WAR COLLEGE

Washington, D. C.

Whetford's Log Book, like the ship's log, is a daily reminder,
—the head lines are gems—in fact it is one of the best year books
I have seen.

GEORGE DEWEY,
Admiral of the Navy and President
of the General Naval Board.

January 6, 1917.

"It is with great pleasure that I am using Whetford's Log
Book for daily minutes and passing events."

NEWTON D. BAKER,
Secretary of War,
Washington, D. C.

January 18, 1917.

"Whetford's Log Book is a unique calendar and memoran-
dum book. Good for the busy man's desk."

JOSEPHUS DANIELS,
Secretary of the Navy,
Washington, D. C.

June 15, 1917. Liberty Loan campaign ended and found to be heavily over subscribed.

October 1, 1917. Campaign for Second Liberty Loan started for \$3,000,000,000.

Oct 17, 1917. Transport Antilles torpedoed by Germans on return voyage, with loss of seventy Americans. The first severe loss of the war.

October 26, 1917. First shot fired by American soldier against the German lines. Empty shell sent to President Wilson.

October 27, 1917. Campaign for Second Liberty Loan ended, with more than \$5,000,000,000 subscribed.

October 28, 1917. An American sentry fatally wounded a German soldier, the first by Americans.

WHY THE UNITED STATES DECLARED WAR.

Germany sank the Lusitania and killed more than one hundred Americans and never apologized for it.

Germany sank the Ancona, killed more Americans and blamed Austria.

Germany sank the Arabic and torpedoed the Sussex.

Germany promised after the sinking of the Sussex to warn all merchant ships before torpedoing them, and then in practice threw the pledges to the winds, and ended by breaking all promises.

Germany started anti-American propoganda in Germany.

The German Government made the German people suspect and hate President Wilson.

Germany supplied Russia and Roumania with arms and ammunition, and criticized America for permitting American business men to aid the Allies.

Germany plotted against American factories.

Germany tried to stir up a revolt in Mexico.

Germany tried to destroy American ammunition factories.

Germany blamed the United States for the food situation.

Germany encouraged and financed German-Americans in their campaigns in the United States.

Germany paid American writers for anti-American contributions to German newspapers and for pro-German articles in the American press.

Germany discriminated against and blacklisted American firms doing business in Germany.

Germany insulted American women, even the wives of American consular officials, when they left Germany.

Germany threatened the United States with a Russian-Japanese-German-Mexico alliance against England and the United States.

German generals insulted American military observers at the front and the United States War Department had to recall them.

All this the German government did to the United States before the declaration of war.

CROOKEDEST OF ALL RIVERS.

The crookedest river in the world, according to the Railway and Marine News, is the Humboldt, which flows southwesterly through Central Nevada. At one place the river flows eight miles between two points two and a half miles apart, its course being north 25 times, east 18 times, south 30 times and west 41 times. At thirty-three different points it is within 150 feet of itself, the current flowing in opposite directions. And it ends its course by fading away into the desert.

IT IS NOT EASY

To apologize.	To endure success.
To begin over.	To keep out of the rut.
To be unselfish.	To profit by mistakes.
To take advice.	To think and then act.
To admit error.	To forgive and forget.
To face a sneer.	To make the best of little.
To be charitable.	To subdue an unruly temper.
To keep on trying.	To maintain a high standard.
To be considerate.	To shoulder a deserved blame.
To avoid mistakes.	To recognize the silver lining.
BUT IT ALWAYS PAYS.

FACTS ABOUT OUR GREAT LIGHTHOUSES.

The tallest lighthouse on the coasts of the United States is at Cape Hatteras, 200 feet high.

The brightest light is on the Navesink Highlands, at the southern entrance to New York Harbor. Its candle power is about 25,000,000; it is visible twenty-two miles away, and the Scientific American says it has been seen from a distance of seventy miles at sea under unusual conditions of the atmosphere.

The highest light in the service is at Cape Mendocino, Cal., 422 feet above sea level.

The first lighthouse on this continent was built in 1715-16 at the entrance to Boston Harbor.

Charles M. Schwab

A man pre-eminent in every sense of the word,—one who has built his career on the sure foundation of honesty in his dealings with his fellow-men, just consideration for his fellow-workers, and absolute devotion to duty,—trusted and honored by the leaders in finance and business of our country and by the army of men promoting the industries created and fostered by his genius,—he has by the inspiration of his leadership and by his broad and wise judgment united our community and placed it in the forefront of industry and progress in our State and Country.

Not content with surpassing business success, he has led in the support of music, art, philanthropy, and education. Bethlehem owes much to him and our nation owes more. He and the body of strong, able men he has assembled about him, have rendered and are rendering service in national defense unequalled in its record of progressive and efficient mastery, and to him and to them are gratefully given the acclaim and honor due for services of incomparable value to the country in this time of stress and strife.

July 11 - This A.M. - we still are making short wide zigzags without much progress - apparently as far as we can go without Courvoisier. Rumor that destroyers should have met us last night. - Am censor for news so sailed in on a huge package ^{of letters} about 60 odd - Hell of a job - scratched out or actually cut out impossible parts with scissors. It is a wise man who knows that a wise man does not know too much.

July 12. Rumor hoist & apparently seems well founded on fact that last night at 9 P.M. we sighted a submarine on surface that she submerged then came to surface & flashed 3 green lights - friendly signal - but destroyers went right after her & discharged two depth bombs about 10 miles from ship. Sounded like thunder at 11 P.M. - could not say I heard them. Rumors of sunken boat also picked up from life boat by one destroyer & taken to a port. Anyway this A.M. only 4 destroyers ^{are with us} & the South Stack ^{light} of Wales is visible - about 10 miles away. Blue & beautiful. The sea is quite calm - Irish coast not visible

 small - old weather beaten stone
 oblong, with colonial pillars, a narrow
 tiny worn stepped staircase to the
 second floor where Walter was ensconced
 they soon appeared + we celebrated a
 bit - Funny little low ceiled room
 but with a real bed + closet. Mess

know - sat under the table with
Walter until almost 8 P.M. talking
over old times. Major Baer came
in as we sat down under the trees
with the news
that a big offensive near Saissous
had been started, Americans in it
that Saissous + 10,000 men had been
taken; he was forming teams +
starting.

The Col in command
came out about a half hour later
with a direct report confirming the
news + that we had driven forward
15 kilometers - Great joy + whoops
everybody wildly jovial - We had to
be back at 10 P.M. - so Walter +
Harvey Stone walked back with us.
Billy Fisher also turned up + Tom Boyce
a Capt. Col. - everybody happy - Harvey
Stone asked for some men to help him
+ many rumors of teams going to
the front are rife. He + the Band
sang merrily. We change quarters with rooms

It is well to have a fact

lunch again at 46 Mess.
Just preparing to rest
& had written a letter to
my best Sweetheart when
Major Bancroft came
dashing in & asked
how long it would take
Bissell & myself to
pack our bags & bed rolls
We said 10 minutes.
I jumped into my
heavy wool suit & as
other was at cleaners
& threw things in bags

+ bed roll - as little
as possible but still a
heavy bag. Trained
cars awaiting us
at 3:30 with Major
Fisher + Col Keller
to load us. Bag
Bagger & us loaded
not enough worn-
trucks sent for -
there were 5 teams
from M.O.W. - 3 or
more others from
Base 46 + 42 - 10
machines & nurses -

a few enlisted men
one car of each -
off we went the baggage
to follow as fast as
possible. Rumor
had it, we were to
join the big offensive
at Chateau Thierry - no
further news of which
had reached us -

We turned sharp to
left through Bazailles &
up over the Hill -
picking up railroad to
Noyon. Chateau - & started

down toward Chateau
turned right above it
& followed up the
lovely Meuse Valley
up to St. Thizier -
Beautiful fields & valley
but perfect cloud
of dust through which
we walked often at
50 miles an hour
left at 4.40 St.
Thizier at 7.30 P.M. -
70 miles. 2 or 3 stops
for spare plugs & tires
which were changed

very rapidly
everyone hilarious +
excited - Wonderful
dinner at old
Hotel - Soleil on

on Square - Cafe
opposite where we
had delicious beer +
read communiqué on
church front. nothing
new. Some one
bought bread cards for
bunch. Joyce +

with me - Usual
courses at dinner

clean plates for
each - Peas - Fish -
cheese - Salad - Soup.
Coffee - (2.00)
old Portentus entrance
with side opening
to rooms + dived into
large courtyard -
a lot of Irish A
bully forge to scrub
up. In which we were
gray with dust +
powdered thickly everywhere
We started out at
dusk - learning that

SATURDAY, OCTOBER 26, 1918.

299-67

St Trizer was
frequently bombed by
German ~~at night~~ +
heard our first
boom boom of the
distant guns -
on along a canal
to Vitry la Francaise.
where we had to
retrace the way + there
was a lovely old
Cathedral - The
first cars passed on
the last had big trouble
outside the town. It

was now dark
we ran at first
with dimmed lights
but a red + green
webet flashed for
ahead - the sign
that a Boche plane
had crossed the line
+ on we went without
any - passing
trucks after trucks
in long procession
We sailed on - the
guns behind us booming
louder - then at

half - We bowled
along - signals
+ occasional shooting
distant to north
+ constant aeroplane
drum - We learned
that a Boche plane
gives a characteristic
irregular non synchronous
roar - We had heard
none so far. but the
road was packed with
cars, + ~~trains~~ +
of the old boy that
had come over. Should

Spot us - we were
a wonderful target
it was a bit excitement
I nodded + dozed
in spite of it. we
heard we were going
to Tra Terte' sous
Jaurane - 30 ??? - K.
away. when bang
zumb. my neck was
almost jerked off +
I began to sub backward
then stopped. We were
riding in a car +
I was on the extra

little seat on right
It seems that our
first car, had passed
a cañon + in the
dark had not seen
the second immediately
behind it + had
diverged ~~into~~ + crashed
right into it. One
side of the car was
completely demolished,
the wind shield broken +
one or two of the nurses
slightly cut about the
face. No one was

seriously hurt. The
cañon's rear axle
was broken. The
car behind us, we were
the 4th, had not seen
the danger, flashes -
did not stop as the
others had at 8 ft
intervals + crashed
into us throwing us
into the next car +
putting all three of
the cars out of business
with broken gas tanks
& headlights. We
found 4 cars were
thus hors de combat

WEDNESDAY, OCTOBER 30, 1918.

July 20 - another
momentous day -
we woke at daylight
to find McCreary talking
to a French officer
with quite a collection
of Porcupines + dogs
around us - a cottage
not far away - We
gave the gentleman all
the dogs he desired on
the cause of the accident
etc. Finally he managed
to understand us, promised
to telephone. Hqs at
Chamant + Neufchateau

+ find some one to
take us farther. We
found one machine
apparently in good
shape with plenty of
gas + then a Y.A.C. man
in a Ford came
by, going to Paris
he offered to take us
to La Ferte but
Bissell + Frost were
obstinate + would not
move. We decided
we'd better stick
together so went back
to sleep in the other car

We next see when
a new French officer
appeared from another
direction - He finally
offered to take us to
La Ferre Champouvoise
about 5 K. away &
we promptly accepted
after a labored description
of the accident & how
it happened. Told B. &
T. we'd be back or if
the truck & our baggage
came along to press
us up - We had to
great time telephoning it

seems that the 4 are
at least 4 La Ferre's
or Terte's - one where
we were - Champouvois,
another Terte Sauche,
Terte Milon, & La Terte
sans nom where
we were bound -
We would say a
few words to the right
La Terte and then be
cut off & another
half hour spent getting
the connection again
after 2 hrs we managed
to - road to a Col. Hutton

who ordered us to the
base at ^{Hospital} Coulombiers
anyway we could
get there railroad etc.
I had in the meantime
let Melaney keep up
teletyping + interviewed
the Major of the zone +
sent a telegram after
conversing with an
Alsatian Dr. German +
so having him subject
for me + was trying
to find some wheels
to buy food when I
went back for Melaney
as we stood at the
corner deciding to go back

+ collect the rest of
food. the old baggage
trucks came by
with Bissell + Tote
+ the men perched
upon it. We jumped
on + off we went
This sleep + no Breakfast
+ 9.30 A.M. some
one had said hat
+ snow was 30 in
faller - so we were
all for going on as
fast as possible. We
were quite comfortable
on the baggage - snored

a bit. We saw
numerous airplanes
over head; one starting
from an airbase.
I heard the booming
of guns north of us
one airplane had been
brought down by artillery
at Tiel Champdenaise.
We got gas at Sezanne
the country becoming
rolling + flat, great
farm lands, checked
with wheat, oats + barley
+ red tiled Trench villages
divided across hither + gone

on to Montmirail
right under Chateau
Thermy - where we
had lunch in a funny
little old inn. Bully
meal - 5 F. - the
men in one room.
We with 5 blue devil
+ an officer in another.
Mrs Squires, a cross eyed
ravenous - bleary eyed
dumpy dame beezed
in, told us we were
still pushing on but
with many wounded.
8000 Boche taken + one
General - 20 villages

An American girl, a
Miss Wright followed
her in. Young, pretty
complexion, a little on
stilt. - They were helping
in a French Field
Hospital just up the
street - many blesses -
Perhaps great fighters
We invited them for
lunch but as we
were filling duty &
half through our meal
they adjourned after
10 or 15 min to the mess
room. We had great fun

talking to the Blue
Devils & the officers
much better looking
type of Frenchmen
Finally on me
went I found I had
lost the cap. Mayo
Bancroft had lent me
& found one of the
soldiers had picked it
up & had torn the red
border off but he
promptly returned it when
he heard it was
mine. More lull
country now

Le Plessis Tracy -
day on Multien to
Betz then on to
Crepy en Valois &
finally Seny-Magnerval
The road was hilly
cobbled like village
streets but filled &
cannon mud more
pop & bustle & real
stuff. We were now
right behind the advance
where the 75's had been
emplaced & a big gun

still was camouflaged.
passed the old barbed
wire entanglements of
1914 only 3 ft high
but double rowed &
tangled. over grown
with grass. Trench
Soldiers billeted everywhere
under every cover
almost. - Every
collection of trees or
buildings - towns
here have all been
bombarded or bombed
fewer people - buildings
demolished & deserted

8 P.M. we were to
start at 8 A.M. next
day so we had missed
nothing. ^{20 ft}
from the operating
room was the vilest
latrine imaginable -
alive with maggots
almost full - wide
board surface. ^{merdy}
a wide ditch, exposed
except for a roof of
flies + the 4 winds of
heaven. The French
soldiers urinate anywhere
they may be on the

middle of nowhere -
plain sight, beside a
tree. ^{Booster} Flies are
present everywhere
esp. in operating room.
as elsewhere - no screens
tents are pitched
heterogeneously - it is
a vile unsanitary camp.
The stream is rapid +
seems dirty but I
bathed as I was
so dirty + went to
bed - feeling great
around the operating
tent + the Chateau
all the entrances to ground
was covered + wounded

SATURDAY, NOVEMBER 16, 1918.

Oklahoma has a peanut crop of 100,000 bushels, or just enough for the first seven innings between the Giants and the Athletics.

One boy we operated
had 3 brothers killed
by the same shell
that hit him (10 wounds)
They all said we've
got them going -
Sonsos + 8000 men

occasional detonation
of bombs. Bore machine

coming our way but
seemed to turn away
about to get out of
Bed when firing died

anti aircraft guns from

almost incessant

machine gun action
What at breakfast at

Major

In T. shes + Col. Keller
 here to-day - complimented
 us on the work we had
 done - gave interesting
 information. Germans
 had separated French +
 British at Chateau
 Thierry - French had
 given up - but the
 1 + 2nd American Divisions
 were thrown on the
 beach - not only saved
 today but started this
 present offensive.
 One Ser. captured is
 said to be Von Emsen
 50 nurses are said
 to have been captured
 by Germans - all have

been outraged - one
 has been sent back
 by with syphilis -
 inadequacy of medical
 preparations in present
 offensive laid to ignorance
 of American authorities
 or rather lack of information
 from the French as to
 when it would occur.
 They consider that
 the Medical Dep't has
 fallen down - most
 of the wounds are
 3 to 4 days old
 either localized abscesses
 clean Wds - Penetrating

not supporting Wds
or advanced gas
gangrene. The latter
are the cause. no
serum, so Holsin,
+ almost too late in
many instances to
save. Not many
head cases or gas.
Shrapnel - 1/2. Not
Poe was sent through
here yesterday.
We are going to be
shock surgeons sent
where the fight is
hottest, will probably
leave in 2 days as
work is very light to days.

1+2 Jim moved
up in trucks from
near Paris in hot
bills to 2014 from
front then night
march to road +
right on into the attack.
Great surprise to
sermons.

on again at 8 P.M.
Two interesting cases. one
a bullet Wd - apparently only
an abrasion c. bullet
lying just beneath it
through the fascia. +
shrapnel Wd of buttock
protruding + perforating skin
near crest + dropped down
just palpable almost to

July 24. - Slept through
breakfast until 9.9M -
wakened when Major Banerjee
asked me to dress some
cases c. him.
Dressed - interesting dope
only square compresses +
I think forceps. No solution
of any kind - No other sterile
dressing + no cotton.
Big dressings sent to Op.
Room. Discovered one
gas gangrene almost
hopeless. inadequately

Found a Blanchissans

down the brook - a
lovely falls with a
soldier taking a shower
under it - I came
upon a beautiful estate

with steam running

very old - standing high
on the hillside. It

a Boche he was fighting

The Travers said he
hadn't any - but when
they landed here a
knife was in the

blame these boys

it's easy enough to
sit back in the States
& say "These losses
are terrible but we're
licking them & we've
got to make sacrifices"
but when you see all
our American boys
victims of the damn
diabolical degenerate
condominate that the
Kaiser & his ilk have

the same feeling comes
into your heart - that
unsatiable desire to

No, Alotzo, the extreme suffragette doesn't want to be man's equal. She knows she is, and always has been, his superior.

MONDAY, DECEMBER 1, 1918.

July 28 - Up promptly at
 6 AM. Worse the bunch
 great glad preparations. Ruby
 Dwight appeared, looking much
 better though still very pale + washed
 out. Breakfast betimes - gas
 is O.K. - very little gas - Truck
 appeared in mud but movable -
 piled our stuff in + we shook the
 dust + mud of Sery - Magneval from
 off our feet amid song + shout.
 At Crepy we found no trains for
 Paris so proceeded over a military road
 to Arroy - Villers - a stone block
 straight road - + in a truck. No one
 would put a drop of Sery water
 in canteens as we suspected it as
 the source of our trouble so we were
 a thirsty crew. Train didn't leave
 Arroy for 1 hr - we sought canteens
 Red Cross + Y.M.C.A. establishments for
 chocolate, wine, or fluids. Sunday, nothing
 sold in French huts till after 11 AM -

small baggage car took our bed rolls

Paris built up + under a building
boom apparently like any large
American city. lots of cheap prices
etc. - new rows of houses on outskirts
city proper still identifiable by old
wall + moat green with grass +
grazing cattle. Montmartre loomed up
on right + the Eiffel tower far ahead
Plenty of bustle in Paris we saw no

sign of a guard on the train ~~but~~
no communication even between compartments
& had to give our tickets to be
permitted to leave the train shed - Real

we started really through Paris

not prepossessing & general impression

Place de l'Opera - Here real Paris
seems to begin - to Rue St. Anne &
the Provost - Americans in neighboring

all the unvariable uniform -
Auzacs, big burly, strapping,
powerful strapping men, a wonderfully
striking type - Paulus - Americans,
Belgians - Officers - Belgians
distinguishable by their tasselled caps.
Down the Rue Royale to
the Madeleine ~~where~~ ~~the~~ ~~the~~ ~~the~~ ends
we followed the devout crowd up
the "escalier" through the porticoed
marvelous old Ionic pillars to

the lovely interior - superb in spite of
its sand bagged shrines - a marvel
unmolested by Seman Rapine or
Ravage - the semi oriental Seman
quite in keeping with the sensual
impression of the lofty ^{+ deep} sculptured
~~trunk~~ + nave - hanking with altar
lights - Can this be some of the
secret of Catholicism - the inevitably
strong impression of the architectural
hardness + stupendous size of their
cathedrals with the ethereal type of Seman
the Incense - the man tone far away songs.

348-18 SATURDAY DECEMBER 12 1918

the mental impression of all this upon ~~the~~ youthful receptive mind can not but be tremendous.

The quaking of the spirit - the terrors of Hell can not but seem real.

The excellent choir, the incense, + the tenor soloist all aided the impression upon us all as we almost simultaneously remarked it.

Back to Deyo finally - ordered chocolate + Bread to go with the oil. He seemed much better already - out again to the Barber - conversation with him easy - my French astounded me - but a dictionary would always be produced in case of difficulty - He was a brancardier of nee worked in M. Broca's Hospital gave "prequres" - Had Psoriasis which I spotted + made a lot with him. In between a valuable deluge of conversation I was relieved of sufficient hair to be presentable again + all for 1 fr.

SUNDAY DECEMBER 14 1918

minute at a table the next
moment. There was no lack
of interest or excitement here.

The show was a Keith's vaudeville
with Parisian Embellishments
poor dancing & the French impossible
to understand - plenty of unimpeachable

pantomime however. We were
entertained for about an hour &
then wended our way safely back
to bed, rather disgusted. Paris
is too bald - harps too much on

one theme - Puts on all the
flimsy embellishments, the
unsubtle refinements with one hand,
& sheers them off with the other,
yet simple gayety and good time
even in war time pervades the
atmosphere - a bully old town
for a ^{good} crowd, big or very little.

The wise man always has the construction cane a mile ahead

July 29:- Breakfast at 8 - as
 we planned to drop - another
 delicious omelette - melon -
 rolls - We hunted for the
 Quartermaster first, found he had
 but little & then started off for
 Smith's - Coles, Burberry's -
 Old England - Guaranty Trust &
 the University Union - Saw
 some wonderful whip cord at
 Burberry's - trench coats too
 expensive however - caps also I
 didn't like - thought I'd try
 Neuf Chateau first - Parisian
 streets have a great habit of
 changing names after two or
 three blocks as witness the Rue de la
 Paix - Place Vendome - Rue de Castiglione
 the Rue de Rivoli & Rue Lafayette
 seem to be the great exceptions.
 The University Union is a cramped
 little club with rooms & meals at very
 reasonable rates but a cleaning

house for people in Paris especially
Americans, registered, found "Tige"
Lyons, was in Paris also and
picked him up afternoon at the
Continental - also Dick McSherry
in the evening, looking quite dispirited,
rather proud, he had a son though -
He is in the Quarter-Master Dep't, helping
& investigating French methods along
the Chateau Thierry area - base at Tours,
on his way back to Tours - Well -
discovered good beer at a little cafe, then
jumped into a taxi - Majors Bancroft, Kern
& I still - & sailed along the Rue de
Rivoli, Place de la Concorde, Champs
Elysees - Arc de Triumphae - sand bagged
on one side - like the base of
Jean of Arc in the Place Vendôme
down the Rue du Bois de Boulogne ^{Rue Kléber} to
the Trocadero - the Eiffel Tower - Rue
du President Wilson & back again to the
Place de la Concorde & lunch. Steaks &
potatoes - sole & tiny oysters - another
wonderful meal.
after lunch we started in to buy

Then we set out for Dr. Blobe's
Hosp. Rd. No 2 out the
Elysees again - the Rue des Bois
& were personally conducted by
Dr. Blobe through his femoral &
humeral fractures - the traction on
the plantar surface of the great toe
was especially instructive to me.
He uses a modified Thomas splint
for suspension with a pin or tong
through the femur for traction as
adhesive strips & tears the skin -
a few were corrected - All done
well. one required readjustment while
we were there. Christopher was
in the operating Room - where a
suppurating knee had just been
opened. He apparently is having a
bully service there - Hospital is
a large town House - given over to
Dr. Blobe but all rooms are cramped
quarters for overhead frames
on to Neuilly - No 1 Dr. Blobe's
old establishment, across the old moat
filled level to the road - chauffeur ticket

MONDAY, DECEMBER 29, 1918.

Envy is a curious thing. The poor cover the luxuries of the rich.

necessary to pass the gate.
 Huge Lycerum used as Hospital
 well adapted crowded + full
 supplementary tents unoccupied.

Big operating room - 15-20 teams
 on call - including Bradner
 apparently apparatus not as
 well used as at No 2. - extra
 operating room for emergency work.

Back through the Bois de
 Boulogne - met Major Phenister
 on street. - confirmed suspicion that
 French in surprise counter-offensive
 had not notified Americans - to keep
 secret as close as possible. Medical
 Dept consequently unprepared as
 French thought their facilities would
 be sufficient - Huge stream of
 wounded deflected everywhere evacuated
 back even to ports - Feeling that
 permanently + very severely wounded
 will be sent right back to states from
 now on. Med. Dept certainly fell
 down in last drive due to chaos.
 The Bois like a small Central Park

but full of well hidden cafes
more heavily wooded - back to
Maximo Bay crowd here &
the best looking girl so far but
much assistance in acquiring that
state - a good Bronx but a
Maxim special that I couldn't drink -
side Vermont - Another delicious
dinner & then the Folies Bergues.
Same loge - entire 'acte' Rencontre
a better orchestra, better crowd, but
of unsafe & unsavory variety
& a show comparable to the Zigfeld
Follies with Parisian inferences &
amplifications - very amusing - the
French perfectly unintelligible to me.
The Home gang was much more
relaxed from here - En Passant
he it said that the police inspector
proved to be sitting at our table
in the Intermission & he told us that
the crowd might look well but was
pretty rotten. A collar usually disguised
scars of tertiary lesions - 99% were
infected 300 new cases a day at

the venerable dispensaries before 7
the war. - We attained
the Boulevard Montmartre
des Dames + Place de l'Opera
from which the going was easy.

We just had a faint smattering
of Paris but there is plenty to
see left + St. Denis - Versailles.

Mal Maison - Montmartre.

The Louvre, Les Invalides, The
Tuileries + The Seine - the Bastille
+ all the cafes but I want to
do after the War all over again
+ thoroughly.

July 30. Up at 6. with great
difficulty packed & ~~by~~ rushed
baggage down to 104 but forgot
my "tin hat" & dashed back for it.
Very little breakfast. No chocolate left.
off in taxis for Gare de L'Est.
Great system in France - all railroads
owned by the state (Etat) & are
named according to their direction
from Paris as "Ouest" - "Nord"
"Sud" + "Est" - Stations accordingly

a Military Ticket is a single thing
but a citizen ticket is a regular
leaf of a ledger - Baggage checked
& aboard. - First class seats O.K.
but also L.C. nurses appeared
that we promptly took in & included
in our compartment as they had no
reservations. One an old timer,
a wonderfully voluble but capable
old bird - fine kindly face, in the
Spanish American War too - child
welfare chiefly but now out to Alsace
to look for Americans in French Hospitals

the youngster with her just out of
N.Y. pale hair almost albino.
ears pale - peculiar vaso motor
blush of ears + cheeks at times
her French interpreter - a P.C
assistant. I was dead sleepy
+ passed away most of day
dozing or sound asleep but the
boys played Bridge with the
flossy dame + we all took
turns listening to the kindly
energetic dame's experiences - We
were due at 12.45 at Langres our
junction - so we had no lunch but
eggs + meat brought with us
though there was a diner on the
train - We came over the same line
as we did from Harre as far as Chaumont
then down to Langres. which we didn't
reach until 2.30 P.M. I was most
dead for food + drink - no water in
carbets + we had brought no wine
with us. Long wait to get our
baggage off train + I wanted no

food until I had fluid because
 my mouth was all feathers. I picked
 a sign reading Buffet - enough for me
 dropped my heavy old bag in a corner
 of the room, sat down at a table with a
 good looking aviation officer + 2 others
 Major Ken also followed along - that
 our ordnance certainly ^{wasn't} the
 spot, but no more food, but sardines
 The aviation boy had just finished his
 "steak + potatoes" so turned over his
 remnant of a loaf of bread - + with 2
 boxes of sardines + more rum we did
 very well.

Our friend was going back
 to a school of instruction after having
 done strafing work at the front -
 Incidentally I saw Crawford L.V. 15
 at the Guarantee Trust ^{Paris} in aviation a
 year. C French also strafe - low flying
 troop bombardment. Worked very well -

It was damnably hot + I was shell
 dead tired. Parisian life beginning to tell
 so I piled aboard our next train which
 was waiting on a for tracks. The
 bunch soon followed. A Second Lieutenant
 of Infantry appeared, looking for a seat

interesting lot - one child very spoiled
ate constantly. - peaches, bread, candy.
other children spoke excellent French
could understand them better than
elders. - Langres the junction
point is a weird old collection of
houses, crowning a mesa-like
prominence, overlooking the entire
surrounding country - Citadel +
Batterments with city surrounding
+ slipping down + off the hill from
them. - with the lovely blue afternoon
sky + the white walls + red tiled roofs
it was a lovely picture as we
drew away. - Very slow progress.

I still dozed away - winding
hilly country full of grain fields but
no corn. + long collections of thatched
houses in the villages - one fair
sized lake - Bourmont a few
miles below Bazilles another grand
old collection of medieval castles +
town crowning a hill - dominating
the country round about - I am

July 31 - Awakened by "Chinois" next
door - Portuguese getting ready for
mess. High time however for
Breakfast. None too good - only
Bread, jam + cereal. Wupacked
all the blanket rolls of my possessions
Blankets filthy - put out on line.
Seized a "Chinois" + got him busy
on all my old laundry + the newly
acquired collection - funny, smiling
squinting Chink who had picked up
a little English - Great dope for
the boys who had been left - + catching
up with this diary - all new
orders read to us at 8.30 - trench
required - Hunted up my suit at the
tailor's, trousers but not coat
finished - only fair job but the
pressing excellent. Room all
settled again - Identification cards
have to be made out immediately
have no picture to fit them + none
with hat - off for Neufchateau with alby

at 1 P.M. Long wait at O.M.²
for trucks. Finally off - lovely
view of valley with Hospital Bases
& center from Hill over which road
stretches. Hanger - trench - new -
on top of Hill - flat plateau well
camouflaged on margins of woods.
long - gradual descent into Muefchaten
6 H. away - straight road. N.

Mense - quaint old town, narrow
winding streets, over a rolling hill.
Stores with army supplies but shoddy
country goods usual - 2-3000
inhabitants - but two streets of stores
dingy little places, but American
or almost American prices. Went
to the bank had some money changed.
Alley chaperoned me to the photographer.
Tiny little smelly house - dark - with
a small dirty garden behind - 8 or 10
square surrounded by a wall. The
retiree is lined up against the

I have a feeling that the American
 Uniform is rapidly adding ^{Traces}
 to the price of everything even
 in this vicinity. I tried
 everywhere for a Bed Ball cover
 but no luck - but did buy some
 goggles - Finally as it was
 hotter than blazes I sought out
 the Lafayette Club - a low bungalow
 building - with a small lawn & table
 + a cafe. - The officers' club. +
 found Major Bancroft, - Tito, + Bocock -
 several others came in - Had a
 lemonade or two + thus bolstered
 started homeward - a long hot
 dusty walk - but picked up half way
 over. a bully hot bath ^{at the Eng. Show} - a
 greasy jam meal + then I lumbered
 up Waller at Base 18. found
 him in the middle of a transfusion
 shaped wound of lung - rotten shape
 picked up enough to have thoracic
 exploration by Stone - punctured lung

Aug. 21 - Still

Meals very punk - have

finished diary to date

my coat. when orders to

Packed everything well +

laid sock, bird article, razor etc

Sweater - goggles + trench
light socks. Bed Roll
holds the rest - extra shirts
shoes - odds + ends
Packed trunk + bag left
behind - locked everything in

painful wait - but got

20 F. notes - a damn
misadventure but I needed
the money -
Finally transportation
arrived - 2 ambulances

baggage) - I rode in
