees and many of the hickories on the Lehigh campus are succumbing to attacks of the bark-blight and boring beetle. To replace their probable loss, more than 100 oaks, evergreens, Japanese flowering cherries and other trees were planted last week.

Its 8 to 6 defeat of Columbia University on Friday marked continued good work on the part of the Lehigh base ball team. Last Saturday the Brown and White collegians won from the East End professionals of Bethlehem and on Wednesday they played an excellent scoreless game with Tufts college nine. Pazzetti, next year's football captain, pitched all three games, displaying fine form.

The inter-class meet at Lehigh last Friday morning resulted in a victory for the Sophomore class. It was expected that this class would win, but not by such a large number of points. Whitney, '14, broke the high jump record by one-quarter of an inch, clearing the bar at five feet eight inches. He secured the greatest number of points, capturing two first and five seconds, a total of twenty-five points. The points scored were: Sophomores, 75; Freshmen, 30; Seniors, 18; Juniors, 3.

The Bach festival will be held in Packer memorial church, Lehigh university, on Friday, May 31, and Saturday, June 1. There will be two sessions each day.

AT LEHIGH UNIVERSITY.

Important Conference on Child Conservation—Base Ball and Lacrosse Notes.

Under the auspices of the American Academy of Medicine, a conference of educators and physicians was held at Lehigh University last week on the subject "Conservation of School Children." There were four sessions on "Deficient and Backward Children," "Conservation of School Children," "Teaching Hygiene," and "Medical Inspection." The speakers included Andrew W. Edson, associate city superintendent of the schools of New York; Dr. Seneca Egbert, Dean of the Medical Chirurgical college, Philadelphia; Prof. Thomas D. Wood of Teachers' college, Columbia university; Dr. Helen C. Putnam of Providence, R. I.; Dr. J. F. Edwards, head of the Pittsburgh board of health, Prof. T. A. Storey of College City of New York; President H. S. Drinker and Prof. Percy Hughes of Lehigh University; Prof. W. S. Cornell of the University of Pennsylvania; Prof. Alvin Davison of Lafayette college; Dr. M. P. E. Groszmann, of Plainfield, N. J., and a dozen others.

The Easter holidays of the Lehigh student body extends from last Wednesday at noon until next Tuesday morning at 7.45 o'clock. In former years the period was longer. It was shortened to permit a brief vacation at the latter part of April, "Junior Week," when the Junior class has its promenade dance and other social affairs. This spring the intermission extends from April 25 at 5 p. m. to April 29 at 7.45 a. m.

The Lehigh base ball team played its second game of the season Saturday with Villa Nova college at Villa Nova. Because of wet grounds at South Bethlehem the contest with the main liners scheduled a week ago was postponed. Lehigh will play Princeton at Princeton next Wednesday.

The Lehigh lacrosse team left South Bethlehem on Friday to cross sticks with the Navy twelve at Annapolis and the Mt. Washington team at Baltimore.

LEHIGH UNIVERSITY

Professor McKibben to Preside at Boston Meeting—Notes

Professor F. P. McKibben (M. I. T., '94), head of the department of civil engineering in Lehigh University, will preside at two sessions devoted to the subject of laboratory instruction at the meeting of the Society for the Promotion of Engineering Education, to be held in Boston in June.

More than one hundred oaks, evergreens, Japanese flowering cherries and other trees were planted on the campus at Lehigh last week to replace the chestnuts and hickories. These trees are succumbing to attacks of the bark-blight and boring beetle.

School and College

LEHIGH UNIVERSITY

Information Sought by Warsaw Polytechnic Institute—Notes

Planning tests of pillar materials used in Russian collieries, the Warsaw Polytechnic Institute has communicated with the civil engineering department of Lehigh University, asking for results of similar tests made at Lehigh last year for the Scranton Mine Commission. Models of coal and slag columns like those found in Pennsylvania mines were constructed in the Fritz laboratory, where their supporting strength was determined by means of Lehigh's 800,000-pound testing machine, the largest of its type in the world. Professor A. Kolensky, professor of mining engineering in the Warsaw Institute, has in charge proposed tests in Russia along these lines.

A lecture on "Early Colonial History in Pennsylvania" was delivered by President Isaac Sharpless of Haverford College before the Lehigh students and citizens of Bethlehem, on Saturday.

MOVEMENT STARTED FOR CELEBRATION OF PEACE CENTENARY

Suggestions for a Peace Centenary Celebration in 1914-15, to mark the 100th anniversary of peace among English-speaking peoples, were presented at a hearing of the Senate Committee on Foreign Relations in Washington, D. C., this week by members of an appointed delegation including General Stewart L. Woodford, President Henry Sturgis Drinker of Lehigh University, Judge A. T. Clearwater, ex-Justice of the Supreme Court of New York, and William B. Howland.

Judge Alton B. Parker outlined the project and introduced the delegation to the committee, among whom were Senators Root of New York, Lodge, of Massachusetts and Rayner, of Maryland.

In an address following Judge Clearwater, Dr. Drinker said in part: "One main idea stands out boldly,—that our American people should be brought to realize the value of this great Peace Asset that is theirs, greater in value and importance than mountains of gold and silver,—the

fact that for one hundred years the blessing of Peace has rested, with all its benefits, on the English-speaking races of the earth in their relations with each other. It would seem highly fitting that the centenary celebration of the Treaty of Ghent should be signalized, as is proposed, not only by a great gathering here of English-speaking peoples of the earth, but of all nations, to rejoice in the reign of 'Peace on Earth, Good Will Toward Men,' and that Congress should provide for an appropriate permanent memorial of the event to carry down in the next century and to coming generations the record of the Century just past, to be forever an 'Outward and visible sign of the inward and spiritual grace,' that has come to the nations of the earth."

The national committee for promoting the Centenary Peace Celebration includes Andrew Carnegie, chairman; Theodore Roosevelt, honorary chairman; Elihu Root, Levi P. Morton, Adlai E. Stevenson, Joseph H. Choate, William Jennings Bryan, and Judge Alton B. Parker, honorary vice chairmen; Lyman T. Gage, honorary treasurer; and Harry P. Judson, honorary secretary. John A. Stewart, of New York, is the chairman of the executive committee, and among the committee-men on international organization are John Hays Hammond and Theodore Marburg.

THE SUNDAY CALL.

J. P. CORRELL,

Sole Owner and Responsible Editor.

Nos. 318 and 320 Ferry St., Easton, Pa.

Communications upon matters of local interest respectfully solicited; also contributions, poetical and otherwise. Parties are requested to make their communications brief, and, as far as possible, unnecessary of revision.

AT LEHIGH UNIVERSITY.

Brief Items of Activity at the South Bethlehem Institution.

Planning tests of pillar materials used in Russian collieries, the Warsaw Polytechnic Institute has communicated with the Civil Engineering department of Lehigh university, asking for results of similar tests made at Lehigh last year for the Scranton mine commission. Models of coal and slag columns like those found in Pennsylvania mines were constructed in the Fritz laboratory, where their supporting strength was determined by means of Lehigh's 800,000 pound testing machine. Prof. A. Kolensky, professor of mining engineering in the Warsaw institute, has in charge proposed tests in Russia along these lines.

A lecture on "Early Colonial History in Pennsylvania" was delivered by President Isaac Sharpless of Haverford college before the Lehigh students and citizens of the Bethlehem, on Saturday.

At the monthly meeting of the Politics club of Lehigh, last week, the parcels post was discussed. The speakers were Beers, '13, Wheeler, '13, and District Attorney L. H. Rupp, of Lehigh county. The club appeared to be heartily in favor of such a system. A report was rendered by William C. Fry, Jr., '13, of Reading, who was delegate to the Inter-Collegiate civic league convention held recently in New York.

Lafayette-Lehigh varsity rivalry was almost equalled on Wednesday, when the Freshmen nines of the two colleges met in an exciting ball game at South Bethlehem. By batting rallies coupled with Lafayette errors in the eighth and ninth innings, the Brown Freshmen managed to win out, 10 to 9. At the same time on the upper Lehigh field, the Easton High school team defeated the Lehigh scrubs in a loose game, 6 to 3.

THE SUNDAY CALL.

LEHIGH UNIVERSITY.

Students Addressed by Eminent Scholars—Lacrosse and Track.

At the general meeting of the American Electrochemical society held in Boston last Thursday, Friday and Saturday, a paper on "Gas Circulation in the Electrical Reduction Furnace" was read by Prof. Joseph W. Richards, of Lehigh university. Prof. Richards is secretary of the American society.

Paul Elmer More, editor of "The Nation," addressed Lehigh university students and citizens of Bethlehem, Pa., in Packer Memorial church last Thursday. Mr. More's subject was "Science as a Philosophy of Life," the address being given under the auspices of the Lehigh chapters of Phi Beta Kappa and Tau Beta Pi. Prof. Charles Proteus Steinmetz, of Union college, lectured before the Electrical engineering society of Lehigh on Saturday. The Lehigh Chemical society, at its April meeting in the home of President Drinker, was addressed by E. L. Knoedler of the Welsbach Light Co.

Walter Savage Landis, associate professor of the Metallurgical department of Lehigh, has resigned, to become technologist for a large European manufacturing chemical company.

All college exercises were suspended on Monday afternoon, when the funeral of William A. Lathrop, president of the Lehigh Coal and Navigation company, took place at Wilkes-Barre. Mr. Lathrop was a graduate of Lehigh in the class of 1875, and for many years was president of the board of trustees of the university.

Lehigh's lacrosse team held the sturdy twelve of the Carlisle Indian school to a 5 to 4 score on a field that was a mass of mud, Wednesday. Lehigh replaces Lafayette on Carlisle's football schedule for next fall.

An inter-class track and field meet will be held on Lehigh field next Friday, when the large group of candidates now out will have their first regular tryout. Prospects are bright for a good team. Lehigh's schedule includes meets with Rutgers at New Brunswick on May 4, Swarthmore at South Bethlehem on May 8, Haverford at Haverford on May 11, and Lafayette at South Bethlehem on May 15. Lehigh will send teams to the relay races at the University of Pennsylvania on April 27 and the inter-collegiate meet at Harrisburg on May 18.

A proper resolution on the death of William A. Lathrop, president of the board of trustees of Lehigh university, was adopted at a recent special meeting of the faculty.

Mr. Lathrop was a loyal and devoted son of Lehigh, a man of the highest character and ability, and a citizen reflecting honor on his community and state. By his death Lehigh lost an alumnus, typifying the ideals for which Lehigh was founded and exists.

PEACE ON EARTH GOOD WILL TO MEN

Plan to Provide a Permanent Memorial of the Century of Peace Since The Treaty of Ghent

The national committee for promoting the celebration of the one hundredth anniversary of peace among English-speaking people in 1915, is a notable one. Mr. Carnegie is the chairman, and Theodore Roosevelt, honorary chairman of the committee; the honorary vice chairmen are Elihu Root, Levi P. Morton, Adlai E. Stevenson, Joseph H. Choate, William Jennings Bryan, and Judge Alton B. Parker. Lyman T. Gage is the honorary treasurer, and Harry P. Judson the honorary secretary. John A. Stewart, of New York, is the chairman of the executive committee, and among the committeemen on international organization are such men as John Hays Hammond and Theodore Marburg.

The Treaty of Ghent following the war of 1812 was signed at Ghent on Christmas eve, 1814, and ratified by our Senate February 17, 1815. On the evening of the day of the battle of New Orleans, (news of the treaty had not then reached this country), a banquet was held at Ghent in honor of the treaty, at which John Quincy Adams, one of the commissioners, expressed the sentiment — "May the gates of Janus, here closed, never be opened for a century to come."

The sentiment has come true, and Great Britain and America are now preparing to celebrate a great histor-

ical fact. Wednesday, April 24 was set by the committee on foreign affairs of the House of Representatives, and by the committee on foreign relations of the Senate, to hear and consider suggestions in regard to the pending House and Senate bills introduced to create a Peace Centenary Celebration Commission, looking to the formulation and execution of a plan for this celebration, and for the erection of a permanent memorial.

President Drinker, of Lehigh University, was asked to act as one of the delegation to make the presentation to the Senate committee, of which Senator Cullom is the chairman. Among the senators sitting at the committee hearing were Senators Root of New York, Lodge of Massachusetts, and Rayner of Maryland.

The proceedings were opened by Judge Parker, who outlined the general project, and introduced the delegation. Addresses were made before both the House and Senate committees by members of the delegation, among them General Stewart L. Woodford, William B. Howland, John A. Stewart, and Judge A. T. Clearwater, ex-justice of the supreme court of New York. Dr. Drinker, being called on, said:

"I heartily second Judge Clearwater in the thought suggested by him that this committee is far better able intuitively to grasp the bearing and scope of the project under consideration than we are to present it, but it is well perhaps that in this short conference we should array and bring before your committee for your deliberate consideration, facts and thoughts bearing on the matter.

To me one main idea stands out boldly, — that our American people should be brought to realize the value of this great peace asset that is theirs, greater in value and importance than mountains of gold and silver, — the fact that for one hundred years the blessing of peace has rested, with all its benefits, on the English speaking races of the earth in their relations with each other.

"When we think of the devastation and wasteful effects of war, with all its present and following evils, we may well glorify the celebration of the one hundredth anniversary of

this peace that has endured, and the fact that it was not disturbed by the cry in the Northwestern Boundary dispute of 'fifty-four, forty or fight,' or by the Mason and Slidell incident during the Civil war, (when the steady hand of England's uncrowned king, Albert, and Queen Victoria's friendly attitude, with President Lincoln's wise head and hand, saved the situation), — or by the Venezuelan incident in Cleveland's administration, — testifies to the wisdom that has come to our race, and to the bonds of friendship that have been formed that cannot be broken by any passing misunderstanding or friction.

"Today the world appreciates that Peace is not only the epitome and last lesson of the great Christian spirit that is leavening and pervading the world, but that from a material stand-point its practice and maintenance mean prosperity and happiness to mankind, and this realization has come over us all.

"It is but another and a great and world-wide verification of the principle, that mankind has disputed and wrangled and sometimes warred for years and decades over differences which have seemed irreconcilable, and yet, suddenly, in time, without one being able to say just why, or how, these differences become reconciled, — the warring factions find themselves in accord, and the common truth becomes so self-evident as to be universally accepted.

"This is notably so in the general present acceptance of the blessings of peace in which our English-speaking race is taking so notably the lead, and it would seem highly fitting that the centenary celebration of the Treaty of Ghent should be signalized, as is proposed, not only by a great gathering here of English-speaking peoples of the earth, but of all nations, to rejoice in the reign of 'Peace on Earth, Good Will toward Men,' and that Congress should provide for an appropriate permanent memorial of the event to carry down in the next century and to coming generations the record of the century just past, to be forever an 'outward and visible sign of the inward and spiritual grace,' that has come to the nations of the earth."

The Bach Festival.

Nine rehearsals a week are being held by members of the Bach Choir, in preparation for the seventh festival to be given in Packer Memorial Church, Lehigh University, on May 31 and June 1. Two of these, on Monday and Friday, are general rehearsals, the others being for various voices and groups. Progress is reported to be most encouraging. The fourth soloist to be secured by Dr. J. Fred Wolle for the coming festival is Frank Croxton, bass. A new singer before a Bethlehem audience, Mr. Croxton comes with the highest praise for work in other festivals and on concert tours. He has recently been on tour with the Pittsburgh Festival Orchestra and the Victor Herbert Orchestra. A feature distinguishing this year's festival from its predecessors will be the orchestral accompaniment. This will be given by members of the Philadelphia Orchestra.

Bach Festival.

A novel feature of the coming Bach Festival will be what the Germans call a "Singstunde," a half-hour of song, in which the congregation will join at the conclusion of the cantata, "Strike, O Strike, Long Looked For Hour," on Friday evening. This will be different from anything given in previous festivals. A series of old church melodies will be sung, the familiar "Passion Chorale," "Sleepers Wake," "How Brightly Shines the Morning Star," and others. As a compliment to the Lutheran Synod, which will convene in Grace Church with 800 ministers in attendance, the Singstunde is to close with the famous chorale, with which the great Luther's name is most closely associated, "A Mighty Fortress Is Our God."

MUSIC NEWS

— — — — —

BETHLEHEM, PA.

Soloists for the Bach Festival to be held in Packer Memorial Church, Lehigh University, on May 31 and June 1, were announced this week by Dr. J. Fred Wolle, conductor of the Bach Choir. They are: Soprano, Mrs. Mary Hissem de Moss; contralto, Mrs. Gertrude May Stein-Bailey; tenor, Nicholas Douty, and bass, Frank Croxton. The orchestral parts will be played by members of the Philadelphia Orchestra.

Mrs. Bailey and Mr. Douty have sung at all six of the previous festivals in Bethlehem; Mrs. de Moss appeared at the last four. Mr. Croxton is a bass who was soloist on recent tours of the Pittsburgh Festival Orchestra and the Victor Herbert Orchestra.

During the past winter the Bach Choir of 200 voices has been working hard under the direction of Dr. Wolle, and during the present month rehearsals on the difficult choruses of the Mass in B minor are frequent, indeed. The choir is determined to make its resumption of festival work a performance equal to the standards of its earlier renditions.

THE BACH FESTIVAL

The 1912 Bach festival, to be held in Packer Memorial Church, Lehigh University, South Bethlehem, Pa., on May 31 and June 1, will be marked by two noteworthy features. At Friday's sessions four cantatas will be rendered, none of which has ever been given in this country. The orchestral parts are not in print, and Dr. J. Fred Wolle, conductor of the Bach Choir, had to send to a Leipzig firm to have copies made from manuscripts. A package containing one of the cantata scores went down on the Titanic, the others being sent on earlier boats. It was discovered that a copy of the desired score exists in New York City, and new parts have now been prepared from it for use by members of the Philadelphia Orchestra, who will appear with the Bach Choir at Lehigh. The second novel feature will be the introduction of what the Germans call a "sing-stunde"—a half hour of song, in which the congregation will join—at the conclusion of the cantata, "Strike, O Strike, Long-looked-for Hour." A series of six old church melodies will be sung.

Saturday's sessions of the festival will be devoted to the mass in B minor, rendered by the Bach Choir of 225 voices, under Dr. Wolle. The mass was given its first complete performance in America by the Bethlehem Choir on March 27, 1900. Saturday's sessions will begin at 2 P. M. and 5 P. M., for the convenience of out-of-town attendants who may wish to leave on early trains.

Each session of the festival will be announced by the playing of a chorale by members of the Moravian Trombone Choir, stationed in the tower of Packer Church, overlooking the Lehigh campus.

TWO-DAY BACH FESTIVAL HOLDS ATTENTION OF MUSICAL WORLD

Famous Bethlehem Choir Resumes Work After Lapse of Seven Years--A Noteworthy Event

After an interval of seven years, Bethlehem's famous Bach choir yesterday resumed its interpretation of the works of the greatest master of polyphonic music beginning their seventh festival of Bach works in the musical centre that has come to be to the Bach cult of the world what Bayreuth is to the lovers of Wagnerian music and what Oberammergau is to the miracle play devotees.

It was the first of a two day festival and for the two concerts pre-arranged for this day four cantatas, never before heard on this side of the Atlantic and seldom in the home of Bach music, Germany, had been selected. So difficult are the numbers and so exacting the roles for the soloists that it is a brave conductor, a capable chorus, an artistic orchestra and the brainiest and most able soloists who alone dare attempt the work. Such a combination up to the present time has been found nowhere else but in the Bethlehems. There was consequently the greatest interest in the festival and to it came music lovers from practically every section of the country. Little parties from big western, New England, and southern cities came to swell the larger groups who came from the bigger cities of the east and the towns of the Lehigh Valley, and the Bethlehems especially turned out in a force that demonstrated their right to maintain in their community an organization that has made Bethlehem as famous to Europeans for its Bach music as Bayreuth is famous to Americans for its Wagnerian operas.

The festival was held in Packer Memorial Church on the Lehigh University campus and while the event was conducted strictly by the Bach organization which has kept intact practically since 1900, even during the absence of the Bach genius Prof. J. Fred. Wolle, the university acted as the host. Added to the musical atmosphere therefore was the choralistic air and in addition the college furnished entertainment such as neither Oberammergau or Bayreuth for one minute can boast.

The visitors were given the freedom of the University grounds and buildings. Every convenience possible for them was arranged and placed at their disposal and the commons, the students' dining room, was thrown open to them for the two days of their stay in the town.

The interest of the world in the event was shown by the attendance of representatives of leading musical journals and newspapers not only of America but of Europe and the nations beyond the sea are going to hear as much of this two-day event as America will.

The church at both afternoon and evening events yesterday was filled and to-day it is likely that the attendance will not only exceed yesterday's mark but also exceed all records for a Bach festival in the Bethle-

hems. It was a crowd too such as one rarely sees assembled except for the most esoteric events in the largest cities. It represented the cream of the musical communities of the country.

At the afternoon session two cantatas were rendered: "It is Enough" and "Christian Stand with Sword in Hand," and in the evening "Soul, Array Thyself With Gladness" and "Oh Strike, Long-looked-for Hour." To-day at the two sessions at 2 and 5 p. m. the most famous Bach work, the Mass in B minor will be rendered, a number that was rendered at the three first festivals given by the society and also at the last festival in 1905.

At 3.45 nine members of the old Moravian trombone choir ascended to the belfry of the church and there played chorales up to the time of the opening of the program in the beautiful cruciform church. The strains of music were wafted by the breezes from the lofty tower to the campus below where clustered groups of auditors who silently listened to the familiar strains of the well-known chorales of the Moravian church.

Within the church the chorus had taken its seats in tier after tier of seats arranged in rising order in the large chancel of the church, back of the rood screen. Before the screen the picked body of musicians from the Philadelphia orchestra and the soloists were seated, the latter being Mrs. Mary Hissem DeMoss, soprano who had sung at three of the festivals; Mrs. Gertrude Stein-Balley alto and Nicholas Douty, tenor, who have sung at all of the festivals, and Frank Croxton bass. T. Edgar Shileds was at the pipe organ.

It was a tense moment when the conductor, Mr. Wolle waved his baton and began the orchestral prelude, with the oboes carrying the subject and the balance of the orchestra furnishing the answers and developing the episode of the wonderful fugue that Bach worked up for this composition.

The number was arranged in six stanzas, all set to fugues marked by all the mazes of counterpoint of which Bach was a master and constituting the chief difficulty in the interpretation of the work. The solos were sung by Mr. Croxton with feeling and virility and his handling of the difficult passages where the recitative of the bass is carried against the entire orchestral volume, being a melody superimposed upon the remainder of the composition stamped him as a singer not only of voice but of the best training and intelligence.

The conducting of Mr. Wolle was also a masterpiece. The way he drew out every feeling and emotion, described in the eloquent music was the marvel of the day, not only in this composition but in all four rendered.

The last stanza was a chorus, sung by the 250 Bach devotees with a dell-

SAN FRANCISCO, SATURDAY, MAY 11, 1912.

THE BETHLEHEM BACH FESTIVAL.

Preparations for the Bethlehem Bach Festival of 1912 are now practically completed and Dr. J. Fred Wolle, the distinguished American Bach exponent, and one of the greatest authorities on the master's works in the world, may look with pleasurable anticipation to the resumption of his musical victories. The Festival will take place in the Packer Memorial Church, Lehigh University, South Bethlehem, Pa., on Friday, May 31, and Saturday, June 1. There will be two sessions daily, namely, on Friday afternoon at four o'clock and on Friday evening at eight o'clock, when the program is to be devoted to cantatas, and the other two events will take place on Saturday afternoon at two o'clock and at five o'clock when the Mass in B minor will be presented. There will be ample time after the second session on Saturday, to take trains to all points East and West. The chorus consists of two hundred voices well trained under the exceedingly able direction of Dr. J. Fred Wolle. Program books will be issued containing the full text of each vocal work, names of the members of the choir, etc. These books will be on sale at the A. C. Huff Music Store and at the Church. No other programs will be issued. As in former festivals, the audience is requested to rise and sing the chorales, supported by the chorus orchestra and organ. The prices per session are \$2, \$1.50 and \$1. The sale of tickets to founders and guarantors extended from April 10 to April 22. The general sale of course tickets opened Thursday, April 25. The sale of single tickets opens Thursday, May 23. Orders should be addressed to the A. C. Huff Music Store, 57 South Main Street, Bethlehem, Pa. Tickets will be on sale at the Church after 9 o'clock a. m., on both days of the Festival. Orders for tickets should be accompanied by Postal Money Order, Express Order, New York or Philadelphia Draft, made payable to A. C. Huff. All mail orders will be honored in order of receipt. Addressed stamped envelope should accompany the order, if tickets are to be mailed to purchasers.

The Eastern press has been very generous to the exploiters of this great enterprise, and it is more than likely that the success of the Bethlehem Bach Festival will overshadow anything of this kind ever attempted in America, even by its founder. The Pacific Coast Musical Review regrets very much that it can not be represented on this occasion by the editor, but we will surely secure for our readers accounts of the events, either through one of our Eastern correspondents or

through the metropolitan newspapers. The Bethlehem Bach Festivals in America are what the Bayreuth Festivals are to Germany, and they are worthy of the greatest publicity. If any of the subscribers of the Pacific Coast Musical Review should be in the East during the time of this Festival we surely advise them to attend the Bach Festival. We know of nothing in the musical activity of this country that appeals quite so much to the highest musical refinement as an adequate interpretation of the great Bach compositions, and we know of no musician who can give them that intelligent and scholarly reading that Dr. Wolle is able to do. The Pacific Coast Musical Review is now, as it always has been, a staunch friend and enthusiastic supporters of Dr. Wolle. We do not know the word fickleness. And inasmuch as we think very deeply before making up our mind as to the value of a musician's worth, we know whereof we speak when we say that Dr. Wolle is one of the real forces in the musical life of America, and those who are not yet convinced of the truthfulness of this assertion will be forced to change their mind before many months are passed.

TWO-DAY BACH FESTIVAL HOLDS ATTENTION

(Continued from page 5.)

cacy that electrified the assemblage and brought the number to a glorious close. The entire number was sung very piano, testing the chorus, ability in a way that forte singing never does. For the most part it sounded not so much like a terrestrial organization that was singing but like a celestial, the harmony as it were being carried from supreme heights and just barely perceptible to human ears.

The second number called into play the work of all the soloists, who displayed their wonderful vocal powers, especially Mrs. Bailey and Mr. Douty, who added new laurels to their crown of musical achievement in the Bethlehems. This number concluded with a chorale sung by the chorus, displaying the wonders that can be wrought out of an apparently simple composition by a chorus that has intelligence and has been trained by a genius in musical interpretation.

The program concluded with the singing of by the audience, choir and soloists, accompanied by the orchestra of a rather unfamiliar chorale "With in Our Inmost Being."

In the evening the compositions were of similar range and style to those of the afternoon, again evoking the most unqualified praise of all auditors.

To-day in connection with the mass in B. minor there will be sung some of the more familiar chorales at the Gesangstunde, which will close each session.

Throughout yesterday's sessions the deepest religious sentiment prevailed. There was an air of sanctity that voiced itself in the part of the congregation in the singing of the chorale.

All in all it was one of these unique events that can occur but seldom and at but few places, deriving its force from the inspiration of the occasion and the spirits back of the event.

Illustrating how the leading journals are interested in the event, LeTemps, of Paris, had a representative on hand in the person of L. S. Lambert the celebrated musical critic. There are many other critics on hand.

A. L. Judson represents "Musical America"; W. H. Humiston, "The Musician," of Boston; Mr. Plummer, "Musical Courier"; L. H. Lovewell, "Music News," of Boston; Dr. Martin Darkow and Rudolph Glueck, of the Philadelphia Morning Tageblatt. The New Music Review is represented by its editor.

Fullerton L. Waldo, of the Philadelphia Ledger; Walter Jerome Flanigan, of the Newark Evening News, were among the many musical critics of the metropolitan papers.

H. W. Krebbiel, of the New York Tribune, reported one of the best critics and an attendant at all previous Bach festivals sent word from his summer home in Maine that he will be unable to attend and sent his regrets.

Monolith Bldg., 45 W. 34 St., New York,
and Marquette Bldg., Chicago, Ill.

Allentown's Slogan—
"DWELL HERE AND PROSPER."

THOUGHT FOR TO-DAY.

Ah! If men but knew what a small dwelling Joy can live, and how little it costs to furnish it.—
Souvestre.

SATISFACTION AT REVIVAL OF BACH FESTIVAL.

Allentown will share the satisfaction which Bethlehem feels in the successful revival of the Bach Festival by the music-loving Bethlehemites under the inspiring leadership of Dr. J. Fred Wolle. The entire valley in fact will rejoice with the Bethlehems that they have come to reclaim their right to the recognition of being the most appreciative community in the world for the music of the great German musician who set standards that are still adhered to and in the interpretation of whose works musicians have not yet, with all their research and study, been able to discover all the hidden wonders and beauties.

Bethlehem is aroused. It has established an enviable reputation. Travelers may go to Bayreuth to hear opera to Oberammgau for the miracle play, to Springfield or Cincinnati for the oratorio but the world must come to Bethlehem to hear Bach rendered in a manner and with a completeness and perfection that perhaps Bach himself in his day never heard. Bethlehem should be jealous of its fame in so notable a cause. It may have its magnificent steel works that will spread its name but the esteem and honor of the world will go out to it in much fuller terms for its encouragement of a great art and the development of a cult that has spirituality as its cohesive influence.

This entire section will not for a moment begrudge Bethlehem any of her honor or importance. It is the result of the natural flowing of an influence in the Bethlehems since its founding. It is from an inbred trait of the people. As it is developed further every other community this section will benefit by the contact and by the example set.

Die Musikwelt.

Musikalisches.

In Bethlehem, Pa., der von den Herrnhutern gegründeten Stadt, findet in diesem Jahre wieder ein Bachfest statt und zwar an den Tagen des 31. Mai und des 1. Juni. Die Konzerte finden wieder in der Pader Memorial Kirche der Lehigh Universität statt und ihr Leiter ist Dr. J. Fred Wolle. Die mitwirkenden Solisten sind: Sopran, Frau Mary Hissem De Moss; Alt, Frau Gertrude May Stein-Bailey; Tenor, Nicholas Douth; Baß, Frank Croxton. Für den instrumentalen Theil ist das Philadelphia Orchester gewonnen. Der Bach Chor von Bethlehem, welcher die Chorwerke aufführt, zählt 200 Stimmen und ist unter seinem Dirigenten Dr. Wolle seit vergangem Winter an der Einstudierung. Dieselbe war äußerst gewissenhaft und verspricht eine treffliche Wiedergabe der Chorwerke. Daß Altmeister Bach in dem deutsch-amerikanischen Eisenstädtchen Bethlehem

solch warme Verehrer hat, gereicht ihren Bewohnern zur Ehre. Wir wünschen dem Feste den besten Erfolg.

Von Streikern angegriffen

Der 19 Jahre alte Schuharbeiter Leon Steele, von No. 2429 Gladstone Avenue, wurde gestern an der Eastern Avenue und Green Straße von zwei streikenden „Inseamers“ Namens Charles Curron und Thos Curron, beide von No. 1129 Bevidere Ave., angegriffen. Seine Hilferufe brachten den Polizisten Weber zur Stelle, welcher die drei Männer verhaftete und unter der Anklage des unordentlichen Betragens einsperrte.

Galant.

Nicht tanzende Damen: „So ist's nett, Herr Doktor! Leisten Sie uns armen Mauerblümchen Gesellschaft!“
„Arme Mauerblümchen? Ich sehe nur reichen Wandschmuck.“

THE BACH FESTIVAL.

Noteworthy Production in Packer
Memorial Church, Lehigh Uni-
versity.

The 1912 Bach festival, to be held in Packer Memorial Church, Lehigh University, South Bethlehem, Pa., on May 31 and June 1, will be marked by two noteworthy features. At Friday's sessions, four cantatas will be rendered, none of which have ever been presented in this country. The orchestral parts are not in print and Dr. J. Fred Wolfe, conductor of the Bach choir, had to send to a Leipzig firm to have copies made from manuscripts. A package containing one of the cantata scores went down in the Titanic, the others being sent on earlier boats. It was discovered that a copy of the desired score exists in New York City, and new parts have now been prepared from it for use by members of the Philadelphia orchestra, who will appear with the Bach choir at Lehigh. The second novel feature will be the introduction of what the Germans call a "Sing-stunde," a half hour of song in which the congregation will join at the conclusion of the cantata, "Strike, O Strike, Long Looked-for Hour." A series of six old church melodies will be sung.

Saturday's sessions of the festival will be devoted to the Mass in B Minor, rendered by the Bach choir of 225 voices under Dr. Wolfe. The mass

was given its first complete rendition in America by the Bethlehem choir on March 27, 1900. Saturday's sessions will begin at 2 p. m. and 5 p. m., for the convenience of out-of-town attendants, who may wish to leave on early trains.

Each session of the festival will be announced by the playing of a chorale by members of the Moravian trombone choir, stationed in the tower of Packer Church, overlooking the Lehigh campus.

Auch in diesem Jahre findet das Bach-Fest in Packer Memorial Church, Lehigh University, in Bethlehem, Pa., unter Leitung von Dr. J. Fred Wolle, Dirigenten des berühmten Bach-Chors, statt und zwar am 31. Mai und 1. Juni d. Js. Während des verfloffenen Winters hat Dr. Wolle mit dem aus 200 Stimmen bestehenden Chor die gründlichsten Proben vorgenommen, welche diesen ganzen Monat noch fortbauern. Die Aufgabe ist eine höchst ehrgeizige, in dem die berühmte H-Moll-Messe des großen Leipziger Thomas-Kantors auf dem Programm steht. Dr. Wolle hat auch für hervorragende Solisten Sorge getragen, und das Orchester wird aus Mitgliedern des Philadelphier Symphonie-Orchesters bestehen. Die Soli-Partien werden von den Damen Mary Hiffem de Mof und Gertrude May Stein-Bailey, sowie von den Herren Nicholas Doutey und Fred Croxon gesungen.

THE SUNDAY CALL

EASTON, SUNDAY, JUNE 2, 1912.

AT LEHIGH UNIVERSITY.

Lehigh Was Host at Bach Festival— Base Ball and Tennis Notes.

Lehigh University acted as host to several hundred music lovers of New York, Philadelphia, Boston, Washington and other cities at the 1912 Bach festival, which closed at Bethlehem, Pa., last (Saturday) evening. The two-day sessions were held in Packer Memorial church on the campus. Many of the visitors had supper on Friday evening in the University Commons.

A change from the degree of analytical chemist to that of bachelor of science in chemistry is permitted graduates of Lehigh, according to a recommendation of the faculty at its last meeting. For several years past graduates in chemistry have been awarded the B. S. degree, in accordance with the best practice today.

Final examinations will be completed on Thursday. The exercises of Commencement week will begin next Saturday.

Lafayette and Lehigh will meet for the third game of the 1912 series at South Bethlehem on June 11. On Thursday, Lehigh defeated Rutgers college, which had won eleven and lost three games this season. Pazetti twirled and kept the Rutgers batters guessing.

The Lehigh tennis team this week won easily from the team of Swarthmore. Lehigh has challenged Lafayette to play off the tennis tie on neutral courts. In both previous matches the score was 3 to 3.

LEHIGH UNIVERSITY

A Successful Bach Festival—Last Week of Examinations

**BACH FESTIVAL AT BETHLEHEM
HAS AN IMPRESSIVE REVIVAL**

*Review of the Unique Choral Event of Friday and Saturday.
Cantatas and B Minor Mass Wonderfully Sung—Dr. Wolle
Directs—Musicians Attend From Distant Points.*

The seventh festival of the Bach Choir, at Bethlehem, under the direction of Dr. J. Fred Wolle, was concluded on Saturday in the performance of the B minor Mass of Bach at the two early and late afternoon sessions.

The afternoon and evening performances consisted of cantatas and chorales, the great audience that assembled in the Packer Memorial Church participating in the latter with an effectiveness that betrayed the musical training of a large proportion of the assemblage from all parts of the country.

It has been seven years since the Bach Choir was last heard in Bethlehem under Doctor Wolle's inspired leadership. The series of performances given in the ancient Moravian church included the Mass in B minor, heard at the first festival, in March, 1900; the Christmas Oratorio, the St. Matthew Passion music and the Mass in the second festival, May, 1901; cantatas and other works at the third festival of May, 1903; and three festivals comprising the so-called Bach cycle of the winter and spring of 1904-5. Doctor Wolle resigned in 1906 to assume the direction of the department of music at the University of California. In the interim his understanding pupil and organist of the festivals, T. Edgar Shields, organized and led the Oratorio Society of the Bethlehems, with a membership of 125. They gave, among other works, Haydn's "Creation" and "The Redemption," Rheinberger's "Cristoferus," Mendelssohn's "St. Paul." Upon the fortunate return of Doctor Wolle to Bethlehem last fall, with a spirit that deserves praise as all too rare, Mr. Shields' organization offered its services as a nucleus round which Doctor Wolle might build a reorganized and greater Bach choir.

Its membership of 225 now includes the best singers of the church choirs of the Bethlehems, in addition to the veterans whom Mr. Shields' earnest musicianship had made invaluable for the determined purpose to revive the festivals that had brought musical renown to the place of their origin.

Lehigh University was glad to extend the hospitality of the beautiful and dignified Packer Memorial Church, with its new and fine organ, and there the rehearsals have been held with a fidelity and consecration on the part of the choir that were the natural response to the magnetic and scholarly leadership. It may be mentioned in passing that Dr. Henry S. Drinker, president of the university, has become president of the Bach Choir.

On Friday afternoon at 3:30 o'clock a choir of ten trombones, stationed in the belfry of the church, announced to all points of the compass the resumption of the performances in the far-carrying strains of several of the hymns long associated with the Moravian form of worship. The Moravian tradition was followed in the manner of the playing, with the marked use of the slide and the strong accentuation of the end of the prolonged notes.

duly suppressed; he played at all times with taste and judgment.

"Soul, Array Thyself With Gladness" and "Strike, Oh Strike, Long-looked-for Hour" were the evening cantatas, with the unannounced Second Brandenburg concerto, for orchestra alone, interpolated between, and the chorales following. Doctor Wolle directed the latter from the organ bench, and his modulations were masterpieces of improvisation. Instead of ending with the very note he expected the choir to take, he finished with the half-note below, and in one instance with the half-note above, and in no case was his confidence in an unerring attack misplaced. When Doctor Wolle directed at his desk—as, of course, was generally the case—the sympathetic intercommunication betwixt the choral forces and their leader was enhanced by the fact that he entirely dispensed with a baton. His eloquent hands told what he wanted, and his whole being vibrated with the message he sought to project and interpret. The direct force of personal magnetism—call it a sort of hypnotism, if you choose—is responsible for a large measure of Doctor Wolle's success; but hard work and a searching scholarliness count for quite as much.

In the first of the evening cantatas Mrs. de Moss sang extremely well her lines of the quest of the ardent and thirsting spirit that meets with no satisfaction short of Heaven, and the 'cello—something similarly like the viola d'amore asserted itself in an obligato resembling that of the famous aria "Be Thou Faithful Unto Death" in Mendelssohn's "St. Paul."

Mrs. Bailey quite outdid herself in the delivery of the ingratiating melodic gaiety of the repeated line "Sun of life, my spirit's radiance," in which the whole cheerful temper of Bach's manly religion is illumined. Nicholas Douty's "Arise My Soul, Thy Saviour Comes" was sung in a way to confirm his reputation as an oratorio and cantata singer who has no superior in this country, and probably in any country. The tremendously difficult and fluid air was uttered with a lyric buoyancy and freedom as different from the perfunctory appeal of the usual singer of so-called "religious" music as the voice of the bird of the forest is unlike its mechanical imitation.

The instrumental interstices again pointed to the excellence of the oboe, the able flute and the mellow strings—heard all the more clearly for their full value because of the absence of any brazen tyranny.

These good qualities were especially to the fore in the Brandenburg concerto, followed by Mrs. Bailey's dramatic setting forth of "Strike, Oh Strike, Long-looked-for Hour" (when the glockenspiel accented the word "strike"), and the five chorales, which proved that the audience, warming to the inspiration of the festival, was more willing to find its mighty corporate voice than in the afternoon.

The crowning and closing work of the festival was the great Mass in B minor, sung in Latin, and given in two portions on Saturday afternoon. The first part comprised the Kyrie and the Gloria, the second consisted of the Credo, Sanctus, Benedictus and Agnus Dei, the work being given without cuts. Each portion required slightly less than an hour and a half for the delivery. After the usual prelude from the belfry, the trombones stationed near the organ played the simple melody of a hymn and the echoes had not died away when the choir, with a thrilling sforzando, struck the first words of the noble invocation, "Kyrie Eleison!" The succeeding phrase, "Christe Eleison," was given to the firm assurance of the soprano and alto soloists in conjunction, and the choral climax followed.

The brasses—idle, of course, in Friday's cantatas—now found their voices, as trumpets and drums, reinforcing the strings, announced the beginning of the Gloria. Again and again the peeling trumpets designedly spoke with all their might, a tremendous interpolation being theirs when the chorus sang the words, "Sancto Spiritu" at the close of the Gloria. In the opening phrases of the Credo, the last syllables of the "Dona Nobis Pacem," at the close of all the

fraudulent, and all practice based upon such theory as fraudulent, and I further said that if that was osteopathy, then osteopathy was a fraud. I have looked up in the Carnegie reports prepared by Abraham Flexner to see what kind of reports the osteopathic profession maintains. (This report criticizes several phases of the conduct and management of some of the osteopathic colleges quite severely, and finds some criticism against all of them. In this respect, however, most of the medical colleges of this country fare no better and some much worse than do the osteopathic colleges.)

ENTERED AT THE PHILADELPHIA POSTOFFICE AS
SECOND-CLASS MAIL MATTER.

PHILADELPHIA, MONDAY, JUNE 3, 1912.

At 4 o'clock the choral service began, and lasted an hour and ten minutes. Many of the visitors were surprised at the brevity of the performances, by which all risk of satiety was obviated.

The audience, casually observed, did not look like one that would be easily stirred and uplifted by the profound message of Bach's polyphony: decked in the gayest of spring raiment, with a large admixture of persons of fashion and evident social consequence, one might have been led to question the impact of Bach's contrapuntal austerities on such a gathering. But, as one studied the throng in the nave and transept, it was easy to discern the interested presence of some of the foremost musicians of Philadelphia and of this part of the country, and in the chorales the many who fervently raised their voices from the body of the church showed that they knew how to sing and could read at sight the score set down for them in the programme book. The choir, attired in plain white and black, the men grouped in the middle, included sopranos in two divisions, for the requirements of the B minor Mass, instead of the conventional classification. There were 60 first sopranos, 25 second sopranos, 43 altos, 28 tenors, 42 basses. The admirable accompaniment was provided by members of the Philadelphia Orchestra, with Harry Meyers as the concertmeister, T. Edgar Shields was the organist, and the carefully chosen soloists, who acquitted themselves with signal distinction, were Mary Hissam De Moss, soprano; Gertrude Stein Bailey, contralto; Nicholas Douty, tenor; Frank Croxton, bass.

The first of the cantatas—Bach wrote no less than 190—was "It Is Enough"; the second, sung on Friday afternoon, was "Christian, Stand With Sword in Hand," and, finally, there were chorales. In the first-named work Mr. Croxton had his heroic opportunity, for five out of the six verses—all but the final eight lines—are given to the solo voice. At times the singing is supported by the orchestra alone (woodwind and strings), then by the organ, and then by the commingling of the instruments. The soloist, uniting ample tonal resources to a comprehension of the simplicity and exalted idealism of the text, filled the church with a resonant volume of sound that accurately bridged the difficult intervals and traversed the abstruse passages. In its share, the seated chorus, singing without accompaniment, electrified the audience with a chant of the most ethereal and delicate pianissimo, so exquisite and pure that upon many requests Doctor Wolle began the evening performance with the repetition of the verse. In the second cantata all four of the soloists were heard to beautiful advantage, after an orchestral introduction of martial rhythm in which the refined tone quality of the strings was particularly worthy of note. A delicious fugal interlude of flute, cello and organ was intercepted and continued by the pellucid voice of Mrs. De Moss, and the full choral climax was followed by the chorals, after a modulation which emphasized the tact, delicacy and perfect sympathy of Mr. Shields in all his accompanying with the organ. At no point was his instrument overassertive or un-

trumpets fairly shouted. Bach was not writing for a short auditory range—if these notes woke the echoes in the green-clad surrounding hills it was part of his design to make a joyful noise unto the Lord, even if to those who sat near the sound was well-nigh overwhelming.

The "Gloria" was filled with sharply accentuated contrasts, elicited by those wonderfully appealing hands and versatile fingers of Doctor Wolle. When the contraltos entered in "Qui tollis peccata," with the plea for mercy, it became a great wall of anguish, as the voices, outwelling and again receding, besought the intercession of the Lamb of God. The oboe, at all times beautifully handled, sang the obligato for the alto aria that followed; the French horn, with liquid sonority, accompanied the bass in its succession. The final chorus "Sum Sancto Spiritu," was a mighty and inspiring climax, in which the technical difficulties were multiplied.

The "Credo" opened with an announcement of belief that carried conviction, the congregation by this time was one in its worshipful sense with those who sang, and after the beautiful duet of alto and soprano the choir again achieved, in the words of the Incarnation, the same remarkable pianissimo effect that had been so impressive in the first of the cantatas. With the words, "He suffered and was buried," the sound died away to the merest whisper, only to soar upward magnificently with the words "He rose again," with a buoyant jubilation like lines of fire leaping and running along the hilltops. Again the trumpets rejoiced toward the conclusion and again Mr. Croxton's resonant voice was heard with the mellow obligato of the oboe in its support. His voice is particularly fortunate with the unctuous and mouth-filling Latin syllables which gave the whole work from first to last a dignity the English text would not have attained.

Another of the profoundly impressive contrasts that are the life of Doctor Wolle's interpretation came in the change from "the resurrection of the dead," to "the life of the world to come," where the word "mortuorum" was uttered with funereal gravity, and the following phrase was instinct with hope and rejoicing. The choir fairly sprang upon the "Sanctus," where the word alternated with the soft and low-breathed "Dominus" in dramatic fashion. Mr. Douty had his most conspicuous chance of the day, an opportunity that was well improved, in the Benedictus.

Perhaps the most beautiful feature of the entire festival was Mrs. Bailey's singing of the "Agnus Dei," with the strings and especially the concertmeister's violin upholding the voice. The audience was transfixed by as perfect a performance of this touching appeal of human impotence to Divine power as one could hope to hear. It was not merely that Mrs. Bailey sang the notes with every resource that art could bring to bear, or that the quality of the tone evoked was luscious and soul-satisfying and found the heart, but it was quite evident that the singer felt to the core of her being the message given her to communicate; and the effect could not be otherwise than intensely moving, to the power of tears in the case of some of the auditors.

The final chorus, "Dona Nobis Pacem," with the reiterated appeal of the trumpets, brought to a close the great B minor Mass and the seventh festival.

THURSDAY, MAY 16, 1912

The Great Bach Festival!

Soloists for the Bach Festival to be held in Packer Memorial Church, Lehigh University, on May 31 and June 1, were announced last week by Dr. J. Fred. Wolle, conductor of the Bach Choir. They are: Soprano, Mrs. Mary Hissem deMoss; contralto, Mrs. Gertrude May Stein-Bailey; tenor, Nicholas Douty, and bass, Frank Croxton. The orchestral parts will be played by members of the Philadelphia Orchestra.

Mrs. Bailey and Mr. Douty have sung at all six of the previous festivals in Bethlehem; Mrs. deMoss appeared at the last four. Mr. Croxton is a bass who was soloist on recent tours of the Pittsburgh Festival Orchestra and the Victor Herbert Orchestra. During the past winter the Bach Choir of 200 voices has been working hard under the direction of Dr. Wolle, and during the present month rehearsals on the difficult choruses of the Mass in B Minor, are frequent, indeed. The Choir is determined to make its resumption of festival work a performance equal to the standards of its earlier renditions. This festival is a great musical event and a number of persons of Lititz attend it annually.

Soloists for Bach Festival

Soloists for the Bach Festival to be held in Packer Memorial church, Lehigh University, on May 31 and June 1, were announced this week by Dr. J. Fred. Wolle, conductor of the Bach Choir. They are: Soprano, Mrs. Mary Hissem deMoss; contralto, Mrs. Gertrude May Stein-Bailey; tenor, Nicholas Douty, and bass, Frank Croxton. The orchestral parts will be played by members of the Philadelphia Orchestra.

Mrs. Bailey and Mr. Douty have sung at all six of the previous festivals in Bethlehem; Mrs. deMoss appeared at the last four. Mr. Croxton is a bass who was a soloist on recent tours of the Pittsburgh Festival Orchestra and the Victor Herbert Orchestra.

During the past winter the Bach Choir of 200 voices has been working hard under the direction of Dr. Wolle, and during the present month rehearsals on the difficult choruses of the Mass in B Minor are frequent, indeed. The choir is determined to make its resumption of festival work a performance equal to the standards of its earlier renditions.

The Seventh Bach Festival at Bethlehem

S. HARRISON LOVEWELL

The seventh Bach Festival at Bethlehem, Pa., began on the afternoon of a charmingly beautiful day—a day when nature had completely outshone itself in producing those conditions of physical comfort that should be best adapted for the keenest enjoyment of the masterpieces of the greatest of German cantors. After hearing the Bach Choir in its glorious artistic efforts, directly there is realized that this music is that of a living, human Bach, superhuman and colossal in the technic of invention and perpetually the unsurpassable master of that devoutness of expression which ever transcends the fallible skill and sensuousness of all other masters.

By no means should this Bach festival be called a religious function; nevertheless, the subdued lighting of the Packer Memorial Chapel on the campus of Lehigh University, and the uncommon purity of the scenic situation and surroundings, in a true sense combine to

FRANK CROXTON

make a truly religious impression on the sensitive listener. In Bethlehem there assembles an audience schooled and educated in this type of sacred music—an audience that almost feasts wantonly upon Bach, but also one that displays a well-balanced taste in matters of fine discrimination.

It is hard to imagine that a festival such as that of the Bach Choir could be held elsewhere in our country. To account for the remarkable musical atmosphere which makes Bethlehem unique, it becomes necessary to call to mind very briefly some of the facts relative to the settlement of the Moravians in this community in 1741.

On the brow of the hill, and within a stone's throw northwest of their present church edifice, was the site of their first

log house and in which, in the presence of Count Zinzendorf, was celebrated the beautiful custom of the observance of the Christmas vigil. Somewhat after the German fashion, one part of the building housed the cattle of these religious refugees, while the other part was also used as a church. The mood of these first settlers was subdued. The hour was late. Count Zinzendorf rose from his place and led his companions to the part of the building where the cattle were stalled. Amid these humble surroundings, softly he intoned that exquisite Epiphany hymn of Adam Drese, "Jesu rufe mich," with its fond allusions to Bethlehem, the "Home of Bread." Then it was that Bethlehem became the name of the community in which for one hundred years church and state were not separated. And from the first, music was most assiduously cultivated and entered into all the affairs and daily avocations of life, whether by means of Singstunde, Liturgien, trombone choir, string quartet, small orchestra or large choral body. Long before other sections of America, Bethlehem enjoyed renditions of Haydn quartets, his oratorios, his symphonies, and the archives also contain some of the earliest compositions written in America, besides the rare music of the Mannheim school. Above all in importance, and the culmination of a century and a half of earnest effort, stand those performances given over to the masterpieces of Bach's transcendent genius!

The Bach Choir was revived after a lapse of six years. Rehearsals were begun last October, but it was already January before there was much organized effort. But few of the voices that formed the choir in the other great festivals are in the choral body of today. It matters little; the present chorus is reputed as being superior in balance of tone and quality of tone to any former chorus. Others, and their number is large, openly confess that there is no better choral body in America. That fact might as well be conceded. Even the supremely massive five, six and eight-part choruses of the Mass are sung with perfect ease unaccompanied.

The soul of all is Dr. J. Fred Wolle. He is the most unique musician in America today. Magnetically and irresistibly he sways his singers, and instrumentalists as well, along emotional lines from the tenderest feelings upward to a grandeur that is not alone inspiring but even overawing. The Bach Choir follows the impulses of the conductor, and the conductor, as it were, extemporizes his interpretation of the music, being guided by momentary emotions much more than carefully thought-out reasonings. He lives his Bach. As one listens, there is always the thought that possibly Bach may have heard his

music in just this way. There is no technic obtruding the clear vision of the spirit of the music. It is simply marvelous, and the wonder of it all displaces criticism, and enthusiasm takes full possession of one.

■ ■ ■

For the first two performances the orchestral accompaniments were played by twenty-five members of the Philadelphia Orchestra. Brass and percussion instruments were added for the performance of the High Mass. The first program on the afternoon of Friday, May 31, consisted of two cantatas and some selected chorales sung by choir and congregation. The first cantata was written for bass solo for the Feast of Purification, and is called "It Is Enough." The introduction to its first aria is quaintly mournful, simple, beautiful. The vocal part is large and resonant. There are fine echoing imitations between the voice and orchestra. "Thy Word I Believe" expresses full trust and confidence, while the German fioratura on "gladness" is supreme in joy. The reprise of the prelude is meditative and reflective in meaning. The Bach idiom is heard in the recitative leading into the second aria, "Slumber on, O weary spirit; softly, calmly take thy rest," an aria whose melodic and harmonic progressions seem to have been divinely conceived. "World, Farewell" is most intense in sustained feeling and overcoming in fervor. As a whole, this aria is as charming a slumber song as has ever been penned. The arioso "World, Good Night" is very impressive. It is followed by an aria, "With Gladness Will I Now Depart," whose joyful instrumental figures are transferred to the singer's part. Any other composer would have made a work of this kind superficial; but, in spite of its buoyancy, it is in nowise shallow. The music was superbly sung by Mr. Frank Croxton of New York.

To this cantata was added the chorale, "World, Farewell! Thy Joys Are Dreary," sung a cappella, and sung with the finest and minutest ethereal pianissimo ever heard; the parts perfectly blended, bass organ-like, individuality of parts maintained, and in effect as though sung by a celestial choir. It was generally acknowledged that such singing was a revelation and positively an exceptional occurrence even in Bethlehem! It was repeated at the evening performance.

Quite the opposite of this exquisitely-shaded number was the solid massivity of the chorus in the opening of the cantata, "Christian stand." After the usual model employed by Bach in his cantatas, the first chorus is a rhythmical paraphrase of the concluding chorale "Straf mich nicht," strophically worked out and interspersed with instrumental interludes, and preaced by an elaborate prelude. A second theme—if it may be so called—for oboe and flutes, colors it with a purer, clearer tone. Mrs. Stein-Bailey gave a beautiful rendition of the alto solo, "Ah, Slumbering Watchman," and worthy of special mention was the

fine delicacy and agility of voice in the allegro "If Haply the Master Shall Suddenly Call Thee." The recitative, "God Has Ordained," was sung by the bass soloist gloriously.

The imitations between flute and cello in the soprano aria, "Pleading, Draw Thou Near in Prayer," brought in a wholly different color scheme. It was sung and played most sympathetically. Its musical values were most intense on the words, "Trusting Him, for thou art dear." The soprano soloist was Mrs. Hissem-DeMoss, and this aria was one of the real gems of the first day's performance. The concluding chorale was magnificent. Indeed, the singing of the chorales in the afternoon and evening performances was a distinct revealing of an excellence never heard from other choral bodies.

■ ■ ■

Dr. Wolle has been very fortunate in his selection of solo voices and in his orchestra. Mingling with the orchestral players demonstrates a remarkable enthusiasm on their part and each and all remark that they have heard nothing equal to the choral work of the Bach Choir either here or abroad. As in the afternoon, the performance in the evening was begun by the playing of three chorales in the tower, one hundred feet or more above the ground, by the trombone choir, a feature that adds much to the impressiveness of the occasion, although a common custom among the Moravians. Beside the chorales selected for the evening as a kind of Singstunde for choir and congregation, two cantatas had been chosen, the first being "Soul, Array Thyself with Gladness." The opening chorus is a free figuration of the chorale, "Smuecke dich, O liebe Seele," its pastorate prelude being of somewhat coarse fibre but possessed of a broad, sweeping effect. There are gentler moments, and the cadences are peculiarly interesting harmonically because of their second sub-dominant tendencies. This chorus is succeeded by an aria that must be considered thus far known as the most difficult ever written. It is very rapid, and beyond all measure florid, while to make it more difficult seemingly, it has an obligato flute in the accompaniment. Nevertheless, it was cleverly sung by Mr. Nicholas Douty of Philadelphia, who has sung at all the Bach festivals. In spite of Mr. Douty's beautiful tenor voice, this solo on "Arise, My Soul, Thy Savior Comes," has less intrinsic value because of the impossibility of a subservient mastery of its technical demands. The third movement, an arioso preceded by a recitative, was beautifully sung by the soprano. The accompaniment, mostly cello obligato, was thick and lugubrious. More grateful was the fifth movement, an aria for soprano, full of naive joyfulness and lightened by splashes of color in a very free orchestration and having a rhythm that is infectious. By all odds, the gem of the evening. At the conclusion of the bass recitative, Bach has written an arioso in which there is heard the notes of

The Seventh Bach Festival at Bethlehem

S. HARRISON LOVEWELL

The seventh Bach Festival at Bethlehem, Pa., began on the afternoon of a charmingly beautiful day—a day when nature had completely outshone itself in producing those conditions of physical comfort that should be best adapted for the keenest enjoyment of the masterpieces of the greatest of German cantors. After hearing the Bach Choir in its glorious artistic efforts, directly there is realized that this music is that of a living, human Bach, superhuman and colossal in the technic of invention and perpetually the unsurpassable master of that devoutness of expression which ever transcends the fallible skill and sensuousness of all other masters.

Long before other sections of America, Bethlehem enjoyed renditions of Haydn quartets, his oratorios, his symphonies, and the archives also contain some of the earliest compositions written in America, besides the rare music of the Mannheim school. Above all in importance, and the culmination of a century and a half of earnest effort, stand those performances given over to the masterpieces of Bach's transcendent genius!

The Bach Choir was revived after a lapse of six years. Rehearsals were begun last October, but it was already January before there was much organized effort. But few of the voices that formed the choir in the other great festivals are in the choral body of today. It matters little; the present chorus is reputed as being superior in balance of tone and quality of tone to any former chorus. Others, and their number is large, openly confess that there is no better choral body in America. That fact might as well be conceded. Even the supremely massive five, six and eight-part choruses of the Mass are sung with perfect ease unaccompanied.

The soul of all is Dr. J. Fred Wolle. He is the most unique musician in America today. Magnetically and irresistibly he sways his singers, and instrumentalists as well, along emotional lines from the tenderest feelings upward to a grandeur that is not alone inspiring but even overawing. The Bach Choir follows the impulses of the conductor, and the conductor, as it were, extemporizes his interpretation of the music, being guided by momentary emotions much more than carefully thought-out reasonings. He lives his Bach. As one listens, there is always the thought that possibly Bach may have heard his

the ensuing chorale. This chorale, unaccompanied, glorifies the whole cantata and has a wonderful effect. The three cantatas rendered at these two concerts have never before been sung in America and are worth many repetitions.

As a further enhancing of the beauty of the program there was performed the slow movement of the F major Brandenburg "Concerto," and it was listened to most attentively, and even reverently, by the large audience.

Mrs. Bailey was heard to great advantage in the solo cantata, "Strike, Oh Strike, Long-looked-for Hour," in slow three-two time with intermittent and effective strokes of the bell. At its conclusion Dr. Wolle accompanied on the organ the choir and congregation in the singing of several chorales, and brought all to a climax by "Ein feste Burg ist unser Gott." His organ playing, like his conducting, is an inspiration to all.

The second day was devoted to the performing of the High Mass in B minor, a work that has been given several times in Bethlehem, and even brought to such perfection that on one former occasion most of the choruses were sung by heart. Can this be duplicated in America? After this colossal art work, there is no music. Your correspondent read one time that in a certain cathedral city of Europe the choral society mastered the B minor Mass, and as they were proceeding with their study of it, more and more they came to the realization that afterward no work could take its place. It is then an unicum among art works. I shall not enter into any details respecting this masterpiece. It is enough to say that its rendition was masterly and grand. Much of the success was due to the wonderful patience, and even genius, on the part of Dr. J. Frederick Wolle, his enormous enthusiasm, his inspiring bearing before his choral and instrumental forces, and his extraordinary interpretative gifts. Fortunately, he had the assistance of an excellent solo quartet, an excellent orchestra, an excellent organist and a competent business management. Many thanks should be extended for the courtesies shown by the people of Bethlehem, and especially by the authorities of Lehigh University. At all times there was a fine spirit of good-fellowship abroad that made all seem perfectly at home.

CHAPEK COMMENCEMENT

The commencement of the Chapek Music School will be held this (Friday) evening at the Auditorium Recital Hall.

Arizona School of Music—Mrs. Shirley Christy presented Miss Fay De Mund and Miss Hazel De Mund in joint recital at Phoenix, Ariz., last Monday evening.

Virgil School.—A summer course will be held at the Virgil Piano Conservatory, 42 W. Seventy-sixth street, New York. Circulars on application.

Soloists for the Bach festival to be held in Packer Memorial Church, Lehigh University, South Bethlehem, on May 31 and June 1 were announced last week by Dr. J. Fred Wolle, conductor of the Bach choir. They are: Soprano, Mrs. Mary Hissem de Moss; contralto, Mrs. Gertrude May Stein-Bailey; tenor, Nicholas Douty, and bass, Frank Croxton. The orchestral parts will be played by members of the Philadelphia Orchestra.

Mrs. Bailey and Mr. Douty have sung at all six of the previous festivals in Bethlehem; Mrs. de Moss appeared at the last four. Mr. Croxton is a bass who was soloist on recent tours of the Pittsburgh Festival Orchestra and the Victor Herbert Orchestra.

During the last winter of the Bach choir of 200 voices has been working under the direction of Doctor Wolle, and during the present month rehearsals of the difficult choruses of the mass in B minor are frequent. The choir is determined to make its resumption of festival work a performance equal to the standards of its earlier achievements.

AT LEHIGH UNIVERSITY.

Interesting Scholastic Notes of Nearby Institution—Base Ball Summary.

Dr. R. M. Jones, professor of Philosophy at Haverford college, will be the speaker in Packer Memorial church, Lehigh university, this (Sunday) afternoon, at the third of the spring series of religious services.

J. A. Roush, a graduate of the University of Indiana and of the University of Wisconsin, has been appointed to fill the vacancy in Lehigh's metallurgical department, caused by the resignation of Associate Professor W. S. Landis, who has become technologist for a chemical manufacturing company. Mr. Roush has spent six years in practical blast-furnace work, specializing in the manufacture of carbon electrodes.

The Lehigh student body has received permission to re-establish "The Burr," a literary monthly popular in the University's earlier days. The well-known novelist, Richard Harding Davis was one of "The Burr's" former editors.

The list of thesis subjects to be presented by candidates for degrees at Lehigh in June was made public last week. There are 116 candidates in all, the largest number, thirty-three, being in the Civil Engineering department, with twenty-four in the Electrical and twenty-two in the Mechanical Engineering departments. Commencement exercises will extend from June 7 to 11, inclusive.

William Bowie, a Lehigh graduate in the class of 1895, is the joint author, with John F. Hayford, of a book on "The Effect of Topography and Isostatic Compensation Upon the Intensity of Gravity." Mr. Bowie is inspector of geodetic work and chief of the computing division of the coast and geodetic survey at Washington, D. C.

A summary of Lehigh's base ball season up to date shows that the "Brown and White" has won three games, lost six, and tied one. The team's best work thus far was in the Columbia university contest which Lehigh won, and in the scoreless encounter with Tufts college.

Soloists for the Bach festival to be held in Packer Memorial church, Lehigh university, on May 31 and June 1, were announced this week by Dr. J. Fred Walle, conductor, of the Bach choir. They are: Soprano, Mrs. Mary Hissem deMoss; Contralto, Mrs. Gertrude May Stein-Bailey; Tenor, Nicholas Donly, and Bass, Frank Croxton. The orchestral parts will be played by members of the Philadelphia orchestra.

LEHIGH UNIVERSITY

Dr. Jones of Haverford Speaks—"The Burr" Re-established

Dr. R. M. Jones, professor of philosophy at Haverford College, was the speaker in Packer Memorial Church, Lehigh University, yesterday afternoon, at the third of the spring series of religious services.

J. A. Roush, a graduate of the University of Indiana and of the University of Wisconsin, has been appointed to fill the vacancy in Lehigh's metallurgical department caused by the resignation of Associate Professor W. S. Landis, who has become technologist for a chemical manufacturing company.

The Lehigh student body has received permission to reestablish the Burr, a literary monthly popular in the university's earlier days. Richard Harding Davis was one of the Burr's former editors.

THE ALLENTOWN MORNING CALL, MONDAY, APRIL 22, 1912.

TWO

LEHIGH UNIVERSITY.

Eminent Scholars Addressed Lehigh Students This Week—Athletics.

Paul Elmer More, editor of The Nation, gave an address on "Science Is A Philosophy of Life," before a large audience of Lehigh students and townfolk of the Bethlehems in Packer Memorial Church on Thursday evening. Mr. More was present upon invitation of Phi Beta Kappa and Tau Beta Pi, the honorary societies of the University, whose guest he was at a

banquet following the address.

Dr. Proteus Steinmetz, Professor of Electrical Engineering at Union College and consulting engineer of the General Electric Co., was the speaker last evening at the April meeting of the student Electrical Engineering Society of Lehigh.

E. L. Knoedler of the Welsbach Light Co. addressed the Lehigh Chemical Society at its meeting in the home of President Drinker on Tuesday evening.

All college exercises were suspended on Monday afternoon, when

the funeral of William A. Lathrop, President of the Lehigh Coal and Navigation Co., took place at Wilkes-Barre. Mr. Lathrop was a graduate of Lehigh in the class of 1875, and for many years was President of the Board of Trustees of the University.

Walter S. Landis, Associate Professor of the Metallurgical Department of Lehigh, has resigned to become technologist for a large European manufacturing chemical company.

Lehigh's team held the Lacrosse sturdy twelve of the Carlisle Indian school to a 5 to 4 score on a field that

was a mass of mud. Wednesday. Lehigh replaces Lafayette on Carlisle's football schedule for next Fall.

The inter-class track and field meet will be held on Lehigh field next Friday, when the large group of candidates now out will have their first regular try-out. Prospects are bright for a good team. Lehigh schedule includes meets with Rutgers, Swarthmore, Haverford, and Lafayette teams will be sent to the University of Pennsylvania and the Harrisburg inter-collegiate meets.

THE SUNDAY CALL

AT LEHIGH UNIVERSITY.

Important News Items from the South Bethlehem Institution of Learning.

In a lecture on "Present Conditions in China" at Lehigh University on Saturday, Arthur Rugh, who spent some years in China, paid tribute to Harvard for its support of medical research to determine the cause of various Oriental diseases. Mr. Rugh predicted that the next fifteen years will see marvellous development in China's industrial life, and he advised young men looking for a field of work to go there. In the evening Mr. Rugh addressed the Lehigh Christian association on religious activity in China.

President Drinker attended the annual meeting of the Pennsylvania State Forestry association at Harrisburg last week. Prof. W. S. Franklin gave a lecture on "The Gyroscope" before the Engineers club in Baltimore on Friday.

One hundred and five members of the senior class of Lehigh University were gathered at a banquet in the Eagle hotel, Bethlehem, last Thursday night. An elaborate menu was served. With the serving of the coffee and cigars Toastmaster Edwards, also president of the class, read a letter from Dr. H. S. Drinker, president of Lehigh University, expressing regret at not being present. Registrar Emery, Prof. J. L. Stewart and Prof. W. L. Wilson, members of the Lehigh University faculty, and guests of the class, responded to the invitation of the toastmaster.

Lehigh has just completed the most successful basketball season in her athletic history. The schedule closed with last Saturday's victory over Swarthmore, remarkable because the Garnet five had not suffered a single defeat prior. Swarthmore had beaten the Army, the Navy, University of Pennsylvania and other strong teams. Lehigh's list of "wins" includes contests with Brown, Penn. State, Gettysburg and others. The Brown and White team lost to Princeton by one point in the last forty seconds of play. Stanley E. Muthart, of Reading, the speedy forward who scored 247 points during the season, has been elected captain for next year.

The March meeting of the athletic committee of Lehigh University was held Thursday afternoon in Drawn hall with the following members present: Prof. W. L. Wilson, Prof. H. R. Reiter, Vice-President Emery, S. L. Harleman, R. B. Bird, V. B. Edwards, '12, and G. P. Flick, '14. The base ball schedule for this spring was submitted by Manager Baird and was approved. The election of G. S. Simpson, '14, to the position of an assistant manager of the football team was also approved. It was also decided to award to the managers of the teams of 1910-1911 the insignia which was awarded to their respective teams.

Faculty Club Hears About Baseball—Current Happenings

Members of the Lehigh University Faculty Club were the guests of the Faculty Club of Lafayette College at the baseball game between the nines of these institutions at Easton, Pa., on Saturday. The Lehigh teachers were tendered a dinner in the evening at which the subject of discussion was "The Ethics of Summer Baseball."

General W. E. Doster of Bethlehem, who recently made his sixty-seventh trip to Europe, spoke at Lehigh on Friday on "Tapestries." "The Mining Resources of the Country" was the topic presented by Joseph A. Holmes, director of the United States Bureau of Mines, before the Lehigh student body on Friday morning. Chief Justice Isaac Franklin Russell of the New York city Court of Special Sessions, addressed the Lehigh Politics Club at its closing meeting of the year.

Dr. Henry R. Price, '70, of Brooklyn, N. Y., is the new president of the Lehigh board of trustees, succeeding the late W. R. Lathrop. Samuel D. Warriner, '90, of Wilkesbarre has been elected to the vacancy in the board.

DAVID A. MILLER Proprietor
PERCY B. RUHE Editor
PETER W. LEISENRING... Business Mgr.
CLARENCE J. SMITH City Editor
GEORGE F. ERDMAN... Telegraph Editor

The Morning Call is delivered to subscribers in Allentown at: One month, 40c; one year, \$4.50 in advance.

Circulates mainly in Lehigh, Northampton, Carbon, Bucks, Berks and Montgomery Counties, Pennsylvania.

A superior advertising medium because of its well balanced and thorough distribution.

rected on tour by the organizer W. C. Cameron and is headed by the only "Zallah", the classiest dancer before the American public.

LEHIGH UNIVERSITY.

Judge Isaac F. Russell, Chief Justice of the Court of Special Sessions of New York City will address the Politics Club of Lehigh University next Friday evening. The Lehigh student body on Saturday heard a talk on "Your Prospects," by James M. Dodge, chairman of the Link Belt Co. of Philadelphia and ex-president of the American Society of Mechanical Engineers.

Right Rev. Ethelbert Talbot, bishop of Bethlehem, will preach the baccalaureate sermon to the Lehigh graduates in Packer Memorial Church on University Sunday, June 9. The alumni address at the commencement exercises on June 11 will be given by Hon. W. D. B. Alney, '87, member of

Congress from the Fourteenth District of Pennsylvania.

Prof. H. M. Ullman represented Lehigh at the recent Centenary of the Use of Gas as an Illuminant.

The Lehigh Freshmen lost an exciting ball game to the fast nine of Allentown Preparatory School on Wednesday, 7 to 6. The 1915 collegians rallied in the eighth and ninth, but couldn't overcome the A. P. S. lead. The best work at the bat for Allentown was done by Williams and Surray, while for the Freshmen, Miller and Vance excelled with the stick.

New Houses Going Up.

Max Rosenberg has begun the building of three two and a half story houses on the West side of Second street between Chew and Gordon.

It also develops that more lifeboats should be carried by the Mississippi Valley.—Glens Falls Times.

CONSERVATION OF SCHOOL CHILDREN

A Conference to be Held at
Lehigh University.

A NOTABLE GATHERING

Under the Auspices of the American
Academy of Medicine Tomor-
row and Thursday.

Prominent educators and physicians from all points of the East and Middle West will arrive here tomorrow to attend a conference on conservation of school children, to be held in Drown Memorial Hall, Lehigh University, on Wednesday and Thursday, under the auspices of the American Academy of Medicine. This conference is one of national importance and promises to be of unusual interest and value.

Lehigh University will act as host to the visiting members of the academy and it is planned to make their stay here as pleasurable as possible. Citizens of the Bethlehems in general, and those in particular who are interested in educational matters, are cordially invited to attend the sessions of the conference.

The program tomorrow will be as follows: (First session, 2 p. m.; "Deficient and Backward Children;" presiding officer, Alexander Richter Craig, A. M., M. D., Chicago, President of the American Academy of Medicine; Committee on Program, G. Hudson-Makau, A. M., M. D., and Walter S. Cornell, J. S., M. D., Philadelphia, and E. R. Johnstone, Vineland, N. J. 1. Greetings and response; 2. "Remediable Conditions in the Feeble-Minded and Backward," Walter Stewart Cornell, B. S., M. D., Philadelphia, lecturer on Child Hygiene, University of Pennsylvania.

Discussion: To be opened by Maximilian P. E. Groszmann, Ph. D., Plainfield, N. J., Educational Director of the National Association for the Study and Education of Exceptional Children; H. M. Carey, M. D., Spring City, Superintendent Eastern Pennsylvania Institution for the Feeble-Minded and Epileptic; 3. "Sterilization and Segregation," Henry H. Goddard, Ph. D., Vineland, N. J., Director of Research in the Vineland Training School for Backward and Feeble-Minded Children.

Discussion: To be opened by Alexander Mirey, Jr., M. D., Riverton, N. J.; 4. "How to Secure State Appropriations for the Proper Care of the Feeble-Minded," Joseph S. Neff, M. D., Philadelphia, Director of Public Health and Charities.

Discussion: To be opened by E. R. Johnstone, Vineland, N. J., Superintendent of the Training School for Backward and Feeble-Minded Children; 5. "How Far Shall the Public School System Care for the Feeble-Minded" (a) Andrew W. Edson, New York, Associate City Superintendent of Schools in the city of New York; (b)

J. H. Van Sickle, Springfield, Mass., Superintendent of Schools; (c) E. Bosworth McCready, M. D., Pittsburgh, Medical Director, Hospital School for Backward Children.

Discussion: To be opened by Wm. C. Schauffler, A. B., M. D., Lakewood, N. J., President of the State Board of Education of New Jersey.

Second session, 7:30 p. m.; "Conservation of School Children;" presiding officer, Henry S. Drinker, LL. D., President Lehigh University; address by Owen H. Lovejoy, Secretary of the National Child Labor Committee.

On Thursday the subjects will be "Teaching Hygiene" and "Medical Inspection;" Health Commissioner Samuel S. Dixon will preside at the afternoon session on Thursday.

LEHIGH UNIVERSITY

The Commencement Programme—Current Happenings

The programme of commencement week at Lehigh University follows:

Friday, June 7—8 P. M., Calculus Cremation on the Campus.

Alumni Day, Saturday, June 8—11 A. M., annual meeting of Alumni Association; 1 P. M., luncheon in College Commons; 3.30 P. M., baseball, Lafayette vs. Lehigh; 9 P. M., reception by President and Mrs. Drinker.

University Sunday, Sunday, June 9—11 A. M., baccalaureate sermon by Right Rev. Ethelbert Talbot, D. D., LL. D., Bishop of Bethlehem.

Class Day, June 10—2 P. M., Class Day exercises; 7.30 P. M., "The Kahn of Kathan," by the Mustard and Cheese Dramatic Association; 9.30 P. M., junior reception to senior class.

University Day, Tuesday, June 11—10.30 A. M., Commencement exercises; alumni address by Hon. W. D. B. Alney, '87, member of Congress from the fourteenth congressional district of Pennsylvania.

Judge Isaac F. Russell, chief justice of the Court of Special Sessions of New York city, will address the Politics Club of the University next Friday evening.

Professor H. M. Ullman represented Lehigh at the recent centenary of the use of gas as an illuminant.

THE SUNDAY CALL

LEHIGH UNIVERSITY.

Commencement Program Announced—Happenings of the Week.

The program of commencement week at Lehigh University has just been announced, as follows:

Friday, June 7—8.00 p. m., Calculus cremation on the campus.

Alumni day, Saturday, June 8—11.00 a. m., Annual meeting of Alumni association in Drown memorial hall. 1.00 p. m., luncheon in college commons, at which all Lehigh men with their accompanying wives and daughters will be the guests of the university. 3.30 p. m., base ball, Lafayette vs. Lehigh, on Lehigh field. 9.00 p. m., reception by President and Mrs. Drinker in Drown memorial hall.

University Sunday, Sunday, June 9—11.00 a. m., Baccalaureate sermon in the Packer Memorial church, by Rev. Ethelbert Talbot, Bishop of Bethlehem.

Class Day, Monday, June 10—2.00 p. m., Class day exercises on the President's lawn. 7.30 p. m., "The Kahn of Kathan," by the Mustard and Cheese dramatic association, in Grand opera house. 9.30 p. m., Junior reception to Senior class, in Drown memorial hall.

University day, Tuesday, June 11—10.30 a. m., Commencement exercises. Alumni address by W. D. B. Alney, '87, member of Congress from the Fourteenth congressional district of Pennsylvania.

James Mapes Dodge, chairman of the Link-Belt Co., of Philadelphia and a former president of the American society of Mechanical Engineers, yesterday addressed the Lehigh student body in a practical, engaging manner on "Your Opportunities." Mr. Dodge also attended the meeting of the Lehigh Mechanical society.

One hundred Boy Scouts of Bethlehem were an interested assemblage at a special talk by Prof. W. S. Franklin in the Physics laboratory on Thursday evening. Prof. Franklin showed the Scouts twenty-eight experiments of an educational character.

The Lafayette-Lehigh track meet at South Bethlehem on Wednesday, which the Maroon won, 61½ to 50½, was noteworthy for the breaking of two records. Whibney, Lehigh's star, distinguished himself in the high jump with a record of five feet, nine inches, while Beatty, of Lafayette, broke the Easton college's record for the shot put, when he tossed the iron ball forty feet, three and three-quarter inches.

LEHIGH UNIVERSITY.

Dr. R. M. Jones, professor of philosophy at Haverford College, was the speaker in Packer Memorial Church, Lehigh University, yesterday afternoon, at the third of the spring series of religious services.

J. A. Roush, a graduate of the University of Indiana, and of the University of Wisconsin, has been appointed to fill the vacancy of Lehigh's metallurgical department, caused by the resignation of Associate Professor W. S. Landis, who has become technologist for a chemical manufacturing company. Mr. Roush has spent six years in practical blast-furnace work, specializing in the manufacture of carbon electrodes.

The Lehigh student body has received permission to re-establish "The Burr", a literary monthly, popular in the university's earlier days. Richard Harding Davis, the well-known novelist, was one of "The Burr's" former editors.

The list of thesis subjects to be presented by candidates for degrees at Lehigh in June was made public last week. There are 116 candidates in all, the largest number, 33, being in the civil engineering department, with 24 in the electrical and 22 in the mechanical engineering departments. Commencement exercises will extend from June 7 to 11, inclusive.

William Bowie, a Lehigh graduate in the class of 1895, is the joint au-

NINE

thor with John F. Hayford, of a book on "The Effect of Topography and Isostatic Compensation Upon the Intensity of Gravity." Mr. Bowie is inspector of geodetic work and chief of the computing division of the coast and Geodetic survey at Washington, D. C.

A summary of Lehigh's base ball season up to date shows that the Brown and White has won three games, lost six, and tied one. The

team's best work thus far was in the Columbia University contest which Lehigh won, and in the scoreless encounter with Tuft's College.

School and College

LEHIGH UNIVERSITY

Summer School Begins Its Work— Faculty Promotions

Immediately upon the close of the regular term last week, the Summer School of Lehigh University began its 1912 sessions. The scope of the school has been extended to include work in English literature and composition, French, German, physics, mathematics, astronomy and chemistry. The usual courses in the civil, mechanical and mining engineering departments are being given. This work includes visits of inspection to the Bethlehem Steel Company's plant and other shops for the mechanicals, mine surveying for the miners, and land and topographic surveying for the civils.

President H. S. Drinker has announced the following promotions in the staff of the university: Associate Professor H. M. Ullman to become professor of quantitative and industrial analysis; Associate Professor J. H. Ogburn to become professor of mathematics and astronomy (Professor A. E. Meaker retiring after thirty-five years of service at Lehigh; Instructor Alpha A. Diefenderfer to become assistant professor of assaying and quantitative analysis; Raymond W. Walters, instructor in English, to become registrar of the university.
